

# **REQUEST FOR PROPOSALS**

**FOR**

## **Multi-Function Device/Digital Copier (MFD) and Managed Print Services (MPS) Lease and Maintenance Services**

**OWNER:**

**WILLIAM S. HART UNION HIGH SCHOOL DISTRICT  
21380 CENTRE POINTE PARKWAY  
SANTA CLARITA, CA 91350**

PROJECT DESCRIPTION

**Multi-Function Device/Digital Copier (MFD) and Managed Print Services (MPS)  
Lease and Maintenance Services**

for

*WILLIAM S. HART UNION HIGH SCHOOL DISTRICT*

**Proposal Package No. WSH16-06B**

**ISSUED DATE:**

**July 1, 2016**

**Los Angeles County  
The Governing Board  
William S. Hart Union High School District**

## **NOTICE INVITING PROPOSALS**

**NOTICE IS HEREBY GIVEN** that the William S. Hart Union High School District ("Owner") is seeking sealed proposals ("Proposal(s)") for Request for Proposals ("RFP") for [Package WSH16-06B](#), Multi-Function Device/Digital Copiers (MFD) Lease and Maintenance Services ("Services"), from qualified companies ("Company") with expertise in multi-function, "Facilities managed", imaging devices to support the imaging needs throughout the Owner facilities.

**SUBMIT PROPOSALS** at William S. Hart Union High School District, Board Room, Attn: Agreement Specialist, 21380 Centre Pointe Parkway, Santa Clarita, CA 91350 not later than [July 25, 2016 by 2PM](#). Proposals must be on the form included in the RFP package. Each Proposal shall be in accordance with the plans, specifications, and all other documents set forth in the RFP Package (hereinafter collectively referred to as the "RFP Documents").

**RFP DOCUMENTS** are available from [www.hartdistrict.org](http://www.hartdistrict.org), by clicking on Departments, Purchasing & Bids, Notice Inviting Bids, RFP [Package WSH16-06B](#) - Multi-Function Device/Digital Copiers (MFD) Lease and Maintenance Services.

**REQUIRED PROPOSAL SECURITY:** Company shall submit with each Proposal a cashier's check payable to the William S. Hart Union High School District or a satisfactory bid bond in favor of Owner, executed by the Company as principal and with a satisfactory surety company as surety in the amount of \$100,000 as a guarantee that Company will enter into the proposed Agreement if the Agreement is awarded to such Company. If the Company fails to enter into said Agreement, such security will be forfeited. Company may not re-use any prior bid bonds issued in favor of Owner to satisfy this security requirement.

**ALTERNATE PROPOSAL:** Additional Alternate Proposal Items may be added through Addenda. Company shall set forth the proposed price for each Alternate Proposal Item listed where specified on the proposal form. Failure to provide a proposed price or "no change" entry for any Alternate Proposal Item listed will be interpreted as indicating "no addition or reduction in price" for that Alternate Proposal Item.

**AGREEMENT CHANGES:** The Owner reserves the right to add to or deduct from the Agreement any of the Alternate Proposal Items proposed, after the highest scoring Company has been determined.

**AWARD OF AGREEMENT:** Award shall be made to the qualified Company whose proposal meets the evaluation standards and will be most advantageous to Owner with price and all other factors considered.

**Owner's Rights:** The Owner reserves the right to reject any and all proposals, to make multiple or "split" awards (if applicable), and to waive any irregularities in any proposal.

William S. Hart Union High School District

## **WILLIAM S. HART UNION HIGH SCHOOL DISTRICT**

### **INTRODUCTION/PURPOSE**

The purpose of this Request for Proposal (RFP) is to solicit proposals from qualified companies, hereinafter "Company," with expertise in multi-function, "Facilities managed", imaging devices and expertise in providing managed document services to realize cost control and volume management across ALL image production devices while supporting the imaging needs at the William S. Hart Union High School District, herein referred to as "Owner".

Approximately 23,000 students are enrolled in the Owner's six comprehensive high schools, a continuation school, middle college high school, independent study school, six junior high schools, an adult school and a College and Career Readiness Program (CCR). Additionally, Owner operates a host of administration offices, including a Maintenance Building, a Transportation Building, a Business Annex, Career Visions Building, Warehouse and District Office Building. All of the Owner's locations are within the Santa Clarita Valley, but not necessarily within the city limits.

It is Owner's intention to replace the entire existing multi-function device fleet, as set forth in Exhibit A, and the production equipment in the District Copy Center ("DCC" or "Copy Center"). Owner schools and offices average a yearly MFD Black/White (B/W) print volume of seventeen million (17,000,000), a color copier at the administrative center with a yearly print volume of seventy-five thousand (75,000) and a Copy Center average yearly B/W print volume of forty million (40,000,000). Proposed multi-function machines must be a modular/upgradeable offering and able to concurrently copy, print, scan and fax. Proposed multi-function machines must have the ability to view all jobs, current and pending, and a walk-up job queue. Proposed Multi-function machines must have the ability to integrate with Proximity Cards and require a central queue where any job submitted can be retrieved from any device anywhere within Owner's facilities (Owner does not currently use Proximity Cards). End users must be able to select finishing options for the follow-you device (this feature is not intended to be used by students. It is intended for Owner staff only). Company shall offer software to manage each step of the document cycle from the desktop by viewing jobs in the queue and hold, promote and delete them (Owner currently has 100 licenses). Owner is looking for an integrated network scanning service for document management, scan to network server, scan to Copy Center, scan to PC, and scan to E-mail using live global address list from Owner Local Directory Access Protocol server (LDAP) or Active Directory (AD) servers, able to submit jobs electronically to Owner duplicating equipment.

It is also Owner's intention to continue Managed Print Services (MPS) for the entire desktop printer fleet. The current asset base consists of 1093 desktop printers, all are currently networked. Currently printers are configured for District IP connections or through Microsoft Print Services. It is the Owner's intent to use the existing MPS asset base until the asset base reaches the end of its useful life. Company shall service the existing asset base and replace printers when required from Company branded units or Hewlett Packard units. Company will communicate printer replacements with Owner's Director of Technology. Printers will not be replaced prior to Owner's consent. Owner will allow Company to replace whatever printers they cannot support, or replace printers to attain new technology with lower costs. The proposed printers shall provide requirements that are equal to or better than the specifications outlined in this document. All desktop printers, provided by Company, during the term of

the Agreement will be owned by Owner at no additional cost, at the end of the Agreement term. Company will not only supply and service the printers, but shall also provide a uniform-print driver, server and queue management. Company will be afforded the opportunity to make recommendations for data-driven additions or deletions during the term of the Agreement. Owner schools and offices average monthly print volume on the desktop B/W printer fleet of five hundred forty-four thousand (544,000) and the desktop color printer fleet of twenty-two thousand (22,000) and the desktop color cube printer fleet of four thousand six hundred (4600). Company shall drive uniform device behavior across the MPS environment and provide firmware updates to comply with Owner's security standards. Company shall provide monthly reporting that shows compliance and identifies gaps that can be fixed. Owner desires print-governance software to manage employee printing and control the device output between all devices. The diversion shall be offered as a suggestion for each user to accept or deny. System shall be able to report each user's acceptance tolerance. Automatic diversion may be implemented during the term of the Agreement. Inventory information on the current equipment is located in the Attachments section.

The Copy Center is of vital importance to Owner's document output success. Owner expects Company to hire, recruit, manage, train and motivate personnel and set the hours of operation to manage the volume and expectations as outlined in this solicitation. Company's ability to meet the needs of the Owner's Copy Center and to offer expert managed print services will be paramount in determining the responsiveness of Company. The Copy Center requires Facilities outsourced personnel to support the document/imaging output, as well as maintain the MFD and printer fleet at Owner's sites. Users shall submit their copy jobs for next day delivery via scanning directly to the Copy Center, via hardcopy pick-up by Company associate and via electronic submission via web interface from user's PC. Each user is guaranteed next-day delivery if their submission is between 50-1500 impressions. Company personnel shall manage the copy job requests, received at the Copy Center by 4 PM., in order to return them to the user mailboxes at each site the following morning by first bell. The High School first bell is 6:55AM and the Junior High School first bell is 7:55AM. Owner reserves the right to change the first bell schedule at any time. Company's delivery of jobs will not be limited to the times set forth above. From time to time, Company may be required to deliver lost, re-run, or emergency jobs at any point of the day during Owner's normal business hours. Company may also be required, from time to time, to deliver supplies for equipment to properly function. Such deliveries shall be made at any point of the day during Owner's normal business hours. All jobs shall be individually banded or shrink wrapped for security. Company shall be responsible for providing the vehicle to accommodate the daily deliveries. Company shall be responsible for first response break/fix for all equipment throughout all of Owner's facilities. The Owner desires four (4) production units to manage the yearly volume produced by the Copy Center that will print jobs concurrently for faster production of transactional jobs. More information regarding the Copy Center specifications is included in Exhibit B. The Copy Center is located at 18536 Soledad Canyon Road Canyon Country, CA 91351. If Company would like to visit and assess the Copy Center, they should make arrangements with Owner Representative. Company will be allowed one visit only. Please note that the Owner currently supplies the following pieces of equipment at the Copy Center: pallet jack, shelving, dollies, landline sets, desks, tables and chairs. Owner shall also provide, maintain and make available to Company, one (1) Windows workstation in the Copy Center. Company will provide an email account for Copy Center use.

Owner is also exploring the ability to add digital color capabilities to the Copy Center in an effort to provide Owner and the community with high quality reprographic services. Owner is requesting a proposal for these services as an Alternate to this RFP. A primary objective to Owner is the overall

reduction of reprographic expenses by off-setting current costs through the generation of revenue obtained by providing services to community partners. The goal will be to develop a program that has the ability to sustain itself within the first twelve (12) months and continue to grow the program during the term balance. In order to achieve this objective, Company shall provide personnel possessing Graphic Arts/Marketing experience to aid in the set-up and design of any work output. For more information regarding color capabilities, please refer to the specifications in Alternate 1.

The proposed equipment shall provide copy, print, scan, fax and finish requirements that are equal to or better than the specifications outlined in this document. Company shall successfully identify and address workflow problems, and provide adequate back-up or work-around solutions in the event that an MFD device is temporarily disabled due to maintenance issues. Company shall provide maintenance during Owner operating hours. WiFi access is provided to almost all Owner interior locations and is available to all users. Firewalls restrict traffic between locations, but ports can be opened if required. Wireless connectivity and Cloud Technology is not required, but your company may propose it. No Overtime charges will be allowed unless authorized by Owner prior to the service being rendered. For reference, the following are the hours tracked for the 14/15 school year, but not necessarily billed.

- September 2014: 200 hours
- October 2014: 120 hours
- November 2014: 100 hours
- December 2014: 60 hours
- January 2015: 120 hours
- February 2015: 120 hours
- March 2015: 120 hours
- April 2015: 120 hours
- May 2015: 80.0 hours
- June 2015: 0.0 hours
- July 2015: 0.0 hours
- August 2015: 0.0 hours

Owner also desires to avoid departmentalization and segmentation between networked printers and copiers in an effort to solve the Owner's document output environment as a whole. Company shall partner with the Owner to define, identify and implement value added resources and engineering to improve the document output environment. The Owner desires to enter into a lease Agreement that provides cost effective flexibility to add services for new sites, and move or change copier location to promote longer life expectancy of units producing large volumes.

Companies submitting proposals to this RFP should endeavor to reduce the total cost associated with document output, including equipment, supplies and maintenance, reduce the demand on internal resources and achieve rationalization (right sizing) of the asset base. Company shall offer favorable terms for adding or changing throughout the term of the Agreement onto the lease Agreement with coterminous end date to the original [sixty \(60\) month lease Agreement](#).

The Owner expects to execute a [sixty \(60\) month lease Agreement](#) with zero buy-out at the end of the lease term for Multi-Function Devices and Managed Print Services, including the determination, installation configuration, maintenance, repairs, reporting, accountability support and proactive

replenishment of consumables. All desktop printers, provided by Company, during the term of the Agreement will be owned by Owner at no additional cost, at the end of the Agreement term. Implementation of the new MFD equipment shall be completed no later than [October 31, 2016](#). There is zero buy-out of the current lease.

This RFP Document requires that the units offered or shipped, as a result of this RFP Document, shall be new in the box, OEM parts, ISO-14001 certified without defect and shall comply with all current safety orders of OSHA, CAL-OSHA and/or NIOSH and OSHA-OSHA. No re-manufactured equipment will be allowed.

Company shall attend an in-person meeting to discuss installation, progress, service/equipment, issues, usage, changes to copier placements, new orders, billing, recommendations for right-sizing/replacing units, etc. Meeting will occur at least:

- a). Weekly; from award of the Agreement until two-weeks after installations are complete,
- b). Monthly; thereafter for the duration of the Agreement at days/times set with Owner.

The Owner shall dedicate one Buyer, a Director of Purchasing, a Director of Technology Services, a Senior Account Clerk and the Chief Financial Officer to this relationship. Owner shall supply all paper consumed in the production of user job requests.

Owner reserves the right to negotiate additional Service Level Agreement parameters and measurements upon award of Agreement.

### **SUBMIT PROPOSALS IN A SEALED ENVELOPE TO:**

WILLIAM S. HART UNION HIGH SCHOOL DISTRICT  
Attn: Diane LeMasters, Contract Specialist  
21380 Centre Pointe Parkway  
Santa Clarita, CA 91350

**PROPOSALS MUST BE SUBMITTED NO LATER THAN: MONDAY JULY 25, 2016 by 2:00 pm.**

**PROPOSAL REQUIREMENTS SECTION**

## **INSTRUCTIONS / INFORMATION FOR PROPOSERS**

### **1. PREPARATIONS AND SUBMISSION OF PROPOSAL:**

Proposals must follow the specific format outline below and be presented on the form(s) included in the RFP Documents and must be submitted at such time and place as is stated herein. Proposals shall be completed in all respects as required by the instructions herein. A Proposal may be rejected if it is conditional or incomplete, or if it contains alterations of form or other irregularities of any kind. A Proposal will be rejected if, in the opinion of the Owner, the information contained therein was intended to mislead Owner in the evaluation of the Proposal.

All Proposals shall be submitted in sealed envelopes. Affix the completed Proposal label provided in this solicitation to the front of the sealed envelope. The completed proposal, together with any and all additional materials as required, delivered or mailed to the attention of Diane LeMasters, Contract Specialist, William S. Hart Union High School District, address 21380 Centre Pointe Parkway, Santa Clarita CA 91350. It is the sole responsibility of the proposing company to see that his/her Proposal is received in proper time. In accordance with Government Code Section 53068, any proposal received after the scheduled closing time for the receipt of proposals shall be returned to Company unopened.

Company shall submit responses to written questions on duplex 8-1/2" x 11" paper in a bound presentation format; font size no less than 11. Use of 11" x 17" foldout sheets is prohibited. Company may not provide promotional or advertising information.

Company shall submit one (1) original and three (4) copies of the required submittal responses.

Costs of preparation of Proposal will be bore by Company. This request does not constitute an offer of employment or Agreement for services.

### **2. IMPLEMENTATION PLAN:**

Company shall assume a September 21, 2016, award date, and an implementation completion date of no later than October 31, 2016 ("implementation period"). Company shall submit an implementation plan for all proposed equipment to be installed at Owner sites (schools/departments/offices) and Copy Center. The implementation plan should be as detailed as possible based upon the information in this RFP and past experiences with other clients with similar scope and size, including an overall roll-out strategy by site, with specific dates for each implementation phase. The plan should include the names of Company's transition team, including a dedicated transition manager and software analyst.

The implementation plan must address, at a minimum, the following elements: (1) equipment order and received by dates (2) device certification and application testing dates, (3) enterprise software design validation, loading and testing dates, (4) site readiness evaluation completion dates, (5) compatibility confirmation test dates, (6) proximity card readers installed and testing and completion dates, (7) device and application set-up, testing and completion dates, and (8) end-user training dates.

The implementation plan should include an equipment floor plan for the Copy Center facility, identifying each piece of equipment and electrical requirements. The Copy Center facility (4,393 square feet) includes a restroom and two offices (216 square feet and 412 square feet). A sketch of the Copy Center can be found in the Attachments section of this RFP. Company- submitted floor plan must be to scale for the electrical placements. Owner will use the provided information to determine electrical changes necessary to accommodate the Company proposed equipment.

During the implementation period, Company shall complete installation of the server hardware and software necessary to support the solution. Company shall configure all MFDs, printers, and servers connected to the Owner's network. Owner will provide static IP addresses and any other information required to communicate with the Company's network, however Company shall perform all actual configurations.

Owner's current MFD fleet is expected to be decommissioned November 1, 2016. The selected Company shall begin implementation steps such as equipment delivery, staging, and setup as early as September 22, 2016. All initial installation shall be complete no later than October 31, 2016. The successful Company shall coordinate installation of new devices with current provider to ensure sites (schools/departments/offices) experience no downtime. Owner representative requires a two (2) workday advance notice for site access. Company shall submit a final site access schedule and work plan to Owner for approval no later than one-week of an award and prior to Company's onsite arrival.

Failure by Company to complete implementation within the implementation period shall subject Company to the assessment of liquidated damages in the amount of \$5,000 per calendar day, until all equipment and supplies are delivered, installed, and fully implemented.

### 3. COVER LETTER – LETTER OF INTEREST:

Company shall include a cover letter not to exceed three (3) single-sided pages and shall include the Company name, address, and telephone number; fax number, E-Mail address and the name of the principal to contact. A representative of the firm authorized to bind the firm by Agreement shall sign the letter.

The letter will consist of headings that match each of the five (5) bullets below with the related experience under each appropriate heading. The cover letter shall address the following:

- 1). **MFD and MPS Services:** Briefly, summarize your company's experience in B/W and Color (MFD) and managed Print Services (MPS).
- 2). **Facilities Managed Copy Center:** Briefly, summarize your company's experience managing a Facilities Managed Copy Center with Company outsourced personnel.
- 3). **Digital Color Press:** Briefly, summarize your company's experience managing digital color press and developing associated marketing plans using personnel with graphic arts experience.

- 4). **Enterprise Level Imaging:** Briefly, summarize your company's experience in enterprise level imaging solution implementations and print governance.
- 5). **Technology Awareness:** Describe your company's approach in helping your clients stay current with imaging technology.

4. **ERASURES, INCONSISTENT OR ILLEGIBLE PROPOSALS:**

The Proposal submitted must not contain any erasures, interlineations, or other corrections unless each such correction is suitably authenticated by affixing in the margin immediately opposite the correction the surname or surnames of the persons signing the Proposal. In the event of inconsistency between words and figures in the Proposal price, words shall control figures. In the event that the Owner determines that any Proposal is unintelligible, inconsistent or ambiguous, the Owner may reject such Proposal as not being responsive to the RFP invitation.

5. **RFP BID BOND**

Company shall submit with each Proposal a cashier's check payable to the William S. Hart Union High School District or a satisfactory bid bond in favor of Owner, executed by the Company as principal and with a satisfactory surety company as surety in the amount of \$100,000 as a guarantee that Company will enter into the proposed Agreement if the Agreement is awarded to such Company. If Company fails to enter into said Agreement, such security will be forfeited as liquidated damages.

The Company that is awarded the Agreement shall have its bid bond returned and shall be required to obtain a Performance Bond for the entire Agreement amount and term within seven (7) days after notice of such award (See Attachments for "Contractor's Faithful Performance Bond"). **An annually renewable performance bond will not be accepted.** The Surety Bond must conform and comply in all respects with all applicable State laws and must name the Owner as the entity to which the Company and the Surety are bound. The Surety Bond shall have a stated expiration date and shall remain in effect at all times that the Company has any obligation pursuant to the Agreement. The Surety Bond initially must have a penal sum equal to the entire Agreement price for the entire term. If the Agreement price is increased, then, within seven (7) days after such increase, the Company must increase the amount of the Surety Bond to equal the total increased Agreement Price. In addition, the Company shall review and amend the Surety Bond within seven (7) days after receiving notice from the Owner that it has become insufficient. The Surety Bond must be issued by a Surety that is authorized and admitted to transact business in the State in accordance with Code of Civil Procedures Section 995.120. The Surety Bond must be signed by the duly authorized representatives of both the Company and the Surety, and the signatures must be notarized.

6. **MODIFICATIONS:**

Changes in or additions to the Proposal form, recapitulations of the work proposed, alternative Proposals, or any other modification of the Proposal form that is not specifically called for in the

Proposal Documents may result in the Owner's rejection of the Proposal as not being responsive to the RFP invitation. No oral or telephonic modification of any Proposal will be considered, and a telegraphic modification may be considered only if the postmark evidences that a confirmation of the telegram duly signed by the Company was placed in the mail prior to the opening of Proposals.

Additionally, under Public Contract Code section 5103, Company will not be relieved of any mistake made in filing out the Proposal Form due to an error in judgement. If Company makes a mistake filling out the Proposal Form, their only remedy under Section 5101 will be withdrawal of the Proposal.

7. EXAMINATION OF RFP DOCUMENTS:

Each Company shall thoroughly examine and be familiar with the RFP, Agreement Documents and specifications, Federal, State and local laws, ordinances, rules, regulations and codes affecting the performance of the services, including the costs of permits and licenses required for the services. The failure or omission of any Company to receive or examine any RFP Document, form, instrument, addendum, or other document or to visit the site and acquaint himself/herself with conditions there existing shall not relieve any Company from any obligation with respect to his/her Proposal or to the Agreement. The Owner shall not be liable for any loss sustained by the successful Company resulting from any variance between the conditions given in the proposal documents and the actual conditions revealed during the progress of services. The submission of a Proposal shall be taken as prima facie evidence of compliance with this section.

8. ADDENDA TO THE DOCUMENTS:

The Owner reserves the right to issue such addenda to the documents, as it may desire at any time prior to the time fixed for receiving Proposals. Any addenda issued for this RFP will be published on the Owner's website at: [www.hartdistrict.org](http://www.hartdistrict.org), by clicking on Departments, Purchasing & Bids, Notice Inviting Bids, RFP Package WSH16-06B - Multi-Function Device/Digital Copiers (MFD) Lease and Maintenance Services. Potential Companies shall check the website where the RFP is posted, periodically and within 72 hours of the RFP submittal deadline. If you are unable to download either the RFP or Addenda, you may call Leigh Hansen, Director of Purchasing and Warehouse, at 661/259-0033 x332. It is the responsibility of Company to verify that all Addenda have been received and incorporated into the Company's Proposal. The number and date of each addendum shall be listed on Company's Proposal in the space provided.

9. INTERPRETATION OF SPECIFICATIONS AND DOCUMENTS:

Company is encouraged to ask questions during the open RFP period. If any Company contemplating submitting a Proposal for the proposed Agreement is in doubt as to the true meaning of any part of the specifications, or other RFP Documents, or finds discrepancies in, or

omissions from the specifications, he/she may submit to Ms. Leigh Hansen, Director of Purchasing and Warehouse 21380 Centre Pointe Parkway, Santa Clarita, CA 91350 a written request or may email her at lhansen@hartdistrict.org, and placing the proposal package number, [WSH16-06B](#), in the subject field, for an interpretation or correction thereof by the last date for RFI questions called for in the RFP invitation. The person submitting the request will be responsible for its prompt delivery. Questions must be received by the date specified in the Calendar of Events.

Any interpretation or correction of the RFP Documents will be made only by a duly issued and published addendum. No person is authorized to make any oral interpretation of any provision in the RFP Documents to any Company, and no Company is authorized to rely on any such unauthorized oral interpretation.

**Notwithstanding the above, Company shall not attempt to, or contact, any member of Owner's staff or Owner's Governing Board to discuss any matters related to this RFP during the RFP process and prior to the final award of any Agreement pursuant to this RFP.**

10. COMPANY PERFORMANCE EXPECTATIONS AND REQUIREMENTS :

The successful Company shall:

- 1) Manage all aspects of Company's Facilities associate Human Resources, including associate sourcing and selection, training, schedules, coverage, development and performance evaluation.
- 2) Deliver and install copiers in locations designated by Owner fully stocked and operational (Paper is supplied by Owner, but Company shall stock the unit for immediate operation).
- 3) Comply with Owner requirements to relocate school site MFD equipment without additional charges to Owner. Provide change of equipment and relocation of copy machines without charge for the delivery, installation, and supplies for additional copiers or relocation of existing machines, including removal. This requirement is to help preserve useful life by equalizing the number of impressions made on like devices. It does not apply to MPS devices or Copy Center devices.
- 4) Provide evidence that the Company is an authorized dealer and must maintain a qualified staff of technicians that are manufacturer certified, and have a local repair facility within fifty (50) mile radius of Owner with an inventory of parts at that facility for the copiers installed as a result of this RFP.
- 5) Achieve performance target of 95% up-time, on a monthly basis. Fleet equipment up-time will be calculated for a 12 hour day (between 6AM to 6PM) and Production equipment at the Copy Center Up-Time will be calculated for a 24 hour day.

- 6) Provide guaranteed 24 hour on-site delivery to school premises for jobs between 50 – 1500 impressions received by 4:00PM.
- 7) Company associate shall configure and manage production printers and copiers and shall configure job processing, settings, manage job queue, process fields and print jobs per the User's specifications.
- 8) Provide the manufacturer's newest, most recent series or "generation" equipment. Acceptable copiers shall be all "New Equipment" or "Newly Manufactured Equipment." In the event that the incumbent vendor is awarded the Agreement, the existing MFD equipment shall be replaced with new equipment at the commencement of the new Agreement term.
- 9) In the event that, during the Agreement period, Company must replace a device and the original device model becomes unavailable from the manufacturer due to a model change, the Company shall furnish a model equal to or better than the original model proposed.
- 10) Company will service the existing printer asset base and replace printers when required from Company branded units or Hewlett Packard units.
- 11) Company will manage the printer asset base so that consumables arrive at the respective school premises before the consumable reaches 20% depletion. Consumable must be mailed to the correct school premises with a label indicating the unit serial number, and the room number where the unit is housed or the consumable may be delivered to the school premises by Company's Facilities personnel.
- 12) Company will provide a phone number and an email address for each associate servicing MFD and MPS devices so Owner may call for service and/or order printer asset base consumables.
- 13) Include full maintenance service, preventative maintenance service for all machines and will include parts, including but not limited to drums, belts, process rollers, brushes and all labor.
- 14) No charge to Owner for copies metered during service calls.

11. **COMPETENCY OF PROPOSER:**

The Owner may conduct such investigations as the Owner deems necessary to assist in the evaluation of any proposal and to establish the responsibility, qualification and financial ability of the Company to perform the services to the Owner's satisfaction within the prescribed time. **The Owner reserves the right to deem the proposal of any Company who does not pass such evaluation to the satisfaction of the Owner as non-responsive and reject the proposal.**

12. EVALUATION CRITERIA/OWNER'S RESERVATION OF RIGHTS; AWARD OF AGREEMENT:

Pursuant to Public Contract Code 20118.2, the Owner intends to award the entire proposal to one (1) responsible qualified Company whose proposal meets the evaluation standards and will be most advantageous to Owner with price and all other factors considered.

The EVALUATION CRITERIA to determine the successful Company will consist of the following:

| <u>CRITERIA</u>   | <u>Possible Points</u> |
|---|------------------------|
| • <b>Equipment &amp; Service Specifications</b> (as specified in the RFP and Exhibits A & B)  | <b>15 points</b>       |
| • <b>Implementation Plan &amp; Training</b>   | <b>15 points</b>       |
| • <b>Experience and Qualifications</b> (as specified in the RFP, and Exhibit C – Statement of Qualifications, specific to facilities-managed Copy Center, managed print services, and color-press experience in K-12 environment) | <b>50 points</b>       |
| • <b>Cost of Services</b>   | <b>120 points</b>      |
| <b>TOTAL POSSIBLE POINTS</b>  | <b>200 points</b>      |

Owner may investigate the qualifications of any Company under consideration, require confirmation or information furnished and require additional evidence of qualifications to perform the services described in this RFP. Owner also reserves certain rights, including, but not limited to, the following:

- A. Create evaluation panels and seek the assistance of outside technical experts and Company's or any other source to review, rank, and evaluate responses to the RFP.
- B. Hold meetings and conduct discussions and correspondence with Company responding to the RFP.

In the event an Award of Agreement is made to Company, and such Company fails or refuses to execute the Agreement Documents and provide any required documents within seven (7) working days after the Notice of Award to Company, the Owner may award the Agreement to the next highest scoring responsive and qualified Company or Owner may elect reject all proposals.

13. SIGNATURE:

Any signature required on proposal documents must be signed in the name of the Company and must bear the signature of the person or persons duly authorized to sign the documents. Where indicated, if Company is a corporation, the legal name of the corporation shall first be set forth together with two signatures from among the Chairman of the Board, President or Vice-President and one from among the Secretary, Chief Financial Officer or Treasurer. Alternatively, the signature of other authorized officers or agents may be affixed, if duly authorized by the corporation. Such documents shall include the title of such signatories below the signature and shall bear the corporate seal. Where indicated, in the event that the Company is a joint venture or partnership, there shall be submitted with the Proposal certifications signed by authorized officers of each of the parties to the joint venture or partnership and should the joint venture or partnership be the successful Company, who shall act in all matters relative to the joint venture

or partnership. If the Company is an individual, his/her signature shall be placed on such documents.

14. PREFERENCE FOR MATERIALS:

Use of brand name, trade name, make, model, manufacturer, or Company catalog number in specification, as set forth in this document, is for the purpose of establishing a grade or quality of material only. It is not the Owner's intent to limit the proposal, directly or indirectly, to any one specific concern, to rule out other competition, therefore, the phrase **OR OPERATIONALLY EQUIVALENT** is added. In those cases involving a unique or novel product application required to be used in the public interest, or where only one brand or trade name is known to the Owner, it may list only one.

From time-to-time, certain brand names (or equal) are specified in the written RFP package. When known to the Owner, and pursuant to California Public Contract Code, Section 3400, two or more brand names fitting the precise needs of the Owner have been listed. For those situations where only a single brand is called for, unless it is the Owner's standard and shall not be substituted, the Owner is unaware of any substitute process, product or materials which will be an "or equal" substitute. Companies who know of an equal or better product or brand name may propose the same for considerations.

This solicitation requires that the units offered or shipped, as a result of this solicitation, shall be new in the box, OEM parts, ISO-14001 certified without defect and shall comply with all current safety orders of OSHA, CAL-OSHA and/or NIOSH and OSHA-POD. No re-manufactured equipment will be allowed.

Any variance from the specified items must be clearly noted on the Proposal, otherwise the product will be assumed to be "as specified". Substitutions that meet or exceed the specifications are acceptable. All costs to remedy to the Owner's satisfaction will be borne by Company. It is Company's responsibility to demonstrate equivalency of proposed products. Company shall provide all requested documentation to support performance requirements of the proposed products.

15. SAMPLES:

During the term of the Agreement and upon request, samples, demonstrations and testing will be furnished free of charge to Owner. Upon expiration of the sample, demonstration and/or test period, the item(s) may be returned to Company and if returned will do so at Company's expense. If requested by the Owner, samples must arrive within five (5) business days at the Company's expense. All samples must be tagged to identify Company, Proposal number, and item number.

16. NETWORK:

Owner data network consists of 16 separate sites connected via leased fiber at Gbps speeds. The network bandwidth between all sites and the District Data Center is 1Gbps, with typically more

than half available. All mission critical services use these same connections including SIS, VoIP and all internet traffic. The Copy Center is connected via a single T1 circuit. Each site consists of multiple buildings connected with multimode fiber and CAT5/5e/6 copper to the desktop. **Owner is currently transitioning from Novell Netware to Microsoft Active Directory platform for file and print sharing. Migration to AD will be completed by July 31, 2016.** There are approximately 6,500 Windows desktop computers comprising of Dell workstations mostly running Windows 7 Professional, with some workstations running Windows 8.1 and Windows 10. Owner also operates 9,500 Chromebooks, 300 Android Tablets, 350 MacOS Devices, and 1,200 Apple iPads. Owner is not currently supporting mobile device printing, although Company may provide a solution in their proposal. Owner manages and is responsible for the LDAP / AD servers, but Company is responsible for any servers and applications they provide to deliver the services and are responsible to ensure they work together. The Owner will provide access to the directory services. Owner's Internet access is a single 5Gbps connection and is filtered with a Palo Alto Networks Firewall. All staff and students are subject to the Owner's filtering policies, as would any vendor using Owner's Internet access. Remote access over the Internet to Company's servers will be provided on request. Servers will be located in the Owner's Data Center at the Owner's Administrative Center Offices. Company access will be provided through the Technology Department on an as needed basis. Company will be responsible for the physical server hardware and Owner will be responsible for the room environment (rack space, power, network, HVAC). Owner's current e-mail application is Google G-Mail. MFD devices should use SMTP and TCP port 25 for sending email. Owner does not currently have a solution for mobile printing in place, but it interested in that availability. Owner will complete migration from Novell to Microsoft AD by July 31, 2016 and AD will be the source of authentication.

17. **SOFTWARE:**

Owner desires capabilities that include, but are not limited to, remote configuration and a management, automatic network output device identification (vendor independent copier and printer identification), reporting capabilities for meter-reads/reported error alerts/asset lists, troubleshooting capabilities, SNMP group set-up and management and uniform print drivers. Company will work with Owner's Technology Department regarding print queues. Currently printers are configured for Direct IP connections or through Microsoft Print Services. Software must maintain access codes lists and be able to make simultaneous changes, additions and/or deletions to the user access codes on all machines from one remote server/networked computer within Owner premises.

The integrated solution is required to have the ability for data transfer and consolidation for accountability of printing, copying and Copy Center production output. It shall have the ability to track copies, prints, scans and faxes and view the results in a single report and export the data to other database systems as needed.

Solution scanning on MFD devices should allow for documents to deliver to network folders in Word or PDF format, for emailing scanned documents in plain text, Word or PDF format, for Optical Character Recognition (OCR) on the document and convert the image to an editable format and allow for the ability to track/view cost savings via reporting. Re-routing of jobs shall be able to be forced or give the user selectable options. Users shall be notified via web pop-up

of any re-routing options of print jobs. Owner currently has nineteen hundred and two (1,902) Windows 7, 8.1 or 10, workstations.

The solution must have the ability for “secure print” and confidential printing, holding the job in a central queue until the user authenticates at the MFD. Secure print abilities applies to staff only.

The solution must have the ability to synchronize with the central server, with no loss of data, should the solution temporarily fail.

The solution must provide a single universal print driver that has the ability to output print jobs properly to all manufacturers’ single and multifunctional devices.

The solution must be fully supported by an exclusive vendor with internal support escalation to the software developer as necessary. No end-user support calls to third-party companies are acceptable.

Solution scanning on MFD devices should allow for documents to deliver to network folders in Word or PDF format, for emailing scanned documents in plain text, Word or PDF format, for Optical Character Recognition (OCR) on the document and convert the image to an editable format as well as extracting text to be used as indexing information, for interface that allows for new document types to be defined that prevent existing types from being hijacked by duplicating definitions (i.e. as new document types are introduced, they must not displace existing document types) and for support of US English language with support for other languages.

18. PROXIMITY CARD:

Although Owner does not currently use proximity cards, Owner desires authentication process to MFD device via proximity card. Company shall provide the Proximity Card for all users, including 10% back-up stock for lost or damaged cards. Owner currently employs 1,902 people.

The process must include user credentials to be passed through to all functionality of the MFD.

Company shall provide Authentication at the MFD via LDAP or Active Directory user input via keypad as a backup authentication method.

Company shall have an automated method of pairing the user’s proximity card to Owner’s Active Directory user accounts. Company shall manage all pairing activity at the Copy Center to allow staff to obtain new cards in the event they lose or damage a card.

The solution shall have the ability to retrieve print jobs at any MFD simply by authenticating at the MFD and shall have the ability to hide job names in the printer spool queue and at the device log, so users cannot see what print jobs other users are sending.

19. REPORTS

Monthly reports shall be provided to Owner during the Monthly in-person meeting. The reports shall show monthly meter-reads for all equipment in use (number and type of impressions made), compared to recommended machine utilization. Reports must be disaggregated to site, specific machine and access code level. Reports must be in a format approved by Owner and in a format that supports use and access chargebacks for contracted amounts, excessive use, and/or a proportional share of overages.

Owner desires reports that provide a summary overview of all B/W and Color Fleet activity on MFDs, all B/W, Color and Color Cube prints on fleet printers and B/W and Color activity on production units in the Copy Center. Overview will include, but is not limited to, activity by month with yearly average, all overtime, all supplies and the bi-annual reconciliation, total cost of printed pages, average length of jobs, total number of users, and average jobs per user.

Owner also desires reports for Output Service Analysis, Trend Analysis, Job Size Analysis, Color Printing Analysis (by printer, location and department), Printer Usage Analysis (including simplex vs. duplex), Site/Location Print Behavior, and Cost Savings Report.

20. SPECIFICATIONS:

For all materials and equipment specified or indicated herein, Company shall provide all labor, materials, equipment, and services necessary to provide complete and proper item(s). Incidental material not indicated in the Specifications, nor mentioned in the Specifications, that can legitimately and reasonably be inferred to belong to the item(s) described, or be necessary in good practice to provide the item(s), shall be furnished as though itemized here in every detail. Any omission of detail specifications stated herein that would render the item(s) from use as specified will not relieve the Company from responsibility.

In all instances, material and equipment shall be installed in strict accordance with each manufacturer's most recent published recommendations and specifications.

If equipment does not perform to manufacturer's specifications and connectivity cannot be maintained during the first sixty (60) days, Company shall replace the units(s) with the equipment of the same model, or better, no questions asked.

Use of brand name, trade name, make, model, manufacturer, or Company catalog number in specification, as set forth in this document, is for the purpose of establishing a grade or quality of material only. It is not the Owner's intent to limit the proposal, directly or indirectly, to any one specific concern, to rule out other competition, therefore, the phrase **OR OPERATIONALLY EQUIVALENT** is added.

21. DELIVERY:

Company must make delivery, install and implement all equipment and supplies required under this RFP no later than [October 31, 2016](#). Delivery shall be within normal working hours of the

Owner, Monday through Friday, excluding holidays. Company will provide all supplies necessary so that equipment may be set up for immediate use.

Company must make delivery and install all subsequently ordered equipment or supplies within twenty-four (24) hours, unless negotiated otherwise with Owner, of receipt of order. Delivery shall be within normal working hours of the Owner, Monday through Friday, excluding holidays. Company shall provide all supplies necessary so that equipment may be set up for immediate use. There shall not be a minimum quantity requirement in order for the Owner to place orders for needed items.

Delivery charges, fuel surcharges, cost of transportation, handling and/or inspection on deliveries, or offers for delivery, or any additional cost associated with delivery will not be acceptable or paid.

22. TRAINING:

Company shall provide training as specified in this paragraph on all installed equipment at no charge to Owner. All initial training shall occur at the time new equipment is delivered at each site to ensure end-users understand basic functions, including making a copy. Additional training, up to two (2) hours in length to non-technical and technical users, shall be provided at each site (school/department/office). Such training is dependent on the equipment's proper installation, and Company shall endeavor to provide this training within one (1) week of successful installation and/or connection to the Owner's network. Owner may extend training delivery based on individual school/department/office-specific needs. Company shall do everything in its control to ensure that the training is scheduled with Owner's end-users within the RFP-defined implementation period. Company shall supply or develop a training video for each type of MFD provided to Owner. Training and training videos are not required for printers or Copy Center Equipment.

23. INSPECTION:

All supplies and products delivered to Owner shall be NEW-IN-THE-BOX and in good condition at the time of delivery and are subject to inspection and rejection by Owner. Owner may return at the Company's expense any supplies or equipment which fail to meet the conditions of the RFP or fail to perform properly. Such supplies and/ or equipment shall be considered as rejected and promptly replaced by Company. No payment shall be required until replacement is complete.

Any merchandise damaged in shipment may be refused by Owner and may be returned at the Company's expense. Company shall trace any merchandise lost in shipment. Company has no more than thirty (30) days to remedy defective or damaged equipment or services that do not meet the requirements outlined in this RFP.

24. PRICE METHODOLOGY:

All necessary replacement parts/supplies are to be stored at Company location within fifty (50) miles of Owner Premises. Equipment at all locations is to be provided with necessary back up consumable supplies (such as toner, dry ink, staples) to enhance customer usage/convenience.

Company guarantees to provide Owner, at no additional cost, with any product improvements/upgrades/retrofits (software and hardware) including installation, removal, replacement, training and support, for any and all equipment for the duration of the Agreement. Company shall keep server hardware and software for submitting and managing jobs and monitoring copiers and printers current (no more than one version behind). Server hardware may be kept on Owner premises but will be the Company's responsibility to maintain, service and upgrade. Rack space will be made available in the Owner's data center, if desired.

Include a minimum monthly fee for 1,800,000 monthly B/W base copies/prints covering MFD equipment at the Copy Center, and 1,450,000 monthly B/W base copies/prints covering MFD equipment on Owner Premises. These minimum monthly copies are guaranteed to Company.

Include a cost per copy for copies/prints made at the Copy Center based on a yearly volume average of forty million (40,000,000) and a cost per copy for copies/prints made on Owner Premises based on a yearly volume of seventeen million (17,000,000) to be used for calculating the bi-annual reconciliation. All unused base copies/prints to be carried over to the following months and reconciled bi-annually in July and January. Owner will supply all paper consumed to produce User jobs. OEM Toner and Non-OEM toner is acceptable.

Include the costs associated for the digital color press Alternate, as outlined at the end of this solicitation.

Owner understands that technology is constantly changing and being upgraded. For the purpose of this RFP, Companies are to propose current available, in stock models of equipment.

Cash or quantity discounts offered will not be a consideration in determination of Award of Proposal. If Company offers a discount, it is understood that a minimum of 30 days will be required for payment, and the discount time will be computed from the date of satisfactory delivery at place of acceptance and receipt of correct invoice at the office specified.

a). TAXES: The Owner pays Federal excise and State taxes on all direct purchases of tangible property. Do not include taxes in your proposal.

b). Company warrants by virtue of Proposal that prices shall remain fixed for the term of the Agreement, unless equipment is increased or decreased from the number of units identified in this RFP document.

This RFP does not commit the Owner to pay costs incurred in the preparation of a Proposal, including provision of the technical connectivity evaluation or trial evaluation units in response to this request. Company agrees that all costs incurred in developing their Proposal and any other related material provided is the Company's responsibility.

25. COMPANY IDENTIFICATION:

All Company personnel working under the awarded Agreement shall be identified by a distinctive nameplate, emblem, patch or badge displayed on the outer garment in a visible location and approved by Owner. All Company vehicles shall have the name of the Company prominently displayed and must be registered throughout the term of the Agreement. Any Company personnel operating such vehicles shall be properly licensed throughout the term of the Agreement. All personnel shall be qualified and properly trained to perform the work required under the Agreement as well as completing the criminal background check. Company shall at all times furnish and maintain a sufficient number of vehicles to perform the work of the Agreement. Company vehicles must be kept in good repair.

26. REFERENCES:

Company must include a list of references when submitting its Proposal. References are to be listed on the reference form included in the Required Proposal Forms section of the RFP. Company shall identify a minimum of three (3) references and if possible, such references shall be similar in size and scope as the Owner, in the K-12 marketplace, with whom the Company has sold and maintained equipment for during the last five (5) years. If possible, all three (3) references shall encompass multiple levels of service and support for MFD, MPS and Production Printing services (Facilities Managed and operated Copy Center) and be located in Southern California.

Any reasonable inquiry to determine responsibility of Company may be conducted by the Owner. The submission of a Proposal constitutes permission by the proposing company for the Owner to verify all information contained herein, including contacting any identified reference. Company understands and agrees that any information provided with respect to references shall be considered a public record and subject to disclosure under the California Public Records Act.

In the event that the information obtained from the reference check reveals concerns about the Company's past performance and its ability to successfully perform the Agreement to be executed based on this RFP, Owner may, at its sole discretion, reject Company's Proposal. In conducting the reference check, Owner may include itself as a reference if the Company has performed work for Owner, even if the Company did not identify the Owner as a reference. Owner reserves the right to evaluate the sufficiency and quality of Company references at its discretion.

27. FINANCIAL STANDING:

Company must provide its Organizational Annual Report for the last two (2) years. Company must also include independently audited financial statements for the most recently completed fiscal year. If audited financials are not available, Company shall provide unaudited financial statements along with certification from the Company, and Company's accountant, that the

information accurately reflects the Company's current financial status. If the Company is a sole proprietorship, and financial statements are not available, Company shall provide Schedule C of the Internal Revenue Service forms as well as a certification from the owner of the Company, and Company's accountant, that the information accurately reflects the Company's current financial status. All financial data submitted, as part of the RFP, will be reviewed by the Owner's CFO to determine the financial stability of the proposing Company. The determination of whether a Company possesses sufficient financial health to successfully complete the Agreement in the time required shall be made in the sole discretion of the Owner. Additionally, Owner reserves the right to deem Company's proposal non-responsive should Company fail to provide the required financial data.

Any non-public private financial information provided pursuant to this Section may be marked as confidential and not subject to disclosure under the Act. Failure to mark any non-public private financial information as being confidential shall be deemed a waiver of any such confidentiality. Company agrees and understands that if it fails to mark any non-public private financial information as being confidential, Owner shall produce such information pursuant to any requests under the Act.

**28. WITHDRAWAL OF PROPOSALS:**

Any Company may withdraw its Proposal in person only prior to the scheduled closing time for the receipt of Proposals. No Company may withdraw its Proposal for a period of ninety (90) days after the scheduled closing time for the receipt of Proposals.

**29. FORFEITURE FOR FAILURE TO EXECUTE AGREEMENT:**

In the event the Company to whom an award is made fails or refuses to execute a Services Agreement within seven (7) calendar days from the date of receiving notification that it is the Company to whom the Agreement is awarded, the Owner may award the Agreement to the next highest scoring responsible Company or reject all Proposals, as approved by the Governing Board. If Company fails or refuses to execute the Services Agreement and Owner elects to award to the Agreement to the next higher scoring Company, Owner may hold the original Company responsible for any excess costs occasioned or incurred thereby.

**30. RFP PROTESTS**

A Company may protest the RFP process, another Proposal and/or the intended award of the Agreement only by filing a written protest (each a "RFP Protest") with Owner in accordance with the procedures set forth in this Section. Owner will not accept or consider any oral RFP Protest (e.g., by telephone) or any RFP Protest sent via electronic transmission (e.g., e-mail). In order for a RFP Protest to be valid and be considered by Owner, the RFP Protest:

- a) Must be addressed to the attention of Owner's Contract Specialist and must be received by Owner not later than 4:00 p.m. on the fifth business day following the date of the Notice of Intent to Award, as set forth in the Calendar of Events above;

- b) Must clearly identify the Company on whose behalf the RFP Protest is being filed, together with the name, e-mail address, street address and telephone number of the person representing the Company for purposes of the RFP Protest;
- c) Must clearly identify the specific Proposal, RFP process, or other matter that is the subject of the RFP Protest;
- d) Must clearly identify the specific provisions of all documents relevant to the RFP Protest;
- e) Must clearly identify and describe in detail the specific basis (or bases) for the RFP Protest and all facts relevant thereto;
- f) Must clearly identify and describe in detail all arguments in support of the RFP Protest, including, without limitation, citations to applicable statutory requirements; and
- g) Must be submitted with all documentation the Company desires to submit that is relevant to and supports the basis or bases underlying the RFP Protest.

If a RFP Protest does not comply with each and all of the foregoing requirements, Owner may reject the RFP Protest as invalid. If a Company files a valid RFP Protest, Owner and/or its legal counsel shall review the RFP Protest and all relevant information and documents and will provide a written response to the protesting Company setting forth a recommendation for Governing Board action in response to the RFP Protest. In response to a RFP Protest, the Governing Board may decline to award the Agreement, may award the Agreement to a Company other than as previously intended, or may award the Agreement to a Company as previously intended despite the RFP Protest. Such action by the Governing Board shall be a condition precedent to the filing of any claim or demand and to the initiation of any action (legal or equitable) or other proceeding arising from the matter(s) protested.

In the event that Company does not agree with Owner's determination regarding Company's protest, Company may appeal such determination to Owner's Governing Board. Any appeal submitted by Company must comply with the above requirements relating to the submission of a protest and must be received by Owner not later than 4:00 p.m. on the fifth business day following the issuance of Owner's determination letter as to Company's protest.

Compliance with the foregoing RFP Protest requirements is mandatory. Each Company that desires to submit a protest must file its own RFP Protest in accordance with the foregoing requirements, and no Company may rely on a RFP Protest by another Company as a means of satisfying such requirements. Compliance with the foregoing requirements is the sole and exclusive means of protesting a proposal, the RFP process and/or the intended award of the Agreement, and failure to so comply shall be deemed and construed as a waiver of any and all rights the Company may have to pursue a claim, demand or action arising from any such matter.

### 31. INVOICES AND PAYMENTS:

Unless otherwise specified, Company shall issue one monthly invoice for any equipment leased by Owner ("Lease Payment") and for any services performed by Company ("Services Payment") under the purchase order. Invoices shall be submitted immediately in a form acceptable to Owner under the same firm name as shown on the purchase order. At a minimum the invoice should include a summary of charges, broken-out by Owner location. Company shall list

separately any applicable taxes payable by Owner and shall certify on the invoices that the Federal Excise tax is not included in the prices listed thereon. Owner shall make payment for materials, supplies or services furnished under the purchase order within a reasonable and proper time after acceptance thereof and approval of the invoices by the authorized Owner representative.

Any and all required Lease Payments shall be included and separately identified in Company's monthly invoice to Owner. Pursuant to the issuance by Company of a valid, timely and undisputed monthly invoice, Owner shall issue one (1) payment check to Company that will include the Services Payment as well as the Lease Payment. Company shall, in turn, timely remit the required Lease Payment to the financing company on Owner's behalf.

In the event that Owner makes a Lease Payment to Company and Company fails to timely remit the Lease Payment to the financing company, such failure shall constitute a breach of the Services Agreement by Company. Company and the financing company agree and acknowledge that if Company fails to remit any Lease Payments to the financing company that the financing company's sole and exclusive remedy shall be a claim directed against Company for failure to remit such payment.

Company shall defend, indemnify and hold-harmless Owner, the Governing Board and each member thereof, and the Owner's other officers, employees, Contractors and agents (collectively, not including the Owner, the "Owner Agents"), and each of them, from and against any and all claims, actions, damages, losses, costs, expenses and other liabilities arising from, pertaining to, or relating to failure by Company to remit any required Lease Payments.

32. ANTI-DISCRIMINATION:

It is the policy of the Owner that in connection with all work performed under this Agreement, there be no discrimination against any prospective or active employee engaged in the work because of race, color, ancestry, national origin, religious creed, sex, age, marital status, physical disability, mental disability, or medical condition. The Company agrees to comply with applicable Federal and California laws including, but not limited to, the California Fair Employment and Housing Act, beginning with Government Code, Section 12900, and Labor Code, Section 1735 and the American with Disabilities Act, 42 U.S.C. and 12101, *et seq.*

33. TERMINATION:

The Owner may, at any time, with or without cause or reason, terminate the Agreement. Upon such termination, Owner shall compensate Company for products satisfactorily rendered to the date of termination. Written notice by the Owner shall be sufficient to stop further performance of delivery of products. Notice shall be deemed given when received by Company or no later than thirty (30) days of mailing, whichever is sooner. This termination provision shall apply to the entire Agreement including, but not limited to, the equipment lease and all products and services provided for in the Agreement.

34. **NON-COLLUSION DECLARATION:**

Companies on all public works Agreements are required to submit a Non-Collusion Declaration with their Proposal. This Declaration is made part of the Proposal form of the Agreement and must be signed and dated under the penalty of perjury.

35. **SAFETY REGULATIONS:**

All items proposed in response to this RFP must conform to the Safety Order of the State of California, Division of Industrial Safety and CAL-OSHA regulations in effect at the time of Proposal. Companies receiving awards of items subject to Chapter 4 (Industrial Safety Orders) California Administrative Code, Title 8, Division of Industrial Relations, must submit to Owner, Safety Data Sheets (SDS) for those items, when requested.

36. **DRUG-FREE WORKPLACE CERTIFICATION:**

Pursuant to Government Code Section 8350, et seq. and the Owner's Governing Board policy (BP 5131.6), Company will be required to execute a Drug-Free Workplace Certification. Company will be required to take positive measures outlined in the certification in order to ensure the presence of a drug-free workplace. Failure to abide with the conditions set forth in the Drug-Free Workplace Act could result in penalties including termination of the Agreement of the services or suspension of payment thereunder. Therefore, the worksite shall be kept drug and alcohol free at all times.

37. **TOBACCO USE POLICY CERTIFICATION:**

Company hereby agrees, under the Agreement, he/she will comply with the Owner's Governing Board Policy (BP 3513.3) which states:

"The Governing Board recognizes the health hazards associated with tobacco products, including the breathing of second hand smoke and desires to provide a healthy environment for students and staff."

Therefore, the work site shall be kept tobacco free and smoke-free at all times.

38. **PROPOSED AGREEMENT DOCUMENTS:**

The Agreement Documents to be executed by the successful Proposer shall consist of a Services Agreement and Equipment Lease Agreement as follows:

**Service Agreement:**

Company shall be required to execute a services Agreement substantially and materially similar to the Services Agreement attached hereto as Exhibit "D", within seven (7) days of the Notice of Award. Any proposed changes to the existing terms and conditions of Services Agreement by Company may be evaluated and either accepted or rejected by Owner. In the event that Owner elects to reject any proposed changes to the existing terms and conditions of Services Agreement, such rejection may render Company's Proposal non-responsive. Owner reserves the right to negotiate any existing terms and conditions of Services Agreement at its discretion.

The term of the Services Agreement shall begin upon the successful implementation of all equipment, but not later than **October 31, 2016** and shall continue thereafter for a period of **sixty (60)** months (the "Services Term"), unless the Services Agreement is earlier terminated by either Party in accordance with Section 2.2 of the Services Agreement.

**Proposed Equipment Lease Agreement:**

Company is required to submit the proposed equipment lease Agreement under which the equipment shall be leased by Owner ("Proposed Lease Agreement"). The Proposed Lease Agreement must contain terms identical to, or substantially and materially similar to, the terms identified in the Mandatory Lease Term Sheet, attached hereto as Exhibit "E".

In the event the Proposed Lease Agreement is provided by a financing company separate from Company, the financing company shall be affiliated with the equipment manufacturer and the Company shall be required to be a party to the Proposed Lease Agreement.

The Proposed Lease Agreement shall include a schedule of the annual lease payments that will be factored into the monthly fees that are included in the Services Agreement. The annual equipment buyout dollar amounts and must be approved by Owner. The term of the Proposed Lease Agreement shall not exceed the term of the Services Agreement and shall include termination clauses that parallel the termination clauses contained in the Services Agreement.

The Owner reserves the right to negotiate Agreement terms with the financing company. However, in the event that Owner and the financing company are unable to agree on Agreement terms, Owner reserves the right to deem Company's Proposal non-responsive and award the Agreement to the next highest responsible Company or Owner may elect to reject all Proposals.

## **REQUIRED PROPOSAL FORMS SECTION**

The following must be completed and submitted in the order specified with the Proposal or as instructed in the Notice Inviting Proposals:

- 1) Company Letter/ Letter of Interest
- 2) Company Proposal Form
- 3) Company References and Responsibility Information
- 4) Specifications (Exhibit A)
- 5) Questionnaire (Exhibit B)
- 6) Statement of Qualifications, (Exhibit C)

- 8) Copy Center floor plan and electrical requirements
- 9) Manufacturer's Certification
- 10) Common Criteria Certification for security features
- 11) Security Policy
- 12) Buyer' Laboratory Inc. Data
- 13) Quadrant Analysis from Gartner Group
- 14) Company's Guarantee to Owner
- 15) Financial Statement
- 16) Addenda Confirmations
- 17) Non-Collusion Declaration
- 18) Proposal Security
- 19) RFP Bid Bond
- 20) Certification of Safety Program In-Place
- 21) Site Visit Certification
- 22) Iran Contracting Act Certification
- 23) Certification of Compliance with Immigration laws
- 24) Certification of Drug-Free and Tobacco Free Workplace
- 25) Small Business Certification

## COMPANY'S PROPOSAL FORM

TO THE GOVERNING BOARD OF  
WILLIAM S. HART UNION  
HIGH SCHOOL DISTRICT

DATE \_\_\_\_\_

The undersigned, having carefully examined all of the RFP documents, including but not limited to, the Specifications, the Instructions to proposers, and all Exhibits,

### **Multi-Function Device/Digital Copier Lease and Maintenance Services**

PROPOSAL PACKAGE NO. # WSH16-06B

---

---

---

---

(Name and Address of Company)

Hereby proposes and agrees to furnish all item(s), equipment, apparatus, personnel, transportation, labor and materials (except paper), including all applicable sales taxes, permits and licenses necessary to complete the above named project in strict conformity with the RFP and Specifications as set forth in the RFP, including all work specified in addenda numbered and dated:

Lease prices include the Average Monthly Production Volume (AMPV) for all Multi-Function Device fleet, including the equipment at the District Copy Center, and no minimum volume requirements for managed print services.

Owner will supply all paper consumed to produce User jobs. OEM Toner and Non-OEM toner is acceptable.

| Proposal Price for MFD and MPS equipment  |                           |   |
|---|---------------------------|---|
| For monthly Multi-Function Devices and related Company Managed Services and Maintenance Services, Software and Hardware for Owner MFD Fleet and the B/W Production equipment in the Copy Center, as specified in the RFP. Monthly Base fee to include 1,450,000 guaranteed copies on the Fleet; 20,000 Color copies on the Fleet; and 1,800,000 guaranteed copies in the Copy Center. |                           | (\$_____) Total Monthly base fee                      |
| Per Print Cost, per B/W print, on Fleet Devices. This cost will be applied to all copies above the 1,450,000 impression monthly allowance and reconciled bi-annually. For illustrative purposes, extrapolate this per copy charge for 20,000 additional impressions in the total column   | (\$_____) Per Copy Charge | (\$_____) Total for 20,000 copies above the allowance |
| Per Print Cost, per B/W print, on Copy Center Devices. This cost will be applied to all copies above the 1,800,000  | (\$_____) Per Copy Charge | (\$_____) Total for 300,000                           |

|  |                                     |  |
|--|-------------------------------------|--|
| impression monthly allowance and reconciled bi-annually. For illustrative purposes, extrapolate this per copy charge for 300,000 additional impressions in the total column  |                                     | copies above the allowance                           |
| Per Print Cost, Per color print on Fleet Device. This cost will be applied to all color copies above the 20,000 impression monthly allowance and reconciled bi-annually. For illustrative purposes, extrapolate this per copy charge for 2,000 additional impressions in the total column.   | (\$_____) Per Copy Charge           | (\$_____) Total for 2,000 copies above the allowance |
| For Managed Print Services related Company Managed Services and Maintenance/replacement Services, Software and Hardware as specified in the RFP.   |                                     | (\$_____) Monthly base fee                           |
| Per Print Cost on B/W MPS device. No minimum volume requirement. For illustrative purposes, extrapolate this per copy charge for 500,000 additional impressions in the total column.   | (\$_____) Per Copy Charge           | (\$_____) Total for 500,000 est. monthly prints      |
| Per Print Cost on Color MPS device. No minimum volume requirement. For illustrative purposes, extrapolate this per copy charge for 20,000 additional impressions in the total column.  | (\$_____) Per Copy Charge           | (\$_____) Total for 20,000 est. monthly prints       |
| Per Print Cost on Color Cube device. No minimum volume requirement. For illustrative purposes, extrapolate this per copy charge for 4,000 additional impressions in the total column.  | (\$_____) Per Copy Charge           | (\$_____) Total for 4,000 est. monthly prints        |
| Costs for MFD base fee, the MPS base fee and the Per Copy Charges as define above shall be added together to determine the TOTAL COST. Indicate the TOTAL COST.  |                                     | (\$_____)  |
| <b>Proposal Price for Alternate #1</b>   |                                     |  |
| For monthly digital color press and related Company Managed Services and Maintenance Services, Software and Hardware for Owner, as specified in this document.   |                                     | (\$_____) Monthly fee                                |
| Large Format Printer, a minimum 8 color printer and shall produce images at least forty-four (44) inches wide and meets the specifications outlined in this document.  |                                     | (\$_____) Monthly fee                                |
| Parts and Labor monthly maintenance Service Agreement only, paper, print head and ink supplied by Owner  |                                     | (\$_____) Monthly fee                                |
|  | <b>Total Costs for Alternate #1</b> | (\$_____)  |
| Owner may consider re-locating the Copy Center due to program needs during the term of the Agreement and would like Company to provide an estimate for moving proposed Copy Center equipment, inclusive of all BW/Color devices, hardware/ computers and finishing equipment from the current location to a future location within the city limits. This number is considered a good-faith estimate and will be negotiated with Owner when/if the re-location is necessary. This estimate will have no effect on Company's proposal. |                                     | (\$_____)  |

Company acknowledges the Owner may award to the qualified Company whose proposal meets the evaluation standards and will be most advantageous to Owner with price and all other factors considered.

Company must include a Manufacturer Certification, a Common Criteria Certification for security features, a Security Policy, Buyer's Laboratory Inc. Data for all models being proposed and a Quadrant Analysis from the Gartner Group with their Proposal submission.

It is understood that the Owner reserves the right to reject this Proposal and that this Proposal shall remain open and not be withdrawn for the period specified in the RFP.

The undersigned fully understands that the Agreement is formed upon the acceptance of this Proposal by the Owner, and the undersigned further agrees that upon request he will promptly execute and deliver to Owner a written memorial of the Agreement.

**IMPORTANT NOTICE:**

If Company or other interested person is a corporation, state legal name of corporation. If Company or other interested person is an individual, state first and last names in full. This document must list names of person or persons authorized to bind the proposing organization.

If the Company is a corporation, the undersigned hereby represents and warrants that the corporation is duly incorporated and is in good standing in the State of California and that \_\_\_\_\_, whose title is \_\_\_\_\_, is authorized to act for and bind the corporation.

## **PROPOSER REFERENCES AND RESPONSIBILITY INFORMATION**

The Owner expressly reserves the right to reject the Proposal of any Company who, upon investigation, has been determined to fail to complete similar Agreements in a timely fashion or in a satisfactory manner. Such rejection would, if applicable, be based upon the principle that the Company is "non-responsible" and poses a substantial risk of being unable to complete the work in a cost-effective, professional and timely manner.

In performing the above-described responsibility determination, the Owner reserves the right to utilize, and Company agrees to provide the Owner with, all possible sources of information in assisting Owner to make its determination, including but not limited to: inquiries to regulatory state Boards and agencies; Dun and Bradstreet credit reports; Company's most recent financial statements (unaudited or audited, as requested by Owner); inquiries to companies and public entities for which the Company has previously performed work; reference checks and examination of all public records.

The Company must also demonstrate ability to provide item(s) similar in nature and specifications, meeting or exceeding, the needs the William S. Hart Union High School District.

This ability shall be shown by furnishing the names, current phone numbers, address, points of contact, Agreement amount, brands of equipment sold and maintained, the number of MFD units sold and maintained and the number of printers sold and maintained per reference. Company shall identify a minimum of three (3) references and if possible, such references shall be similar in size and scope as the Owner, in the K-12 marketplace, with whom the Company has sold and maintained equipment for during the last five (5) years. If possible, all three (3) references shall encompass multiple levels of service and support for MFD, MPS and Production Printing services (Facilities Managed and operated Copy Center) and be located in Southern California.

Any reasonable inquiry to determine responsibility of Company may be conducted by the Owner. The submission of a Proposal constitutes permission by the proposing company for the Owner to verify all information contained herein, including contacting any identified reference. Company understands and agrees that any information provided with respect to references shall be considered a public record and subject to disclosure under the California Public Records Act.

FAILURE TO FURNISH THE REFERENCES AND OTHER INFORMATION AS REQUESTED (IN THE COMPLETE FORMAT REQUIRED) MAY CAUSE YOUR PROPOSAL TO BE REJECTED AS NON-RESPONSIVE.

**NONCOLLUSION DECLARATION**  
**TO BE EXECUTED BY COMPANY AND SUBMITTED WITH PROPOSAL**

Project/RFP Package(s): Project Name: Multi-Function Device/Digital Copier (MFD) and Managed Print Services (MPS) Lease and Maintenance Services

RFP Package: **WSH16-06B**

**Contractor:** \_\_\_\_\_

The undersigned hereby declares:

I am the \_\_\_\_\_ (insert position) of \_\_\_\_\_  
\_\_\_\_\_ (insert Contractor name), the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company association, organization, bid depository, or to any member or agent thereof to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on \_\_\_\_\_ [date], at \_\_\_\_\_ [city], \_\_\_\_\_ [state].

## BID SECURITY

**Project**

**Name:** \_\_\_\_\_

**Project/RFP Package Number(s):** \_\_\_\_\_

**Company:** \_\_\_\_\_

Each Proposal must be submitted with security in the amount of \$100,000, in one of the following forms: (i) a cashier's or certified check payable to the William S. Hart Union High School District ("Owner"); or (ii) a bid bond. If the Company identified above chooses to submit a bid bond, the bid bond must be an executed copy of the "Bid Bond" form included as one of the Required Proposal Forms and must be issued by a California-admitted surety as defined in Code of Civil Procedure Section 995.120. Unless forfeited, Owner will return security to Company within a reasonable time, but not more than sixty days after award of the Agreement for the Work.

The undersigned is a duly-authorized representative of the Company identified above and, in that capacity, hereby acknowledges to Owner, for and on behalf of the Company, that it has submitted the following bid security with its Proposal for the Project identified above:

- ☐ a cashier's check payable to Owner;
- ☐ a certified check payable to Owner; or
- ☐ a bid bond.

I certify subject to penalty of perjury under the laws of the State of California that the foregoing is true and correct.

## BID BOND

KNOW ALL MEN BY THESE PRESENTS, that we \_\_\_\_\_ as Principal, and \_\_\_\_\_ as Surety, are held and firmly bound unto the WILLIAM S. HART UNION HIGH SCHOOL DISTRICT, hereinafter called the Owner in the penal sum of ONE HUNDRED THOUSAND DOLLARS (\$100,000) to the said Owner for the work described below for the payment of which sum in lawful money of the United States, well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH that whereas the Principal has submitted the accompanying proposal dated this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_, for

**PROJECT:** Multi-Function Device/Digital Copier (MFD) and Managed Print Services (MPS) Lease and Maintenance Services

**RFP PACKAGE # WSH16-06B**

AND THAT, if the aforesaid Principal shall be awarded the Agreement upon said Proposal and shall within seven (7) days after the notice of such award, execute a written memorial of the awarded Agreement and submit the required Performance Bonds and other required Agreement Documents, then this obligation shall be null and void. In the event the Principal fails and/or refuses to execute and deliver said documents, this Bond will be charged with the costs of the damages experienced by the Owner as a result of such refusal, including but not limited to the difference in money between the amount of the proposal of the said Principal, and the amount for which the obligee may be legally contracted with another party to perform the said Work if such amount be in excess of the former. In no event, however, shall the Surety's liability exceed the penal sum thereof.

The Surety, for value received, hereby stipulates and agrees that the obligations of said Surety and its bond shall be in no way impaired or affected by any extension of the time within which the Owner may accept such proposal, and said Surety does hereby waive notice of any such extension.

In the event suit is brought upon this bond by the Owner and judgment is recovered, the Surety shall pay all costs incurred by the Owner in such suit, including a reasonable attorney's fee to be fixed by the court.

IN WITNESS WHERE OF the above-bounded parties have executed this instrument under their several seals this day of \_\_\_\_\_, 20\_\_, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

RFP Package#: WSH16-06B

Description of Work: Multi-Function Device/Digital Copier (MFD) and Managed Print Services (MPS) Lease and Maintenance Services

NOW, THEREFORE, in consideration of the foregoing, Guarantor agrees as follows:

**1. Guaranty of the Agreement.** Guarantor hereby irrevocably and unconditionally guarantees to OWNER the complete and timely performance, satisfaction and observation by COMPANY of each and every term and condition of the AGREEMENT which COMPANY is required to perform, satisfy or observe. In the event that COMPANY fails to perform, satisfy or observe any of the terms and conditions of the AGREEMENT, Guarantor will promptly and fully perform, satisfy or observe them in the place of the COMPANY. Guarantor hereby guarantees payment to OWNER of any damages, costs or expenses which might become recoverable by OWNER from COMPANY due to its breach of the AGREEMENT.

**2. Guarantor's Obligations Are Absolute.** The obligations of the Guarantor hereunder are direct, immediate, absolute, continuing, unconditional and unlimited, and with respect to any payment obligation of COMPANY under the AGREEMENT, shall constitute a guarantee of payment and not of Collection, and are not conditional upon the genuineness, validity, regularity or enforceability of the AGREEMENT. In any action brought against the Guarantor to enforce, or for damages for breach of, its obligations hereunder, the Guarantor shall be entitled to all defenses, if any, that would be available to the COMPANY in an action to enforce, or for damages for breach of, the AGREEMENT (other than discharge of, or stay of proceedings to enforce, obligations under the AGREEMENT under bankruptcy law).

**3. Waivers.** Except as provided herein the Guarantor shall have no right to terminate this Guaranty or to be released, relieved, exonerated or discharged from its obligations under it for any reason whatsoever, including, without limitation: (1) the insolvency, bankruptcy, reorganization or cessation of existence of the COMPANY; (2) the actual or purported rejection by a trustee in bankruptcy of the AGREEMENT, or any limitation on any claim in bankruptcy resulting from the actual or purported termination of the AGREEMENT; (3) any waiver with respect to any of the obligations of the AGREEMENT guaranteed hereunder or the impairment or suspension of any of OWNER's rights or remedies against the COMPANY; or (4) any merger or consolidation of the COMPANY with any other corporation, or any sale, lease or transfer of any or all the assets of the COMPANY. Without limiting the generality of the foregoing, Guarantor hereby waives the rights and benefits under California Civil Code Section 2819. The Guarantor hereby waives any and all benefits and defenses under California Civil Code Section 2846, 2849, and 2850, including without limitation, the right to require OWNER to (a) proceed against COMPANY, (b) proceed against or exhaust any security or collateral OWNER may hold now or hereafter hold, or (c) pursue any other right or remedy for Guarantor's benefit, and agrees that OWNER may proceed against Guarantor for the obligations guaranteed herein without taking any action against COMPANY or any other guarantor or pledgor and without proceeding against or exhausting any security or collateral OWNER may hold now or hereafter hold. OWNER may unqualifiedly exercise in its sole discretion any or all rights and remedies available to it against COMPANY or any other guarantor or pledgor without impairing OWNER's rights and remedies in enforcing this Guaranty.

The Guarantor hereby waives and agrees to waive at any future time at the request of OWNER to the extent now or then permitted by applicable law, any and all rights which the Guarantor may have or which at any time hereafter may be conferred upon it, by statute, regulation or otherwise, to avoid any of its obligations under, or to terminate, cancel, quit or surrender this Guaranty. Without limiting the generality of the foregoing, it is agreed that the occurrence of any one or more of the following shall not affect the liability of the Guarantor hereunder: (a) at any time or from time to time, without notice the Guarantor, performance or compliance herewith is waived; (b) any other of any provision of its AGREEMENT indemnification with respect to COMPANY's obligations under the AGREEMENT or any security therefore is released or exchanged in whole or in part or otherwise dealt with; or (c) any assignment of the AGREEMENT is effected which does not require OWNER's approval. The Guarantor hereby expressly waives, diligence, presentment, demand for payment or performance, protest and all notices whatsoever, including, but not limited to, notices of non-payment or non-performance, notices of protest, notices of any breach or default, and notices of acceptance of this Guaranty. If all or any portion of the obligations guaranteed hereunder are paid or performed, Guarantor's obligations hereunder shall continue and remain in full force and effect in the event that all or any part of such payment or performance is avoided or recovered directly or indirectly from OWNER as a preference, fraudulent transfer or otherwise, irrespective of (a) any notice of revocation given by Guarantor or COMPANY prior to such avoidance or recovery, and (b) payment in full of any obligations then outstanding.

**4. Term.** This Guaranty is not limited to any period of time, but shall continue in full force and effect until all of the terms and conditions of the AGREEMENT have been fully performed or otherwise discharged and Guarantor shall remain fully responsible under this Guaranty without regard to the acceptance by OWNER of any performance bond or other collateral to assure the performance of COMPANY's obligations under the AGREEMENT. Guarantor shall not be released of its obligations hereunder so long as there is any claim by OWNER against COMPANY arising out of the AGREEMENT based on COMPANY's failure to perform which has not been settled or discharged.

**5. No Waivers.** No delay on the part of OWNER in exercising any rights under this Guaranty or failure to exercise such rights shall operate as a waiver of such rights. No notice to or demand on Guarantor shall be a waiver of any obligation of Guarantor or right of OWNER to take other or further action without notice or demand. No modification or waiver of any of the provisions of this Guaranty shall be effective unless it is in writing and signed by OWNER and by Guarantor, nor shall any waiver be effective except in the specific instance or matter for which it is given.

**6. Attorney's Fees.** In addition to the amounts guaranteed under this Guaranty, Guarantor agrees in the event of Guaranty's breach of its obligations including to pay reasonable attorney's fees and all other reasonable costs and expenses incurred by the OWNER in enforcing this Guaranty, or in any action or proceeding arising out of or relating to this Guaranty, including any action instituted to determine the respective rights and obligations of the parties hereunder.

**7. Governing Law: Jurisdiction.** This Guaranty is and shall be deemed to be an AGREEMENT entered into in, and pursuant to the laws of, the State of California and shall be governed and construed in accordance with the laws of California without regard to its conflicts of laws, rules for all purposes including, but not limited to, matters of construction, validity and performance. Guarantor agrees that any action brought by OWNER to enforce this Guaranty may be brought in any court of the State of California and Guarantor consents to personal jurisdiction over it by such courts. Guarantor appoints the following person as its agents for service of process in California:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

With a copy by certified mail to:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**8. Severability.** If any portion of this Guaranty is held to be invalid or unenforceable, such invalidity will have no effect upon the remaining portions of this Guaranty, which shall be severable and continue in full force and effect.

**9. Binding On Successors.** This Guaranty shall insure to the benefit of OWNER and its successors and shall be binding upon Guarantor and its successors, including transferee(s) of substantially all of its assets and its shareholder(s) in the event of its dissolution or insolvency.

**10. Authority.** Guarantor represents and warrants that it has the corporate power and authority to give this Guaranty, that its execution of this Guaranty has been authorized by all necessary action under its Article of Incorporation and By-Laws, and that the person signing this Guaranty on its behalf has the authority to do so.

**11. Notices.** Notice shall be given in writing, deposited in the U.S. mail, registered or certified, first class postage prepaid, addressed as follows:

William S. Hart Union High School District  
21380 Centre Pointe Parkway Santa Clarita, CA 91350

Each Company must complete the information on this sheet and affix this sheet to the outside of their proposal envelope by gluing or taping.

**EXHIBIT "A"**  
**SPECIFICATIONS**

### FLEET SUMMARY STANDARDS

The following table provides a high level overview of the base requirements for each Performance Band for the Fleet located at Owner schools and offices. The Performance Band does not apply to devices to be located at the Copy Center.

Listed copier models are provided for informational purposes only. These are meant to aid Company in determining the “best fit” model for the identified Performance Band. Company is encouraged to submit their independent recommendation for the manufacturer, make, and model of equipment to meet Owner’s needs. All proposed products must be the current model of the manufacturer’s product line in that Performance Band.

The following section is designed to assess compliance with a set of technical specifications both by band and for all equipment in this RFP. A Company who misrepresents the technical capabilities of their products in the tables below may be disqualified from a potential award.

| Minimum Copier Speed (PPM)                 | Monthly Volume (AMPV)  | Number of Devices per Band | Sample Copier Models |
|--|------------------------|----------------------------|----------------------|
| <b>Volume Band No. 1 – Black Image</b>     |                        |                            |                      |
| <b>35</b>                                  | <b>Less than 7000</b>  | <b>40</b>                  |                      |
| <b>Volume Band No. 2 – Black Image</b>     |                        |                            |                      |
| <b>55</b>                                  | <b>7,001 – 30,000</b>  | <b>28</b>                  |                      |
| <b>Volume Band No. 3 – Black Image</b>     |                        |                            |                      |
| <b>65</b>                                  | <b>30,001 – 75,000</b> | <b>21</b>                  |                      |
| <b>Volume Band No. 4 – Black Image</b>     |                        |                            |                      |
| <b>75</b>                                  | <b>75001 and over</b>  | <b>3</b>                   |                      |
| <b>Volume Band No. 5 – Black and Color</b> |                        |                            |                      |
| <b>60</b>                                  | <b>25,000 – 70,000</b> | <b>1</b>                   |                      |

The intent of this Exhibit is to provide Company a listing of Owner’s sites, by site name, of the current and desired Performance Band of Owner’s Multi-Function devices located at Owner schools and Offices.

Owner’s current Multi-Function Devices that are part of the aging fleet to be replaced are listed in the Current Model column. Owner desires to increase the number of devices located at the school sites and is so indicated by the words “New Add”.

The current Average Monthly Production Volume is indicated for each device in the AMPV column. New Add devices will not have an AMPV indicated, but Owner has listed the desired Performance Band for each added device.

Use of brand name, trade name, make, model, manufacturer, or Company catalog number in specification, as set forth in this document, is for the purpose of establishing a grade or quality of material only. It is not the Owner's intent to limit the proposal, directly or indirectly, to any one specific concern, to rule out other competition, therefore, the phrase OR OPERATIONALLY EQUIVALENT is added. In those cases involving a unique or novel product application required to be used in the public interest, or where only one brand or trade name is known to the Owner, it may list only one.

The table below is meant to aid Company in determining the "best fit" model for the identified Performance Band. Company shall propose equipment that will provide copy, print, scan, fax and finish requirements that are equal to or better than the Performance Band as indicated below and the subsequent specification for that Performance Band.

Company must complete the Proposed Model Column of this table and submit it with their Proposal.

|  | Location                          | Serial Number | Current Model | AMPV   | Band No. | Proposed Model |

Company shall complete the following tables for general requirements pertaining to the MFD equipment proposed for the Fleet at the school sites. Comments section is for Company to explain all “No” responses and any “Qualified Yes” (“QY”) responses.

| General Requirements – MFD Fleet Equipment  | Y/N or QY | Comments |
|---|-----------|----------|
| 1. Company is licensed to do business in the State of California and is a legal entity capable of entering into Agreements within the State of California.  |           |          |
| 2. Company is in good standing with the California Franchise Tax Board.   |           |          |
| 3. Company, if other than the equipment manufacturer, is an authorized distributor, dealer or service representative and is authorized to sell and maintain the manufacturer’s products included in this RFP. Evidence that the Company is an authorized dealer and technicians are manufacturer certified is provided with response. |           |          |
| 4. Equipment offered shall be new in the box, OEM Parts, ISO-14001 certified  |           |          |
| 5. Equipment offered shall be w/o defect and shall comply with all current safety order of OSHA, CAL-OSHA and/or NIOSH and OSH-POD  |           |          |
| 6. All prices quoted include, but are not limited to, all service calls, labor, parts, drums and consumable supplies (excluding paper and staples) and all delivery fees, packaging, handling, shipping charges, set-up and training  |           |          |
| 7. Company will make delivery and install all implementation equipment or supplies, as a result of this solicitation, within thirty (30) calendar days of Award of Agreement or as agreed to by Owner.  |           |          |
| 8. Company shall provide initial and on-going training on each piece of installed equipment required, at no charge to Owner.  |           |          |
| 9. Company complies with the State of California environmental requirements. For the State of California environmental guidelines, please go to this website: <a href="http://www.dgs.ca.gov/buyinggreen/Home.aspx">http://www.dgs.ca.gov/buyinggreen/Home.aspx</a>   |           |          |
| 10. Company shall provide SDS sheets for any toners and/or developers which they propose as part of their Proposal, to Owner upon installation, and will provide the SDS at each MFD location.  |           |          |

|   |  |  |
|---|--|--|
| 11. When required, samples, demonstrations and testing will be furnished free of charge to the Owner. Upon expiration of sample, demonstration and/or test period, the item(s) will be returned to Company at Company's expense.  |  |  |
| 12. Company agrees to replace equipment as described in the Services Agreement, Section 4.16(c) Lemon Clause.   |  |  |
| 13. Cost of copies run during installation, test, maintenance, and any or all other service(s) provided by Company will be offered as a credit to Owner, monthly. The paper and staples used will be provided by Owner at no cost to Company during the service.  |  |  |
| 14. Company agrees to meet Performance targets including document production out-put, job accuracy, turn around rates, supply replenishment and equipment "up time" at or above 95% acceptance levels as defined in Instructions/Information to Proposers, Section 10 Company Performance Expectations. |  |  |
| 15. Company agrees to reconcile Owner's AMPV overage charges across all MFD equipment bi-annually.  |  |  |
| 16. Owner is afforded the option to move or transfer contracted equipment from one agency location to another agency location as deemed necessary with no charge to lease or maintenance plans.   |  |  |
| 17. There is no charge to Owner for all scanned images.   |  |  |

## **TECHNICAL REQUIREMENTS**

The following tables are designed to assess compliance with a set of technical specifications by Performance Band and for all equipment in this RFP. Companies who misrepresent the technical capabilities of their products in the tables below may be disqualified from a potential award. Company must complete the appropriate columns and include the tables with their submission of their Proposal.

### **BAND 1: 35PPM**

| Feature Requirement                 | Desired Specification   | As Specified (Y/N or QY) | Comments |
|-------------------------------------|---|--------------------------|----------|
| Minimum Print Speed                 | 35 PPM simplex or greater   |                          |          |
| Minimum Mo. Duty Cycle              | 100K  |                          |          |
| Duplex document handler capacity    | 75 sheets or greater  |                          |          |
| Duplex document handler speed       | 35 PPM simplex or greater   |                          |          |
| Maximum paper capacity              | 1200 sheets or greater  |                          |          |
| Paper sides output                  | Duplex  |                          |          |
| Minimum Memory                      | 512 MB RAM  |                          |          |
| Minimum paper capacity              | 1200 sheets or greater  |                          |          |
| Minimum paper sources               | 3 paper sources that are user adjustable (with no tools) from 5.5" x 8.5" to 8.5" x 14". Ideally trays shall automatically recognize paper size |                          |          |
| Paper tray weight range             | 16LB – 60Lb bond or greater   |                          |          |
| Paper tray paper types              | Bond, tabs, labels, transparencies, envelopes, recycled, 3-hole, plain  |                          |          |
| Required bypass tray specification  | 100 sheets minimum  |                          |          |
| Bypass tray weight range            | 16LB – 60Lb bond  |                          |          |
| Document feeder scanning technology | Scan once, print many   |                          |          |
| FCOT                                | < 5 seconds   |                          |          |
| Warm-up time                        | < 60 seconds  |                          |          |
| Envelope capability                 | Provide optional capability through paper trays. Indicate the cost of this option.  |                          |          |
| Consumable strategy                 | Replaceable modules for high wear components  |                          |          |
| Function independence               | If one module becomes inoperative, other functions continue to run (i.e., if fax breaks, can still copy/print)                                  |                          |          |

| Feature Requirement           | Desired Specification   | As Specified (Y/N or QY) | Comments |
|-------------------------------|---|--------------------------|----------|
| Jam Clearance                 | Unit provides step-by-step instructions with pictures   |                          |          |
| Copy modes                    | 1/1, 1/2, 2/2, 2/1  |                          |          |
| Number of copies              | Up to 9999 on the panel   |                          |          |
| Quality settings              | Text, Photo & mixed mode  |                          |          |
| R/E                           | Range of 25-400% with at least 3 presets  |                          |          |
| Job Build                     | Copier feature that enables multiple scans to be appended to each other in memory to produce a final document; Parameters such as duplexing, R/E and quality settings should be alterable between each scan |                          |          |
| Multiple-up on a single sheet | Required  |                          |          |
| Auto Center                   | Automatically center document on page   |                          |          |
| Shift                         | Move image on document  |                          |          |
| Auto size sense               | Automatically sense the size of the document and output onto correct paper  |                          |          |
| Mixed size mode               | Automatically sense the size of mixed size documents in the document handler and output onto size for size paper or automatically reduce/enlarge to a common paper size                                     |                          |          |
| Scan ahead                    | 10 job minimum scan ahead capability (next job can be scanned into the system and queued up while other jobs being output)  |                          |          |
| User Tracking                 | Built-in tracking capability for tracking copies by user and disabling account based on a maximum volume.   |                          |          |

| <b>Fax Requirements</b>                                  | <b>Desired Specification</b>   | <b>As Specified (Y/N or QY)</b> | <b>Comments</b> |
|--|--|---------------------------------|-----------------|
| V.34, 33.6K modem  | Required   |                                 |                 |
| Fax resolution   | From 200x100 (standard) up to 600x 600   |                                 |                 |
| Able to fax 2-sided originals                            | Required   |                                 |                 |
| Fax Mailboxes  | Required – shall be able to fax to a private, password protected mail box  |                                 |                 |
| Speed dial   | At least 200 numbers   |                                 |                 |
| Group dial   | At least 100 groups with 100 recipients each   |                                 |                 |
| Leverage MFP features for faxing                         | Shall be able to print incoming faxes 2-sided  |                                 |                 |
| Server fax   | Alternate option to connect to a VOIP fax server vs. embedded fax modem  |                                 |                 |
| Internet fax   | Alternate option for Internet fax  |                                 |                 |
| <b>Print Requirements</b>                                | <b>Desired Specification</b>   | <b>As Specified (Y/N or QY)</b> | <b>Comments</b> |
| Network printing capability                              | PCL 5e and/or 6, PS 3 standard   |                                 |                 |
| Graphical print drivers from the desktop                 | Windows XP, 7, 8, 10 & 2003,2008, & 2012 Mac OS, Unix  |                                 |                 |
| Print driver certification                               | Microsoft print drivers shall be WHQL certified by Microsoft   |                                 |                 |
| Web printing (only applicable to Multi-Function Devices) | Shall provide a method to print via a web browser which does not require a custom print driver to be installed                                 |                                 |                 |
| Print resolution   | True 1200 dpi  |                                 |                 |
| Memory for print controller                              | 512 MB RAM for print controller  |                                 |                 |
| Processor on print controller                            | 1.0 MHz or greater   |                                 |                 |
| Hard drive on print controller                           | 120 GB or greater  |                                 |                 |
| Secure/confidential printing                             | Shall be able to change password through the print driver on a job by job basis. No system admin required for maintaining mail boxes/passwords |                                 |                 |

| <b>Print Requirements</b>                                | <b>Desired Specification</b>   | <b>As Specified<br/>(Y/N or QY)</b> | <b>Comments</b> |
|--|--|-------------------------------------|-----------------|
| Time specific printing                                   | Shall enable the user to specify the desired time when they would like a print job to print. Shall enable the user to interrupt a copy or print job to produce a rush copy job. All the features of the machine must be accessible during job interrupt. |                                     |                 |
| Toner saver mode   | Print with lower density black to save on toner cost   |                                     |                 |
| Watermark capability                                     | Provide watermark or overlay capability as part of print driver  |                                     |                 |
| Bi-directional print driver                              | Print drivers shall be bi-directional reporting job and machine status information back to user  |                                     |                 |
| Job Queue  | Job queue for pending printing or completed jobs shall be visible  |                                     |                 |
| Network printing capability                              | PCL 5e and/or 6, PS 3 standard   |                                     |                 |
| Graphical print drivers from the desktop                 | Windows XP, 7, 8, 10, 2003, 2008, & 2012, MacOS, Unix  |                                     |                 |
| <b>Scan Requirements</b>                                 | <b>Desired Specification</b>   | <b>As Specified<br/>(Y/N or QY)</b> | <b>Comments</b> |
| Scan to individual or multiple E-mail via SMTP messaging | Shall provide network user authentication for tracking purposes and security purposes. Shall provide a method to access the global address list via LDAP protocol and Active Directory.  |                                     |                 |
| Scan to individual or multiple e-mail                    | Shall be capable to download private address book unique to local machine, shall be LDAP/Exchange compatible.  |                                     |                 |
| Scan across the network                                  | Optional capability for integration with network applications; Shall support FTP and SMB protocols.  |                                     |                 |

|   |  |                                 |                 |
|---|--|---------------------------------|-----------------|
|   | Shall email confirmation of successful transmission, including tracking number to the authenticated user.  |                                 |                 |
| Scan to desktop capability                | Optional capability to push documents directly to individual desktops  |                                 |                 |
| Other Scan protocols                      | HTTP, FTP, SMB,  |                                 |                 |
| Scan Resolution                           | 200-600 dpi  |                                 |                 |
| Scan formats                              | TIFF and PDF; If color, JPG also. Identify required additional software or hardware in comments  |                                 |                 |
| <b>Security Features</b>                  | <b>Desired Specification</b>   | <b>As Specified (Y/N or QY)</b> | <b>Comments</b> |
| IP restricted access                      | Provides a method such as IP Filtering for limiting access to the device   |                                 |                 |
| Disk overwrite                            | Provide software to overwrite all print/copy/scan/fax jobs written to the hard drive   |                                 |                 |
| Vendor independent industry certification | Shall provide a vendor independent certification such as NIAP, National Information Assurance Partnership.   |                                 |                 |
| User authentication                       | Users shall be authenticated against Active Directory (or equivalent) prior to initiating any function at the machine that will access the network |                                 |                 |
| <b>Remote Administration</b>              | <b>Desired Specification</b>   | <b>As Specified (Y/N or QY)</b> | <b>Comments</b> |
| Base capability                           | Machine shall be able to be configured remotely for all machine and protocol settings using web technology preferably via an embedded web server   |                                 |                 |
| Clone feature                             | Shall have a feature that enables copying of device settings (protocol and scanning set-ups) that can be exported to other machines                |                                 |                 |

|   |   |                                 |                 |
|---|---|---------------------------------|-----------------|
| Notification feature  | Shall have a feature that enables notification of unique individuals to be notified of machine errors (i.e., jam error e-mail to key operator, network error e-mail to IT)  |                                 |                 |
| Meter read submission                                       | Shall have a feature that enables machine to submit meter reading to vendor over the Internet   |                                 |                 |
| Supplies reorder  | Shall have a feature that enables the machine to automatically re-order supplies from the vendor based on projected expiration without any user intervention  |                                 |                 |
| Job queue   | Shall have a feature that enables remote viewing and manipulation of the job queue  |                                 |                 |
| Scan set-up   | Shall have a feature that enables remote configuration of various scanning methods  |                                 |                 |
| Billing meters  | Shall provide a method to remote view all meters for copy, print, fax and scan on the machine   |                                 |                 |
| Patching  | Shall provide a method to remotely and automatically patch the machine from behind the customer's firewall  |                                 |                 |
| <b>Device Management</b>                                    | <b>Desired Specification</b>  | <b>As Specified (Y/N or QY)</b> | <b>Comments</b> |
| Fleet Management software for Administration and IT support | Vendor independent SNMP management tool that provides administrative functions including: device identification, device status, administrative reporting, device organization using SNMP community names, remote troubleshooting and installation. Geared towards |                                 |                 |

|  |  |  |  |
|--|--|--|--|
|  | managing output device fleet.  |  |  |
| Plug-ins for third party SNMP management tools | Plug-ins available for 3rd party management tools  |  |  |
| Fleet Management Reports                       | Fleet management software shall enable extensive reporting including asset list, asset status/error reports, meter reads, etc. Reporting information shall be based on MIB information provided by the device. |  |  |

**BAND 2: 55 - 60 PPM**

| <b>Feature Requirement</b>          | <b>Desired Specification</b>   | <b>As Specified<br/>(Y/N or QY)</b> | <b>Comments/<br/>Exceptions</b> |
|-------------------------------------|--|-------------------------------------|---------------------------------|
| Minimum Print Speed                 | 55 PPM simplex or greater  |                                     |                                 |
| Minimum Monthly Duty Cycle          | 200K   |                                     |                                 |
| Duplex document handler capacity    | 75 sheets or greater   |                                     |                                 |
| Duplex document handler speed       | 55 PPM simplex or greater  |                                     |                                 |
| Maximum paper size                  | 11" x 17"  |                                     |                                 |
| Paper sides output                  | Duplex   |                                     |                                 |
| Minimum Memory                      | 512 MB RAM   |                                     |                                 |
| Minimum paper capacity              | 4000 sheets or greater   |                                     |                                 |
| Minimum paper sources               | 3 paper sources that are user adjustable (with no tools) from 5.5" x 8.5" to 11" x 17". Trays shall automatically recognize paper size |                                     |                                 |
| Paper tray weight range             | 16LB – 60Lb bond or greater  |                                     |                                 |
| Paper tray paper types              | Bond, tabs, labels, recycled, transparencies, 3-hole, plain  |                                     |                                 |
| Required bypass tray specification  | 100 sheets minimum   |                                     |                                 |
| Bypass tray weight range            | 16LB – 60Lb bond   |                                     |                                 |
| Document feeder scanning technology | Scan once, print many  |                                     |                                 |
| Finisher stapling                   | 50-100 sheet minimum multi-position stapling   |                                     |                                 |
| Convenience stapler                 | Machine installed stapling unit  |                                     |                                 |
| FCOT                                | < 5 seconds  |                                     |                                 |
| Warm-up time                        | < 99 seconds   |                                     |                                 |
| Consumable strategy                 | Replaceable modules for high wear components   |                                     |                                 |
| Function independence               | If one module becomes inoperative, other functions continue to run (i.e., if fax breaks, can still copy/print)                         |                                     |                                 |
| Jam Clearance                       | Unit provides step-by-step instructions with pictures  |                                     |                                 |
| Copy modes                          | 1/1, 1/2, 2/2, 2/1   |                                     |                                 |
| Number of copies                    | Up to 9999 on the panel  |                                     |                                 |
| Quality settings                    | Text, Photo & mixed mode   |                                     |                                 |

| Feature Requirement                      | Desired Specification  | As Specified (Y/N or QY) | Comments/ Exceptions |
|--|--|--------------------------|----------------------|
| R/E                                      | Range of 25-400% with at least 3 presets   |                          |                      |
| Job Build                                | Copier feature that enables multiple scans to be appended to each other in memory to produce a final document; Parameters such as duplexing, R/E and quality settings shall be alterable between each scan |                          |                      |
| Multiple-up on a single sheet            | Required   |                          |                      |
| Auto Center                              | Automatically center document on page  |                          |                      |
| Shift                                    | Move image on document   |                          |                      |
| Auto size sense                          | Automatically sense the size of the document and output onto correct paper   |                          |                      |
| Mixed size mode                          | Automatically sense the size of mixed size documents in the document handler and output onto size for size paper or automatically reduce/enlarge to a common paper size                                    |                          |                      |
| Scan ahead                               | 10 job minimum scan ahead capability (next job can be scanned into the system and queued up while other jobs being output)   |                          |                      |
| User Tracking                            | Built-in tracking capability for tracking copies by user and disabling account based on a maximum volume.  |                          |                      |
| Print Requirements                       | Desired Specification  | As Specified (Y/N or QY) | Comments/ Exceptions |
| Network printing capability              | PCL 5e and/or 6, PS 3 standard   |                          |                      |
| Graphical print drivers from the desktop | Windows XP, 7, 8, 10, 2003, 2008, & 2012, MacOS, Unix  |                          |                      |
| Print driver certification               | Microsoft print drivers shall be WHQL certified by Microsoft   |                          |                      |
| central Print queue                      | Allows any job submitted can be retrieved from any device anywhere within Owner's facilities   |                          |                      |

| Print Requirements                                       | Desired Specification  | As Specified (Y/N or QY) | Comments/ Exceptions |
|--|--|--------------------------|----------------------|
| Available finishing options                              | Ability for end users to set finishing options for these (follow-you-printing) at the device. This feature is for Owner staff only.  |                          |                      |
| Solution authenticates using Proximity Cards             | Should authenticate to the MFD during a temporary network failure?   |                          |                      |
| Web printing (only applicable to Multi-Function Devices) | Shall provide a method to print via a web browser which does not require a custom print driver to be installed   |                          |                      |
| Print resolution   | True 1200 dpi  |                          |                      |
| Memory for print controller                              | 512 MB RAM for print controller  |                          |                      |
| Processor on print controller                            | 1.0 MHz or greater   |                          |                      |
| Hard drive on print controller                           | 120 GB or greater  |                          |                      |
| Secure/confidential printing                             | Required; Shall be able to change password through the print driver on a job by job basis. No system administration requirements for maintaining mail boxes/passwords  |                          |                      |
| Time specific printing                                   | Shall enable the user to specify the desired time when they would like a print job to print. Shall enable the user to interrupt a copy or print job to produce a rush copy job. All the features of the machine shall be accessible during job interrupt |                          |                      |
| Toner saver mode   | Print with lower density black to save on toner cost   |                          |                      |
| Watermark capability                                     | Provide watermark or overlay capability as part of print driver  |                          |                      |
| Bi-directional print driver                              | Print drivers shall be bi-directional reporting job and machine status information back to user  |                          |                      |
| Job Queue  | Job queue for printing shall be  |                          |                      |

|                                   |  |                                 |                             |
|-----------------------------------|--|---------------------------------|-----------------------------|
|                                   | visible  |                                 |                             |
| Supported print protocols         | Direct TCP/IPv4/IPv6, queue-based printing, Port 9100, AppleTalk/EtherTalk   |                                 |                             |
| Mobile print driver               | Single, common print driver that can be used across multiple machines by specifying IP address   |                                 |                             |
| <b>Scan Requirements</b>          | <b>Desired Specification</b>   | <b>As Specified (Y/N or QY)</b> | <b>Comments/ Exceptions</b> |
| Scan to E-mail via SMTP messaging | Required scanning feature; Shall provide network user authentication for tracking purposes and security purposes. Shall provide a method to access the global address list via LDAP protocol and Active Directory. |                                 |                             |
| Scan to e-mail                    | Shall be capable to download private address book unique to local machine, must be LDAP/Exchange compatible.   |                                 |                             |
| Scan across the network           | Optional capability for integration with network applications; Shall support FTP and SMB protocols. Shall email confirmation of successful transmission, including tracking number to the authenticated user.      |                                 |                             |
| Scan to desktop capability        | Optional capability to push documents directly to individual desktops  |                                 |                             |
| Other Scan protocols              | HTTP, FTP, SMB,  |                                 |                             |
| Scan Resolution                   | 200-600 dpi  |                                 |                             |
| Scan formats                      | TIFF and PDF; If color, JPG also. Identify required additional software or hardware in comments  |                                 |                             |
| <b>Security Features</b>          | <b>Desired Specification</b>   | <b>As Specified (Y/N or QY)</b> | <b>Comments/ Exceptions</b> |
| IP restricted access              | Provides a method such as IP Filtering for limiting access to the device   |                                 |                             |
| Disk overwrite                    | Provide software to overwrite all print/copy/scan/fax jobs   |                                 |                             |

|   |  |                                 |                             |
|---|--|---------------------------------|-----------------------------|
|   | written to the hard drive  |                                 |                             |
| Vendor independent industry certification | Shall provide a vendor independent certification such as NIAP, National Information Assurance Partnership.   |                                 |                             |
| User authentication                       | Users shall be authenticated against Active Directory (or equivalent) prior to initiating any function at the machine that shall access the network                        |                                 |                             |
| <b>Remote Administration</b>              | <b>Desired Specification</b>   | <b>As Specified (Y/N or QY)</b> | <b>Comments/ Exceptions</b> |
| Base capability                           | Machine shall be able to be configured remotely for all machine and protocol settings using web technology preferably via an embedded web server                           |                                 |                             |
| Clone feature                             | Shall have a feature that enables copying of device settings (protocol and scanning set-ups) that can be exported to other machines  |                                 |                             |
| Notification feature                      | Shall have a feature that enables notification of unique individuals to be notified of machine errors (i.e., jam error e-mail to key operator, network error e-mail to IT) |                                 |                             |
| Meter read submission                     | Shall have a feature that enables machine to submit meter reading to vendor over the Internet  |                                 |                             |
| Supplies reorder                          | Shall have a feature that enables the machine to automatically re-order supplies from the vendor based on projected expiration without any user intervention               |                                 |                             |
| Job queue                                 | Shall have a feature that enables remote viewing and manipulation of the job queue   |                                 |                             |
| Scan set-up                               | Shall have a feature that enables remote configuration of various scanning methods   |                                 |                             |
| Billing meters                            | Shall provide a method to  |                                 |                             |

|   |   |                                 |                             |
|---|---|---------------------------------|-----------------------------|
|   | remote view all meters for copy, print, fax and scan on the machine   |                                 |                             |
| Patching  | Shall provide a method to remotely and automatically patch the machine from behind the customer's firewall  |                                 |                             |
| <b>Device Management</b>                                    | <b>Desired Specification</b>  | <b>As Specified (Y/N or QY)</b> | <b>Comments/ Exceptions</b> |
| Fleet Management software for Administration and IT support | Vendor independent SNMP management tool that provides administrative functions including: device identification, device status, administrative reporting, device organization using SNMP community names, remote troubleshooting and installation. Geared towards managing output device fleet. |                                 |                             |
| Plug-ins for third party SNMP management tools              | Plug-ins available for 3rd party management tools   |                                 |                             |
| Fleet Management Reports                                    | Fleet management software shall enable extensive reporting including asset list, asset status/error reports, meter reads, etc. Reporting information shall be based on MIB information provided by the device.  |                                 |                             |

**BAND 3: 65 - 70 PPM**

| Feature Requirement                 | Desired Specification  | As Specified (Y/N or QY) | Comments/ Exceptions |
|-------------------------------------|--|--------------------------|----------------------|
| Minimum Print Speed                 | 65 PPM simplex or greater  |                          |                      |
| Minimum Monthly Duty Cycle          | 250K   |                          |                      |
| Duplex document handler capacity    | 75 sheets or greater   |                          |                      |
| Duplex document handler speed       | 65 PPM simplex or greater  |                          |                      |
| Maximum paper size                  | 11" x 17"  |                          |                      |
| Paper sides output                  | Duplex   |                          |                      |
| Minimum Memory                      | 512 MB RAM   |                          |                      |
| Minimum paper capacity              | 8000 sheets or greater   |                          |                      |
| Minimum paper sources               | 3 paper sources that are user adjustable (with no tools) from 5.5" x 8.5" to 11" x 17". Ideally trays shall automatically recognize paper size |                          |                      |
| Paper tray weight range             | 16LB – 60Lb bond or greater  |                          |                      |
| Paper tray paper types              | Bond, tabs, labels, recycled, transparencies, 3-hole, plain  |                          |                      |
| Required bypass tray specification  | 100 sheets minimum   |                          |                      |
| Bypass tray weight range            | 16LB – 60Lb bond or greater  |                          |                      |
| Document feeder scanning technology | Scan once, print many  |                          |                      |
| Finisher stapling                   | 50-100 sheet minimum multi-position stapling   |                          |                      |
| Convenience stapler                 | Machine installed stapling unit  |                          |                      |
| FCOT                                | < 5 seconds  |                          |                      |
| Warm-up time                        | < 99 seconds   |                          |                      |
| Consumable strategy                 | Replaceable modules for high wear components   |                          |                      |
| Function independence               | If one module becomes inoperative, other functions continue to run (i.e., if fax breaks, can still copy/print)                                 |                          |                      |
| Jam Clearance                       | Unit provides step-by-step instructions with pictures  |                          |                      |
| Copy modes                          | 1/1, 1/2, 2/2, 2/1   |                          |                      |
| Number of copies                    | Up to 9999 on the panel  |                          |                      |
| Quality settings                    | Text, Photo & mixed mode   |                          |                      |

| Feature Requirement                                      | Desired Specification  | As Specified (Y/N or QY) | Comments/ Exceptions |
|--|--|--------------------------|----------------------|
| R/E  | Range of 25-400% with at least 3 presets   |                          |                      |
| Job Build  | Copier feature that enables multiple scans to be appended to each other in memory to produce a final document; Parameters such as duplexing, R/E and quality settings shall be alterable between each scan |                          |                      |
| Multiple-up on a single sheet                            | Required   |                          |                      |
| Auto Center  | Automatically center document on page  |                          |                      |
| Shift  | Move image on document   |                          |                      |
| Auto size sense  | Automatically sense the size of the document and output onto correct paper   |                          |                      |
| Mixed size mode  | Automatically sense the size of mixed size documents in the document handler and output onto size for size paper or automatically reduce/enlarge to a common paper size                                    |                          |                      |
| Scan ahead   | 10 job minimum scan ahead capability (next job can be scanned into the system and queued up while other jobs being output)   |                          |                      |
| User Tracking  | Built-in tracking capability for tracking copies by user and disabling account based on a maximum volume.  |                          |                      |
| Print Requirements                                       | Desired Specification  | As Specified (Y/N or QY) | Comments/ Exceptions |
| Network printing capability                              | PCL 5e and/or 6, PS 3 standard   |                          |                      |
| Graphical print drivers from the desktop                 | Windows XP, 7, 8, 10, 2003, 2008, & 2012 Mac OS, Unix  |                          |                      |
| Print driver certification                               | Microsoft print drivers shall be WHQL certified by Microsoft   |                          |                      |
| Web printing (only applicable to Multi-Function Devices) | Shall provide a method to print via a web browser which does not require a custom print driver to be installed   |                          |                      |

|                                   |   |                                 |                             |
|-----------------------------------|---|---------------------------------|-----------------------------|
| Print resolution                  | True 1200 dpi   |                                 |                             |
| Memory for print controller       | 512 MB RAM for print controller   |                                 |                             |
| Processor on print controller     | 1.0 MHz or greater  |                                 |                             |
| Hard drive on print controller    | 120 GB or greater   |                                 |                             |
| Secure/confidential printing      | Required; Shall be able to change password through the print driver on a job by job basis. No system administration requirements for maintaining mail boxes/passwords   |                                 |                             |
| Time specific printing            | Shall enable the user to specify the desired time when they would like a print job to print. Shall enable the user to interrupt a copy or print job to produce a rush copy job. All the features of the machine must be accessible during job interrupt |                                 |                             |
| Toner saver mode                  | Print with lower density black to save on toner cost  |                                 |                             |
| Watermark capability              | Provide watermark or overlay capability as part of print driver   |                                 |                             |
| Bi-directional print driver       | Print drivers shall be bi-directional reporting job and machine status information back to user   |                                 |                             |
| Job Queue                         | Job queue for printing must be visible  |                                 |                             |
| Supported print protocols         | Direct TCP/IPv4/IPv6, queue-based printing, Port 9100, AppleTalk/EtherTalk  |                                 |                             |
| Mobile print driver               | Single, common print driver that can be used across multiple machines by specifying IP address  |                                 |                             |
| <b>Scan Requirements</b>          | <b>Desired Specification</b>  | <b>As Specified (Y/N or QY)</b> | <b>Comments/ Exceptions</b> |
| Scan to E-mail via SMTP messaging | Required scanning feature; Shall provide network user authentication for tracking purposes and security   |                                 |                             |

|   |   |                                 |                             |
|---|---|---------------------------------|-----------------------------|
|   | purposes. Shall provide a method to access the global address list via LDAP protocol and Active Directory.  |                                 |                             |
| Scan to e-mail                            | Desire capability to download private address book unique to local machine, shall be LDAP/Exchange compatible.  |                                 |                             |
| Scan across the network                   | Optional capability for integration with network applications; Shall support FTP and SMB protocols. Shall email confirmation of successful transmission, including tracking number to the authenticated user. |                                 |                             |
| Scan to desktop capability                | Optional capability to push documents directly to individual desktops   |                                 |                             |
| Other Scan protocols                      | HTTP, FTP, SMB,   |                                 |                             |
| Scan Resolution                           | 200-600 dpi   |                                 |                             |
| Scan formats                              | TIFF and PDF; If color, JPG also. Identify required additional software or hardware in comments   |                                 |                             |
| <b>Security Features</b>                  | <b>Desired Specification</b>  | <b>As Specified (Y/N or QY)</b> | <b>Comments/ Exceptions</b> |
| IP restricted access                      | Provides a method such as IP Filtering for limiting access to the device  |                                 |                             |
| Disk overwrite                            | Provide software to overwrite all print/copy/scan/fax jobs written to the hard drive  |                                 |                             |
| Vendor independent industry certification | Shall provide a vendor independent certification such as NIAP, National Information Assurance Partnership.  |                                 |                             |
| User authentication                       | Users shall be authenticated against Active Directory (or equivalent) prior to initiating any function at the machine that shall access the network   |                                 |                             |
| <b>Remote Administration</b>              | <b>Desired Specification</b>  | <b>As Specified (Y/N or QY)</b> | <b>Comments/ Exceptions</b> |
| Base capability                           | Machine shall be able to be configured remotely for all machine and protocol settings   |                                 |                             |

|   |   |                                 |                             |
|---|---|---------------------------------|-----------------------------|
|   | using web technology preferably via an embedded web server  |                                 |                             |
| Clone feature   | Shall have a feature that enables copying of device settings (protocol and scanning set-ups) that can be exported to other machines   |                                 |                             |
| Notification feature  | Shall have a feature that enables notification of unique individuals to be notified of machine errors (i.e., jam error e-mail to key operator, network error e-mail to IT)          |                                 |                             |
| Meter read submission                                       | Shall have a feature that enables machine to submit meter reading to vendor over the Internet   |                                 |                             |
| Supplies reorder  | Shall have a feature that enables the machine to automatically re-order supplies from the vendor based on projected expiration without any user intervention                        |                                 |                             |
| Job queue   | Shall have a feature that enables remote viewing and manipulation of the job queue  |                                 |                             |
| Scan set-up   | Shall have a feature that enables remote configuration of various scanning methods  |                                 |                             |
| Billing meters  | Shall provide a method to remote view all meters for copy, print, fax and scan on the machine   |                                 |                             |
| Patching  | Shall provide a method to remotely and automatically patch the machine from behind the customer's firewall  |                                 |                             |
| <b>Device Management</b>                                    | <b>Desired Specification</b>  | <b>As Specified (Y/N or QY)</b> | <b>Comments/ Exceptions</b> |
| Fleet Management software for Administration and IT support | Vendor independent SNMP management tool that provides administrative functions including: device identification, device status, administrative reporting, device organization using |                                 |                             |

|  |  |  |  |
|--|--|--|--|
|  | SNMP community names, remote troubleshooting and installation. Geared towards managing output device fleet.  |  |  |
| Plug-ins for third party SNMP management tools | Plug-ins available for 3rd party management tools  |  |  |
| Fleet Management Reports                       | Fleet management software shall enable extensive reporting including asset list, asset status/error reports, meter reads, etc. Reporting information shall be based on MIB information provided by the device. |  |  |

**BAND 4: 75 PPM AND OVER**

| <b>Feature Requirement</b>          | <b>Desired Specification</b>   | <b>As Specified<br/>(Y/N or QY)</b> | <b>Comments/<br/>Exceptions</b> |
|-------------------------------------|--|-------------------------------------|---------------------------------|
| Minimum Print Speed                 | 75 PPM simplex or greater  |                                     |                                 |
| Minimum Monthly Duty Cycle          | 250K   |                                     |                                 |
| Duplex document handler capacity    | 75 sheets or greater   |                                     |                                 |
| Duplex document handler speed       | 75 PPM simplex or greater  |                                     |                                 |
| Maximum paper size                  | 11" x 17"  |                                     |                                 |
| Paper sides output                  | Duplex   |                                     |                                 |
| Minimum Memory                      | 512 MB RAM   |                                     |                                 |
| Minimum paper capacity              | 200 sheets or greater  |                                     |                                 |
| Maximum paper capacity              | 8000 sheets or greater   |                                     |                                 |
| Minimum paper sources               | 3 paper sources that are user adjustable (with no tools) from 5.5" x 8.5" to 11" x 17". Ideally trays shall automatically recognize paper size |                                     |                                 |
| Paper tray weight range             | 16LB – 60Lb bond or greater  |                                     |                                 |
| Paper tray paper types              | Bond, tabs, labels, transparencies, recycled, 3-hole, plain  |                                     |                                 |
| Required bypass tray specification  | 100 sheets minimum   |                                     |                                 |
| Bypass tray weight range            | 16LB – 60LB bond   |                                     |                                 |
| Document feeder scanning technology | Scan once, print many  |                                     |                                 |
| Finisher stapling                   | 50-100 sheet minimum multi-position stapling   |                                     |                                 |
| Convenience stapler                 | Machine installed stapling unit  |                                     |                                 |
| FCOT                                | < 5 seconds  |                                     |                                 |
| Warm-up time                        | < 99 seconds   |                                     |                                 |
| Consumable strategy                 | Replaceable modules for high wear components   |                                     |                                 |
| Function independence               | If one module becomes inoperative, other functions continue to run (i.e., if fax breaks, can still copy/print)                                 |                                     |                                 |
| Jam Clearance                       | Unit provides step-by-step instructions with pictures  |                                     |                                 |
| Copy modes                          | 1/1, 1/2, 2/2, 2/1   |                                     |                                 |

| Feature Requirement                      | Desired Specification  | As Specified (Y/N or QY) | Comments/ Exceptions |
|--|--|--------------------------|----------------------|
| Number of copies                         | Up to 9999 on the panel  |                          |                      |
| Quality settings                         | Text, Photo & mixed mode   |                          |                      |
| R/E                                      | Range of 25-400% with at least 3 presets   |                          |                      |
| Job Build                                | Copier feature that enables multiple scans to be appended to each other in memory to produce a final document; Parameters such as duplexing, R/E and quality settings shall be alterable between each scan |                          |                      |
| Multiple-up on a single sheet            | Required   |                          |                      |
| Auto Center                              | Automatically center document on page  |                          |                      |
| Shift                                    | Move image on document   |                          |                      |
| Auto size sense                          | Automatically sense the size of the document and output onto correct paper   |                          |                      |
| Mixed size mode                          | Automatically sense the size of mixed size documents in the document handler and output onto size for size paper or automatically reduce/enlarge to a common paper size                                    |                          |                      |
| Scan ahead                               | 10 job minimum scan ahead capability (next job can be scanned into the system and queued up while other jobs being output)   |                          |                      |
| User Tracking                            | Built-in tracking capability for tracking copies by user and disabling account based on a maximum volume.  |                          |                      |
| Print Requirements                       | Desired Specification  | As Specified (Y/N or QY) | Comments/ Exceptions |
| Network printing capability              | PCL 5e and/or 6, PS 3 standard   |                          |                      |
| Graphical print drivers from the desktop | Windows XP, 7, 8, 10, 2003, 2008, & 2012, Mac OS, Unix   |                          |                      |
| Print driver certification               | Microsoft print drivers shall be WHQL certified by Microsoft   |                          |                      |

| Print Requirements                                       | Desired Specification   | As Specified (Y/N or QY) | Comments/ Exceptions |
|--|---|--------------------------|----------------------|
| Web printing (only applicable to Multi-Function Devices) | Shall provide a method to print via a web browser which does not require a custom print driver to be installed  |                          |                      |
| Print resolution   | True 1200 dpi   |                          |                      |
| Memory for print controller                              | 512 MB RAM for print controller   |                          |                      |
| Processor on print controller                            | 1.0 MHz or greater  |                          |                      |
| Hard drive on print controller                           | 120 GB or greater   |                          |                      |
| Secure/confidential printing                             | Required; Shall be able to change password through the print driver on a job by job basis. No system administration requirements for maintaining mail boxes/passwords   |                          |                      |
| Time specific printing                                   | Shall enable the user to specify the desired time when they would like a print job to print. Shall enable the user to interrupt a copy or print job to produce a rush copy job. All the features of the machine must be accessible during job interrupt |                          |                      |
| Toner saver mode   | Print with lower density black to save on toner cost  |                          |                      |
| Watermark capability                                     | Provide watermark or overlay capability as part of print driver   |                          |                      |
| Bi-directional print driver                              | Print drivers shall be bi-directional reporting job and machine status information back to user   |                          |                      |
| Job Queue  | Job queue for printing must be visible  |                          |                      |
| Supported print protocols                                | Direct TCP/IPv4/IPv6, queue-based printing, Port 9100, AppleTalk/EtherTalk  |                          |                      |
| Mobile print driver                                      | Single, common print driver that can be used across multiple machines by specifying IP address  |                          |                      |

| Scan Requirements                         | Desired Specification  | As Specified<br>(Y/N or QY) | Comments/<br>Exceptions |
|---|--|-----------------------------|-------------------------|
| Scan to E-mail via SMTP messaging         | Required scanning feature; shall provide network user authentication for tracking purposes and security purposes. Shall provide a method to access the global address list via LDAP protocol and Active Directory. |                             |                         |
| Scan to e-mail                            | Desire capability to download private address book unique to local machine, must be LDAP/Exchange compatible.  |                             |                         |
| Scan across the network                   | Optional capability for integration with network applications; Shall support FTP and SMB protocols. Shall email confirmation of successful transmission, including tracking number to the authenticated user.      |                             |                         |
| Scan to desktop capability                | Optional capability to push documents directly to individual desktops  |                             |                         |
| Other Scan protocols                      | HTTP, FTB, SMB,  |                             |                         |
| Scan Resolution                           | 200-600 dpi  |                             |                         |
| Scan formats                              | TIFF and PDF; If color, JPG also. Identify required additional software or hardware in comments  |                             |                         |
| Security Features                         | Desired Specification  | As Specified<br>(Y/N or QY) | Comments/<br>Exceptions |
| IP restricted access                      | Provides a method such as IP Filtering for limiting access to the device   |                             |                         |
| Disk overwrite                            | Provide software to overwrite all print/copy/scan/fax jobs written to the hard drive   |                             |                         |
| Vendor independent industry certification | Shall provide a vendor independent certification such as NIAP, National Information Assurance Partnership.   |                             |                         |
| User authentication                       | Users shall be authenticated against Active Directory (or equivalent) prior to initiating any function at the machine  |                             |                         |

|                              |  |                                     |                                 |
|------------------------------|--|-------------------------------------|---------------------------------|
|                              | that will access the network   |                                     |                                 |
| <b>Remote Administration</b> | <b>Desired Specification</b>   | <b>As Specified<br/>(Y/N or QY)</b> | <b>Comments/<br/>Exceptions</b> |
| Base capability              | Machine shall be able to be configured remotely for all machine and protocol settings using web technology preferably via an embedded web server                           |                                     |                                 |
| Clone feature                | Shall have a feature that enables copying of device settings (protocol and scanning set-ups) that can be exported to other machines  |                                     |                                 |
| Notification feature         | Shall have a feature that enables notification of unique individuals to be notified of machine errors (i.e., jam error e-mail to key operator, network error e-mail to IT) |                                     |                                 |
| Meter read submission        | Shall have a feature that enables machine to submit meter reading to vendor over the Internet  |                                     |                                 |
| Supplies reorder             | Shall have a feature that enables the machine to automatically re-order supplies from the vendor based on projected expiration without any user intervention               |                                     |                                 |
| Job queue                    | Shall have a feature that enables remote viewing and manipulation of the job queue   |                                     |                                 |
| Scan set-up                  | Shall have a feature that enables remote configuration of various scanning methods   |                                     |                                 |
| Billing meters               | Shall provide a method to remote view all meters for copy, print, fax and scan on the machine  |                                     |                                 |
| Patching                     | Shall provide a method to remotely and automatically patch the machine from behind the customer's firewall   |                                     |                                 |
| <b>Device Management</b>     | <b>Desired Specification</b>   | <b>As Specified<br/>(Y/N or QY)</b> | <b>Comments/<br/>Exceptions</b> |
| Fleet Management             | Vendor independent SNMP  |                                     |                                 |

|  |   |  |  |
|--|---|--|--|
| software for Administration and IT support     | management tool that provides administrative functions including: device identification, device status, administrative reporting, device organization using SNMP community names, remote troubleshooting and installation. Geared towards managing output device fleet. |  |  |
| Plug-ins for third party SNMP management tools | Plug-ins available for 3rd party management tools   |  |  |
| Fleet Management Reports                       | Fleet management software shall enable extensive reporting including asset list, asset status/error reports, meter reads, etc. Reporting information should be based on MIB information provided by the device.   |  |  |

**BAND 5: B/W and Color 60 + PPM**

| Feature Requirement                 | Desired Specification  | As Specified (Y/N or QY) | Comments/ Exceptions |
|-------------------------------------|--|--------------------------|----------------------|
| Minimum Print Speed                 | 60 PPM simplex or greater  |                          |                      |
| Minimum Monthly Duty Cycle          | 175K   |                          |                      |
| Duplex document handler capacity    | 75 sheets or greater   |                          |                      |
| Duplex document handler speed       | 60 PPM simplex or greater  |                          |                      |
| Maximum paper size                  | 11" x 17"  |                          |                      |
| Paper sides output                  | Duplex   |                          |                      |
| Minimum Memory                      | 1 GB RAM   |                          |                      |
| Minimum paper capacity              | 3000 sheets or greater   |                          |                      |
| Minimum paper sources               | 3 paper sources that are user adjustable (with no tools) from 5.5" x 8.5" to 11" x 17". Ideally trays shall automatically recognize paper size |                          |                      |
| Paper tray weight range             | 16LB – 32Lb bond   |                          |                      |
| Paper tray paper types              | Bond, tabs, labels, recycled, transparencies, 3-hole, plain  |                          |                      |
| Required bypass tray specification  | 100 sheets minimum   |                          |                      |
| Bypass tray weight range            | 16LB – 110Lb index   |                          |                      |
| Document feeder scanning technology | Scan once, print many  |                          |                      |
| Finisher stapling                   | 50 sheet minimum multi-position stapling   |                          |                      |
| Hole punching                       | Optional capability to 2 or 3-hole punch output sheets   |                          |                      |
| Convenience stapler                 | Machine installed stapling unit  |                          |                      |
| FCOT                                | < 8 seconds  |                          |                      |
| Warm-up time                        | < 150 seconds  |                          |                      |
| Envelope capability                 | Provide optional capability through paper trays  |                          |                      |
| Consumable strategy                 | Replaceable modules for high wear components   |                          |                      |
| Function independence               | If one module becomes inoperative, other functions continue to run (i.e., if fax breaks, can still copy/print)                                 |                          |                      |
| Jam Clearance                       | Unit provides step-by-step instructions with pictures  |                          |                      |

| Feature Requirement                      | Desired Specification   | As Specified (Y/N or QY) | Comments/ Exceptions |
|--|---|--------------------------|----------------------|
| Copy modes                               | 1/1, 1/2, 2/2, 2/1  |                          |                      |
| Number of copies                         | Up to 9999 on the panel   |                          |                      |
| Quality settings                         | Text, Photo & mixed mode  |                          |                      |
| R/E                                      | Range of 25-400% with at least 3 presets  |                          |                      |
| Job Build                                | Copier feature that enables multiple scans to be appended to each other in memory to produce a final document; Parameters such as duplexing, R/E and quality settings should be alterable between each scan |                          |                      |
| Multiple-up on a single sheet            | Required  |                          |                      |
| Auto Center                              | Automatically center document on page   |                          |                      |
| Shift                                    | Move image on document  |                          |                      |
| Auto size sense                          | Automatically sense the size of the document and output onto correct paper  |                          |                      |
| Mixed size mode                          | Automatically sense the size of mixed size documents in the document handler and output onto size for size paper or automatically reduce/enlarge to a common paper size                                     |                          |                      |
| Scan ahead                               | 10 job minimum scan ahead capability (next job can be scanned into the system and queued up while other jobs being output)  |                          |                      |
| User Tracking                            | Built-in tracking capability for tracking copies by user and disabling account based on a maximum volume.   |                          |                      |
| Print Requirements                       | Desired Specification   | As Specified (Y/N or QY) | Comments/ Exceptions |
| Network printing capability              | PCL 5e and/or 6, PS 3 standard  |                          |                      |
| Graphical print drivers from the desktop | Windows XP, 7, 8, 10, 2003, 2008, & 2012, Mac OS, Unix  |                          |                      |

| Print Requirements                                       | Desired Specification   | As Specified (Y/N or QY) | Comments/ Exceptions |
|--|---|--------------------------|----------------------|
| Print driver certification                               | Microsoft print drivers should be WHQL certified by Microsoft   |                          |                      |
| Web printing (only applicable to Multi-Function Devices) | Shall provide a method to print via a web browser which does not require a custom print driver to be installed  |                          |                      |
| Print resolution   | True 1200 dpi   |                          |                      |
| Memory for print controller                              | 1 GB RAM for print controller   |                          |                      |
| Processor on print controller                            | 1.0 MHz or greater  |                          |                      |
| Hard drive on print controller                           | 120 GB or greater   |                          |                      |
| Secure/confidential printing                             | Shall be able to change password through the print driver on a job by job basis. No system administration requirements for maintaining mail boxes/passwords   |                          |                      |
| Time specific printing                                   | Shall enable the user to specify the desired time when they would like a print job to print. Shall enable the user to interrupt a copy or print job. All the features of the machine shall be accessible during job interrupt |                          |                      |
| Toner saver mode   | Print with lower density black to save on toner cost  |                          |                      |
| Watermark capability                                     | Provide watermark or overlay capability as part of print driver   |                          |                      |
| Bi-directional print driver                              | Print drivers shall be bi-directional reporting job and machine status information back to user   |                          |                      |
| Job Queue  | Job queue for printing shall be visible   |                          |                      |
| Supported print protocols                                | Direct TCP/IPv4/IPv6, queue-based printing, Port 9100, AppleTalk/Ethertalk  |                          |                      |
| Mobile print driver                                      | Single, common print driver that can be used across multiple machines by specifying IP address  |                          |                      |

| Scan Requirements                         | Desired Specification   | As Specified<br>(Y/N or QY) | Comments/<br>Exceptions |
|---|---|-----------------------------|-------------------------|
| Scan to E-mail via SMTP messaging         | Shall provide network user authentication for tracking purposes and security purposes. Shall provide a method to access the global address list via LDAP protocol and Active Directory.                       |                             |                         |
| Scan to e-mail                            | Desire capability to download private address book unique to local machine, shall be LDAP/Exchange compatible.  |                             |                         |
| Scan across the network                   | Optional capability for integration with network applications; Shall support FTP and SMB protocols. Shall email confirmation of successful transmission, including tracking number to the authenticated user. |                             |                         |
| Scan to desktop capability                | Optional capability to push documents directly to individual desktops   |                             |                         |
| Other Scan protocols                      | HTTP, FTP, SMB,   |                             |                         |
| Scan Resolution                           | 200-600 dpi   |                             |                         |
| Scan formats                              | TIFF and PDF; If color, JPG also. Identify required additional software or hardware in comments   |                             |                         |
| Security Features                         | Desired Specification   | As Specified<br>(Y/N or QY) | Comments/<br>Exceptions |
| IP restricted access                      | Provides a method such as IP Filtering for limiting access to the device  |                             |                         |
| Disk overwrite                            | Provide software to overwrite all print/copy/scan/fax jobs written to the hard drive  |                             |                         |
| Vendor independent industry certification | Shall provide a vendor independent certification such as NIAP, National Information Assurance Partnership.  |                             |                         |
| User authentication                       | Users shall be authenticated against Active Directory (or equivalent) prior to initiating any function at the machine that will access the network  |                             |                         |

| Remote Administration                                       | Desired Specification  | As Specified (Y/N or QY) | Comments/ Exceptions |
|---|--|--------------------------|----------------------|
| Base capability   | Machine shall configure remotely for all machine and protocol settings using web technology preferably via an embedded web server  |                          |                      |
| Clone feature   | Shall have a feature that enables copying of device settings (protocol and scanning set-ups) that can be exported to other machines  |                          |                      |
| Notification feature  | Shall have a feature that enables notification of unique individuals to be notified of machine errors (i.e., jam error e-mail to key operator, network error e-mail to IT) |                          |                      |
| Meter read submission                                       | Shall have a feature that enables machine to submit meter reading to vendor over the Internet  |                          |                      |
| Supplies reorder  | Shall have a feature that enables the machine to automatically re-order supplies from the vendor based on projected expiration without any user intervention               |                          |                      |
| Job queue   | Shall have a feature that enables remote viewing and manipulation of the job queue   |                          |                      |
| Scan set-up   | Shall have a feature that enables remote configuration of various scanning methods   |                          |                      |
| Billing meters  | Shall provide a method to remote view all meters for copy, print, fax and scan on the machine  |                          |                      |
| Patching  | Shall provide a method to remotely and automatically patch the machine from behind the customer's firewall   |                          |                      |
| Device Management   | Desired Specification  | As Specified (Y/N or QY) | Comments/ Exceptions |
| Fleet Management software for Administration and IT support | Vendor independent SNMP management tool that provides administrative   |                          |                      |

|  |  |  |  |
|--|--|--|--|
|  | functions including: device identification, device status, administrative reporting, device organization using SNMP community names, remote troubleshooting and installation. Geared towards managing output device fleet. |  |  |
| Plug-ins for third party SNMP management tools | Plug-ins available for 3rd party management tools  |  |  |
| Fleet Management Reports                       | Fleet management software shall enable extensive reporting including asset list, asset status/error reports, meter reads, etc. Reporting information shall be based on MIB information provided by the device.             |  |  |

**EXHIBIT B**  
**Questionnaire**

Company shall answer each question or statement in Exhibit B and attached the completed questionnaire as part of their Proposal. This questionnaire is intended to communicate the specifications of the solution as it pertains to the Owner's Copy Center. If the Solution offered by your Company does not exactly meet the criteria or specification provided, please indicate your Company work-around in the comment box.

Use of brand name, trade name, make, model, manufacturer, or Company catalog number in specification, as set forth in this document, is for the purpose of establishing a grade or quality of material only. It is not the Owner's intent to limit the proposal, directly or indirectly, to any one specific concern, to rule out other competition, therefore, the phrase **OR OPERATIONALLY EQUIVALENT** is added.

The Owner requires the future-state to encompass four (4) B/W production level devices in the Copy Center. Production Print Engine shall be capable of producing both simplex and duplex output. The expected volume is 40 million yearly impressions in the DCC. Company Proposal must include:

Unit #1 – B/W printing system must include the following capabilities:

1. 300ppm Production Print Engine
2. Paper trays having dual feed modules with a minimum of 4,000 sheets
3. Roll feed system with a minimum of 50,000 sheets per roll
4. 3,000 sheet production level finisher with ability to unload while device is running
5. 100 sheet capacity stapling finisher with a minimum of 2 positions
6. Insertion of color documents into final output sets.
7. PCL & Adobe Postscript 3
8. 3-hole punch, in-line, option

Unit #2/Unit #3 - B/W printing system must include the following capabilities:

1. 150ppm Production Print Engine
2. Paper trays having dual feed modules with a minimum of 10,000 sheets
3. 3,000 sheet production-level collating with ability to unload while device is running
4. 100 sheet capacity stapling finisher with a minimum of 2 positions
5. Insertion of color documents into final output sets
6. PCL & Adobe Postscript 3
7. 3-hole punch, in-line, option

Unit #4 - B/W copying/printing system must include the following capabilities:

1. High Quality integrated Scanner with scan speed requirement of at least 100 ppm simplex and 200 ppm duplex. Scanner must have a minimum of 200 sheet capacity.
2. 1600 sets per hour, 35-page booklet maker finisher with ability to unload while device is running
3. Paper trays having dual feed modules with a minimum of 10,000 sheets
4. 3-Hole punching, as well as interchangeable dies for offline comb and coil binding
5. 100 sheet capacity stapling finisher with a minimum of 2 positions.
6. PCL & Adobe Postscript 3
7. Post Insertion Unit for Color Documents
8. The booklet maker shall be capable of producing a minimum of 2500 Booklet sets per hour, up to 25 sheets(fold, stitch and trim), 2 bin sheet feeder (front, cover, body) front and side air separation and double feed detection, 3 side trim for full bleed output.

Owner requires that one of the above Units have a dedicated scanner with the ability to forward scanned documents to Units that don't have scanners. In the event that the proposed equipment is not capable of performing this function, Company shall identify in its proposal the number of additional scanners it proposes in the comments section below.

Owner desires to implement a tiered turn-around time for jobs. However, any jobs between 50 – 1500 impressions received by the server by 4PM are required to be delivered to the user mailbox the next business day before first bell. In general, approximately 20% of the jobs are submitted to the Copy Center by 12PM; approximately 60% of the jobs are submitted to the Copy Center by 4PM and approximately 20% of the jobs are submitted to the Copy Center after 4PM. The Owner also desires:

Tier 2: 1501 – 2000 impressions delivered by second business day by first bell

Tier 3: 2001 – 3000 impressions delivered by third business day by first bell

Tier 4: 3001 – 4000 impressions delivered by fourth business day by first bell

Tier 5: 4001+ negotiated delivery with the Copy Center personnel.

Based on the above specifications, please answer the following questions.

| General Requirements MFD  | As Specified<br>(Y/N or QY) | Comments |
|---|-----------------------------|----------|
| 1. Company is licensed to do business in the State of California and is a legal entity capable of entering into Agreements within the State of California.  |                             |          |
| 2. Company is in good standing with the California Franchise Tax Board.   |                             |          |
| 3. Company, if other than the equipment manufacturer, is an authorized distributor, dealer or service representative and is authorized to sell and maintain the manufacturer's products included in this RFP. Evidence that the Company is an authorized dealer and technicians are manufacturer certified is provided with response. |                             |          |
| 4. Equipment offered shall be new in the box, OEM Parts, ISO-14001 certified  |                             |          |
| 5. Equipment offered shall be w/o defect and shall comply with all current safety order of OSHA, CAL-OSHA and/or NISHA and OSH-POD  |                             |          |
| 6. All prices quoted include, but are not limited to, all service calls, labor, parts, drums and consumable supplies (excluding paper and staples) and all delivery fees, packaging, handling, shipping charges, set-up and training  |                             |          |

|   |  |  |
|---|--|--|
| 7. Company will make delivery and install all implementation equipment or supplies, as a result of this solicitation, within thirty (30) calendar days of Award of Agreement or as agreed to by Owner.  |  |  |
| 8. Company complies with the State of California environmental requirements. For the State of California environmental guidelines, please go to this website:<br><a href="http://www.dgs.ca.gov/buyinggreen/Home.aspx">http://www.dgs.ca.gov/buyinggreen/Home.aspx</a>                                  |  |  |
| 9. Company will provide SDS sheets for any toners and/or developers which they propose as part of their Proposal, to Owner upon installation, and will provide the SDS at each MFD location.  |  |  |
| 10. When required, samples, demonstrations and testing will be furnished free of charge to the Owner. Upon expiration of sample, demonstration and/or test period, the item(s) will be returned to Company at Company's expense.  |  |  |
| 11. Company agrees to replace equipment as described in the Services Agreement, Section 4.16(c) Lemon Clause.   |  |  |
| 12. Cost of copies run during installation, test, maintenance, and any or all other service(s) provided by Company will be offered as a credit to Owner, monthly. The paper and staples used will be provided by Owner at no cost to Company during the service.  |  |  |
| 13. Company agrees to meet Performance targets including document production out-put, job accuracy, turn around rates, supply replenishment and equipment "up time" at or above 95% acceptance levels as defined in Instructions/Information to Proposers, Section 10 Company Performance Expectations. |  |  |
| 14. Company agrees to reconcile Owner's AMPV overage charges across all MFD equipment bi-annually.  |  |  |
| 15. There is no charge to Owner for all scanned images.   |  |  |

**CONTINUED ON THE NEXT PAGE**

Use of brand name, trade name, make, model, manufacturer, or Company catalog number in specification, as set forth in this document, is for the purpose of establishing a grade or quality of material only. It is not the Owner's intent to limit the proposal, directly or indirectly, to any one specific concern, to rule out other competition, therefore, the phrase **OR OPERATIONALLY EQUIVALENT** is added.

| <b>Production Equipment (COPY CENTER)</b>   | <b>As Specified<br/>(Y/N or QY)</b> | <b>Comments</b> |
|---|-------------------------------------|-----------------|
| 1. Company is the same Original Equipment Manufacturer (OEM) for all production printing systems being Proposed and has attached the required Manufacturer or Authorized Dealer Certification to this Proposal.   |                                     |                 |
| 2. Equipment is sold and serviced by the OEM or authorized factory trained agent.   |                                     |                 |
| 3. All B/W printing systems proposed have print engine that maintain speed with all input and output accessories, including roll fed devices and shall maintain the simplex letter speeds as detailed above.  |                                     |                 |
| 4. High Quality integrated Scanner with scan speed of at least 100ppm simplex and 200 ppm duplex is Proposed.   |                                     |                 |
| 5. Integrated Scanner holds a minimum of 200 sheets   |                                     |                 |
| 6. Must have image permanency and will not be subject to image flaking or maring on paper weight up to 220gsm.  |                                     |                 |
| 7. Must have a sheet enhancement module providing sheet flatness for post process handling such as folding, stacking, booklet making and banding or shrink wrapping.  |                                     |                 |
| 8. Must have Internal Cleaning Technology that automatically removes stray toner and particles for cleaner prints.  |                                     |                 |
| 9. Must have parallel RIP for faster document processing.   |                                     |                 |
| 10. Systems have the ability to continuously print while loading and unloading paper without the printer cycling down.  |                                     |                 |
| 11. Vacuum Fed paper trays: feed-heads in paper drawers must have separate air jets that separates paper, enabling best-in-class status for paper feeding.  |                                     |                 |
| 12. System hardware and software is modular and field upgradeable. Solution must support the following: <ul style="list-style-type: none"> <li>• Capable of printing tab stock, including Mylar coated tabs</li> <li>• Printer must have continuous run capability</li> </ul> |                                     |                 |

|   |  |  |
|---|--|--|
| <p>from any and all paper supplies, and have capability to refill while running. Paper drawers must have indicators for paper level, in use status and paper size.</p> <ul style="list-style-type: none"> <li>• In-line finishing (stapling) required, with 100-sheet (20#bond) capacity and ability to staple in a minimum of two positions.</li> <li>• Printer must be capable of sub-set stapling</li> <li>• Printer engine must have a process control system that monitors and adjusts the quality of output during production</li> <li>• Printer engine must be able to print files in a non-proprietary PDL. Must have job level modification – edge erase, image alignment and finishing, and job interrupt/hold/restart capability</li> <li>• Printer must have capability of providing job ID, user, job name, chargeback number, job arrival time, job completed time, print completion status, pages printed, page mode, PDL, format, paper size and paper weight.</li> </ul> |  |  |
| 13. Print resolution is a minimum of 600 x 600 dpi for ease of reading on student facing documents, black toner. Printer must have automatic jam recovery, trayless duplexing and a minimum output resolution of 600 dpi, 8 bit, 256 grayscale.   |  |  |
| 14. System hardware and software is modular and field upgradable.   |  |  |
| 15. System controller supports remote Graphic User Interface (GUI).   |  |  |
| 16. System controller GUI is the same on all B/W production printers  |  |  |
| 17. System controller supports Job Forwarding to any controller in the production solution  |  |  |
| 18. System controller supports Reprint Management – rasterized jobs and job tickets are saved for reprint requests.   |  |  |
| 19. System controller supports Reprint Management – rasterized jobs and job tickets are saved for reprint requests.   |  |  |
| 20. Sun Solaris, or equivalent, OS for security   |  |  |
| 21. Company maintains responsibility for all third party manufactures software and hardware if there are problems or questions.   |  |  |

|   |  |  |
|---|--|--|
| 22. System provides late stage editing for web, scan, and hardcopy submitted documents.   |  |  |
| 23. Customer is not billed for system prints required for service related repairs or diagnostics, credits captured by technician at time of activity and credited to Owner monthly. |  |  |
| 24. Company provides a total satisfaction guarantee for all production systems with replacement deemed necessary by the Owner.  |  |  |
| 25. Accessories for production printer must be provided with Company Proposal. All items should be the same term as lease requested.  |  |  |

**CONTINUED ON THE NEXT PAGE**

Use of brand name, trade name, make, model, manufacturer, or Company catalog number in specification, as set forth in this document, is for the purpose of establishing a grade or quality of material only. Owner currently utilizes RSA Web-CRD and RSA Q-Direct Scan to facilitate centralized Copy Center production. Owner will not be retaining the current software; Company is required to provide, including the set-up, all hardware and software for their proposed solution. It is not the Owner's intent to limit the proposal, directly or indirectly, to any one specific concern, to rule out other competition, therefore, the phrase **OR OPERATIONALLY EQUIVALENT** is added.

Company shall propose client software that allows Owner's users to directly send jobs/tickets electronically to the Copy Center. The solution shall have a minimum of the following requirements. Company is encouraged to exceed these specifications, and doing so will assist Owner in the overall reprographic environment analysis.

#### **Scan-to-Copy Center (Document Capture at Multi-Functional Devices)**

- i. The overall vision for this component of the project is to enable end users to walk up to a multi-functional device, authenticate themselves, set job options, scan the document directly to the Copy Center, and receive an email confirmation, including tracking number. The scanned job and associated ticket information will go directly to the centralized print center for production.

The confirmation email shall contain a tracking number, the date/time stamp of the job, the number of pages, the quantity ordered, and the options selected.

- ii. The system shall support end-user login. The user must have a mechanism for logging onto the MFD, using a Proximity Card, and/or a six-digit account number.
- iii. The system shall support validation of the Proximity Card and/or user-entered account number via a lookup against an external data table. This lookup shall also be able to return other data about the user, including name, email, delivery location, etc.
- iv. The system shall allow the user to set their job options, including (but not limited to) the following:

Quantity

Paper type/size/orientation/color

Plex

Finishing options

Due Date (default is one day, but should allow users to future date their request)

- v. The system should save a copy of the scan in a private archive of the electronic web-submission software seamlessly and without customization for electronic reordering.
- vi. The system needs to interface with electronic web-submission and paper-based scanning software and intelligent print management software seamlessly and without customization.

| Web and MFD Scan Requirement  | As Specified<br>(Y/N or QY) | Comments |
|---|-----------------------------|----------|
| 1. RSA QDirect.Scan, or operationally equivalent system, with full “quick-copy” job ticketing at MFD and resides as an integrated element on the user interface.  |                             |          |
| 2. No additional third party external system required on MFD to facilitate scan to the Copy Center. The District’s intent is not to have third party Hardware connected to the MFD to facilitate scanning to the Copy Center. It is acceptable to utilize QDirect Scan or Operationally Equivalent software to facilitate the scanning to the Copy Center.  |                             |          |
| 3. RSA QDirect.Scan, or operationally equivalent system, with full job ticketing. Job ticket is embedded on MFP user interface for scanning to Copy Center with no re-ticketing.  |                             |          |
| 4. RSA QDirect.Scan, or operationally equivalent system, with full job ticketing and provides acknowledgement to end user with full job ticketing information of what was requested and 4 thumbnail images on backside of acknowledgement of the job submitted.   |                             |          |
| 5. Update to the ticketing on the MFD's QDirect.Scan, or operationally equivalent system, with full job ticketing can be broadcast from the server seamlessly and quickly.  |                             |          |
| <p>Company shall provide a method to print via a web browser which does not require a custom</p> <p>6. print driver to be installed.</p>  |                             |          |
| <p>7. RSA WebCRD Pro License, or operationally equivalent system, with full job ticketing has the following SurePDF License, Central PFD Software, QDirect.EDU readers, QDirect writers, Accounting module (Equitrac) Thumbnail on Confirmation, or equivalent.</p> <p><b>7.0 Web-Based Print Job Submission</b></p> <p><b>7.1 General</b></p> <p>7.1.1 All components of the Web Submission system shall be compatible with the following Web browsers:</p> <p>7.1.1.1 Microsoft Internet Explorer version 7.0 and up</p> <p>7.1.1.2 Apple Safari version 3.0 and up</p> |                             |          |

|  |  |  |
|--|--|--|
| <p>7.1.1.3 Mozilla Firefox 3.6 and up</p> <p>7.1.1.4 Chrome Browser version 32.0 and up</p> <p>7.1.2 The system shall offer branding capabilities that enable matching colors/logos/look-and-feel.</p> <p>The system shall offer a configurable Ordering Home page which lets end users access frequently used workflows with a single click.</p> <p><b>7.2 PDF Creation and Proofing</b></p> <p>7.2.1 The system shall allow end users to submit jobs to the print center remotely using a Web-based interface.</p> <p>7.2.2 The system shall allow end users to convert their documents using a client-side PDF conversion process. This will result in consistent, print-ready PDFs arriving in the Copy Center.</p> <p>7.2.3 The system shall allow the end users to view, approve, or reject an on-screen proof of their print-ready PDF prior to submitting it to the Copy Center.</p> <p>7.2.4 The system shall allow users to view and resubmit past orders.</p> <p>7.2.5 The system shall allow users to preview their document onscreen <u>including all finishing options</u> (e.g. covers, tabs, binding, stocks, etc.).</p> <p><b>7.3 Authentication and Account Number Validation</b></p> <p>7.3.1 The system shall be able to support integration with LDAP and/or Active Directory for authentication of users.</p> <p>7.3.2 The system shall be able to retrieve current user profile information (e.g. phone number, email, shipping address, etc.) from our LDAP/AD environment</p> <p>7.3.3 The system shall allow the administrator to determine which users (or user groups) can see which areas of functionality. For example, end users can see the progress of their job.</p> |  |  |
|--|--|--|

|   |  |  |
|---|--|--|
| <p>7.3.4 The system shall allow the administrator to determine which users (or user groups) can see which areas of the document catalog.</p> <p>7.3.5 The system shall be able to validate users' account numbers (see requirement in Job Ticket Creation below).</p> <p>7.3.6 The system shall be able to send the user's account numbers directly to the printer controller, where the account number should show up on the controller screen as the job number.</p> <p>7.3.7 The system shall allow administrators to update user permissions and access to documents for multiple users (groups of users) with one update.</p> <p>7.3.8 The system shall support update for users and their access rights via user interface and batch imports.</p> <p><b>7.4 Job Ticket Creation</b></p> <p>7.4.1 After approving the on-screen proof, the system shall allow the user to set the options for their print job (create the print ticket). The interface for this process shall be entirely Web-based, and shall be optimized for the quickest possible interaction. All ticketing shall take place on a single screen.</p> <p>7.4.2 The system shall allow for Intelligent Document setup which examines documents uploaded and automatically selects appropriate paper stocks and exception page ticketing for users. This should work for Wide Format documents as well.</p> <p>7.4.3 The job ticketing options available to the user shall include (but not be limited to) the following:</p> <p>7.4.3.1 Enter their account (billing) code, and/or select it from a drop-down of valid accounting codes for that user.</p> <p>7.4.3.2 Set a unique name for the job.</p> <p>7.4.3.3 View the proof of the uploaded file.</p> <p>7.4.3.4 View a preview of the uploaded or selected file with finishing options.</p> |  |  |
|---|--|--|

|          |   |  |  |
|----------|---|--|--|
| 7.4.3.5  | Set the quantity  |  |  |
| 7.4.3.6  | Set the due date  |  |  |
| 7.4.3.7  | Specify one or more delivery addresses. Users shall have the ability to store addresses in an online address book, and choose from their address book to populate this field. Users shall have the ability to split the order between one or more shipping addresses. |  |  |
| 7.4.3.8  | Set the output (color or B/W)   |  |  |
| 7.4.3.9  | Set the plex (single-sided, double-sided)   |  |  |
| 7.4.3.10 | Set the desired paper stock   |  |  |
| 7.4.3.11 | Set any special instructions in a free-form text field.   |  |  |
| 7.4.3.12 | Set the finishing options, which shall be fully customize-able and able to support, at minimum, the following:  |  |  |
| 7.4.3.13 | <u>Binding</u>  |  |  |
|          | <ul style="list-style-type: none"> <li>- Stapling</li> <li>- Three-hole punching</li> <li>- Taping</li> <li>- Perfect binding</li> <li>- Comb binding</li> </ul>  |  |  |
| 7.4.3.14 | <u>Folding</u>  |  |  |
|          | <ul style="list-style-type: none"> <li>- Accordion</li> <li>- Brochure</li> <li>- Double-Panel</li> <li>- Gate</li> <li>- Letter</li> <li>- Single</li> </ul>   |  |  |
| 7.4.3.15 | Covers  |  |  |
| 7.4.3.16 | Cutting   |  |  |
| 7.4.3.17 | Padding   |  |  |

|   |  |  |
|---|--|--|
| <p>7.4.3.18 Slip Sheeting</p> <p>7.4.3.19 Punching</p> <p>7.4.3.20 Trimming</p> <p>7.4.3.21 Tab Insertion</p> <p>7.4.3.22 Page insertion</p> <p>7.4.3.23 Exception pages</p> <p>7.4.4 The system shall offer pre-configured job ticketing presets.</p> <p>7.4.5The system shall support automatic color page detection. The digital cost estimate shall be based upon the number of color pages and black/white pages in the user's original.</p> <p><b>7.5 Accounting</b></p> <p>Accurate pricing and order cost tracking is critical to the success of this project.</p> <p>7.5.1 The system shall allow the user to view a cost estimate for their job prior to submitting the job. This estimate shall be based on entries in one or more fully configurable pricing tables.</p> <p>7.5.2 The system shall support pricing jobs by any number of factors, including (but not limited to) job type, impression count, paper stock, plex, binding, folding, and finishing.</p> <p>7.5.3 The system shall support pricing for any item with multiple factors; that is, a price for binding might include setup, per copy, and per sheet price factors.</p> <p>7.5.4 The system shall support pricing configuration to reflect the requested turn-around-time (surcharge for rush jobs, discount for longer lead times).</p> <p>7.5.5 The system shall provide ability to configure multiple price cards (interactively or by importing a CSV).</p> |  |  |
|---|--|--|

|   |  |  |
|---|--|--|
| <p>7.5.6 The system shall support easily changing price cards to implement sale pricing or other special pricing needs.</p> <p>7.5.7 The system shall support an order minimum (minimum cost applied to all jobs)</p> <p>7.5.8 The system shall support adding sales tax to an order.</p> <p>7.5.9 The system shall enable Copy Center staff to change or update all pricing on an individual line-item basis in Production.</p> <p>7.5.10 The system shall be able to export detailed and configurable accounting reports in CSV format.</p> <p><b>7.6 Approvals and Notifications</b></p> <p>7.6.1 The system shall be able to support notifications at various steps throughout the workflow. At a minimum, the system shall be able to notify the end user via email when their job has been received by the print shop, and when it has been completed. Notifications at other milestones are done.</p> <p><b>7.7 Variable Data Support</b></p> <p>7.7.1 Adobe forms support</p> <p>7.7.1.1 System shall enable customers to upload and configure standard Adobe PDF forms such as business cards, customized post cards, form letters, etc.</p> <p>7.7.1.2 Customers shall be able to select a form to order, and then fill in their own personalized data interactively or by uploading a CSV file. An accurate PDF proof shall be composed immediately for customer approval before placing an order.</p> <p>7.7.1.3 System shall support defining business rules and data validation techniques to ensure consistent output.</p> <p><b>7.8 Print Production Management</b></p> |  |  |
|---|--|--|

|  |  |  |
|--|--|--|
| <p>7.8.1 Printed Job Tickets</p> <p>7.8.1.1 When a print job is picked up by production, the system shall allow for the generation of a configurable job ticket/traveler.</p> <p>7.8.1.2 The printable job ticket used by production staff shall include (at minimum) the following data:</p> <ul style="list-style-type: none"> <li>- Job name</li> <li>- Job number</li> <li>- Quantity</li> <li>- Customer name and email</li> <li>- Paper type/size/orientation/color</li> <li>- Plex</li> <li>- Special Notes</li> <li>- Delivery information</li> </ul> <p>7.8.2 The system shall allow for an Order packing list to be printed from Production.</p> <p>7.8.3 The system shall allow for an Inventory Pick Ticket to be printed from Production</p> <p>7.8.4 Rules-based printing</p> <p>7.8.4.1 The system shall be capable of making intelligent processing decisions in an automated fashion. For example, if the job meets specific configurable business rules (e.g. less than 200 impressions of simplex B/W), it should automatically be released to an appropriate printer without the need for operator intervention.</p> <p>7.8.5 Job Status and Job Management</p> <p>7.8.5.1 The system shall allow the end-user to use a Web-based interface to determine the status of their Web-submitted print job(s).</p> <p>7.8.5.2 The system shall allow the print production staff to determine at a glance the status of every job as it moves through the production workflow.</p> <p>7.8.5.3 The system shall support quantity-based</p> |  |  |
|--|--|--|

|  |  |  |
|--|--|--|
| <p>job splitting.</p> <p>7.8.5.4 The system shall allow the print production operator to make changes to the ticketing for the job.</p> <p>7.8.5.5 The system shall allow the print production operator to add or remove cost from the job. Adjustments shall be possible as either a fixed rate (e.g. add 2 dollars) or as a percentage of the calculated cost (e.g. add 5%).</p> <p>7.8.5.6 The system shall allow the print production operator to decline a job entirely. In this event, the system shall notify the order placer that their order was rejected, and if available display the reason why.</p> <p>7.8.5.7 The system shall enable Copy Center staff to manage workload and jobs with a Production Dashboard.</p> <p>7.8.5.8 The system shall enable Copy Center staff to print directly to any production printer with automated ticketing.</p> <p>7.8.5.9 The system shall support printing to production class printer in a multiple print vendor environment.</p> <p>7.8.5.10 The system shall support automatically directing jobs to the correct printer with no operator intervention.</p> <p>7.8.5.11 The system shall support remote printing (to geographically disparate production printers) for load-balancing.</p> <p>7.8.5.12 The system shall enable Copy Center staff to produce page insertions (including tab stock) and page exceptions directly on production printers that support these operations.</p> <p>7.8.5.13 The system shall integrate with 3rd party solutions for advanced pre-press make</p> |  |  |
|--|--|--|

|   |  |  |
|---|--|--|
| <p>ready work, such as MicroPress, SmartBoard, FreeFlow Process Manager, and FreeFlow Makeready.</p> <p>7.8.5.14 The system shall enable Copy Center staff to download files for printing using a File   Print workflow, and easily upload new proofs and/or processed files.</p> <p>7.8.5.15 The system shall offer JDF support for industry-standard integration.</p> <p>7.8.5.16 The system shall offer configurable job tickets, shipping labels, and banner pages.</p> <p>7.8.5.17 The system shall support order splitting—fulfill part now and part later (a new order is automatically created for the new quantity).</p> <p>7.8.5.18 The system shall enable Copy Center staff to update order costs in Production.</p> <p>7.8.5.19 The system shall offer a barcode-scanning workflow to change job statuses and simplify production operations.</p> <p>7.8.6 The system shall enable Copy Center staff to configure a separate site for each print center in our organization.</p> <p>7.8.6.1 Each site shall support different pricing models, business rules, or shipping options; and show a different look and feel (colors, page logos, etc.) for different groups of customers.</p> <p>7.8.6.2 Orders shall be automatically routed to the customer’s default site for output, but capable of being directed to a different site.</p> <p><b>7.9 Paper-Based Job Submission</b></p> <p>7.9.1 The system shall support a workflow where the end user submits their job using a traditional paper-based form. Jobs of this type still must be able to be entered into</p> |  |  |
|---|--|--|

|  |  |  |
|--|--|--|
| the system.  |  |  |
| <p><b>7.10 Email-Based Job Submission</b></p> <p>7.10.1 The system shall support a workflow where the end user submits their job via email. Jobs of this type still must be able to be entered into the system.</p> <p><b>7.11 Digital Media-Based Job Submission</b></p> <p>7.11.1 The system shall support a workflow where the end user submits their job via a USB device, CD, or DVD. Jobs of this type still must be able to be entered into the system.</p> <p><b>7.12 Import and Export Capabilities</b></p> <p>7.12.1 The system shall enable easy configuration of data by the means of an import process of a structured-data file.</p> <p><b>7.13 Printer Neutrality</b></p> <p>7.13.1 The Web Submission toolset shall enable printing of submitted jobs to an unlimited range of production print devices. The print production operators shall not have to re-ticket the jobs at the devices. The solution must be vendor-neutral, capable of sending ticketed jobs to any production class printer. The Web Submission toolset shall be accessible from both internal (intranet) and external (internet) networks.</p> |  |  |
| 8. RSA WebCRD & QDirect.Scan, or operationally equivalent system, with full job ticketing and is resident on site - not hosted offsite.  |  |  |
| 9. RSA WebCRD Pro, or operationally equivalent system, with full job ticketing and has reporting capabilities.   |  |  |
| 10. RSA WebCRD, or operationally equivalent system, with full job ticketing and is customizable to Owner printing requirements.  |  |  |
| 11. RSA WebCRD, or operationally equivalent system, with full job ticketing has intelligent finishing, meaning finishing commands are carried all the way thru to the production device.   |  |  |

|   |  |  |
|---|--|--|
| 12. RSA WebCRD & QDirect.Scan, or operationally equivalent system, with full job ticketing includes enough seat licensing for up to 100 MFD and 2500 users.   |  |  |
| 13. Includes Premium Production Tower Server  |  |  |
| 14. Includes disaster recovery server with following minimal resources: PowerEdge T110, Intel Xeon X3430 2.4GHZ, Windows Server 2008SP2 w/5CALs, 2GB Memory, 160GB HD, Mouse, Keyboard, 17" Monitor, Internal DVD Drive, On-Board Single Gigabit Network Adapter, NBD hardware and Software Support from hardware manufacturer for the term of the Agreement. |  |  |
| 15. Company manages third party software partner firms for questions or problems with the software and hardware during term of Agreement.   |  |  |
| 16. Proposal price includes full service maintenance on all third party software and hardware for the term of the Agreement.  |  |  |
| 17. Proposal price includes any annual fees on third party software and hardware (i.e. license & maintenance fees) for term of Agreement.   |  |  |
| 18. Proposal price includes patches and software upgrades on all solution software and hardware for term of Agreement (no more than 1 version behind).  |  |  |
| 19. Patches and software upgrades on third party software and hardware automatically provided at the time they are available (no more than 1 version behind), at no charge to Owner.  |  |  |
| 20. Includes training for all Owner staff on RSA QDirect.Scan, WebCRD or operationally equivalent software.   |  |  |
| 21. Name the third Party Software used for Scanning & WEB submission to the print shop in the comment field.  |  |  |
| 22. Name the third party Software used for complete accountability for controlling costs in the comment field.  |  |  |
| 23. Scope of Copy Center services includes: <ul style="list-style-type: none"> <li>• Job intake (hardcopy and electronic)</li> <li>• Job Assessment</li> <li>• Production Staging</li> <li>• Production tracking</li> <li>• Activity Reporting and tracking</li> <li>• Standard job turn-around</li> </ul>  |  |  |

|   |  |  |
|---|--|--|
| <ul style="list-style-type: none"> <li>• Minimum employee productivity standards</li> <li>• Quality Control Procedures</li> <li>• Delivery and pick-up processes</li> </ul>   |  |  |
| 24. All scanning equipment is able to scan to user's home directory and/or directly to their E-mail account via a pre-programmed one-touch scan destination, as well as scan to .TIFF, .JPG and .PDF  |  |  |
| 25. Users are able to scan and add data in at least four (4) unique index fields to each document during the scan process using the MFD touch panel. Each index field shall have the ability for the Owner to create drop-down pick lists to facilitate user indexing accuracy and minimize data entry. Scanning and indexing is fully completed at the MFD touch panel without the need for users to utilize a PC or any other device directly connected to the MFD.   |  |  |
| <p>26. Centralized Print Management of WEB and SCAN submission jobs:</p> <p>26.1 The system shall run on a secure, reliable, production-class server platform</p> <p>26.2 The system server shall operate in either Forked LPD mode or Serial LPD mode.</p> <p>26.3 The system shall support the centralized management of all print volume across the enterprise.</p> <p>26.4 The system shall be able support, but not be limited to, the following print inputs:</p> <p>26.4.1 Mainframe</p> <p>26.4.2 Network</p> <p>26.4.3 AS400</p> <p>26.4.4 Copy/Scanners</p> <p>26.4.5 Fax server</p> <p>26.4.6 File server</p> <p>26.4.7 Hot folder</p> <p>26.4.8 FTP</p> <p>26.4.9 Email</p> <p>26.5 The system shall support, but not be limited to, the following print outputs:</p> <p>26.5.1 B/W Printers</p> <p>26.5.2 Color Printers</p> <p>26.5.3 PDF Archive</p> |  |  |

|  |  |  |

| <p>26.47 All users shall be able to select from the defined criteria list to specify the jobs that can be processed by a certain destination.</p> <p><b>Administrator Capabilities</b></p> <p>26.48 Administrators shall have exclusive access to an administration window, allowing them to view and fully control all administrative entities, for example: users, logins, and authorization modes, users' rights, and integrated electronic help for administration.</p> <p>26.49 Administrators shall be able to import or export all administrative entities.</p> <p>26.50 Administrators shall be able to use templates to conveniently apply the same set of rights to a group of users.</p> <p>26.51 Administrators shall be able to define a scheme of job statuses to reflect their specific workflow and map these statuses to standard system statuses.</p> <p>26.52 The main administrator shall be able to assign administrator rights to specific users.</p> <p>26.53 Administrators shall have exclusive access to logs of user actions.</p> |                                     |                |
| <b>Security</b>  | <b>As Specified<br/>(Y/N or QY)</b> | <b>Comment</b> |
| <p>27. Recommended devices are Common Criteria Certified against all points of vulnerability. The following components of the MFD are Common Criteria Certified for IT Security Evaluation (ISO/IEC 15408);</p> <ul style="list-style-type: none"> <li>• Encryption with secure protocols- Recommended devices support state of the art data encryption like SSL and IP Security for all data moving in and out of the device, as well as for data stored within the device.</li> <li>• Authentication Use of device functions (e.g., scan, e-mail and fax) can be restricted by user and by function as designated by the System Administrator.</li> <li>• Internal Audit log</li> <li>• Firewall</li> <li>• Image Overwrite - Recommended devices have</li> </ul>  |                                     |                |

|  |                                     |                |
|--|-------------------------------------|----------------|
| <p>either immediate or on-demand hard disk image overwrite utilizing a three pass algorithm as originally specified by the U.S. Department of Defense.</p> <ul style="list-style-type: none"> <li>• Embedded Fax - Recommended devices have complete separation of the fax telephone line and the network connection to prevent unauthorized access to network environment.</li> <li>• Secure Print Jobs are sent and safely stored at the device until the user enters a unique PIN that they create.</li> <li>• set expiration times for stored jobs, such as, after 24 hours automatically delete any stored jobs.</li> </ul> |                                     |                |
| 28. Solution shall digitally shred stored images after deletion such as from copy's, fax, print, etc.  |                                     |                |
| 29. IP Address Restriction - Recommended devices have IPFiltering, IPSec, Secure Socket Layer/Transport Layer Security (SSL/TLS), Digital Certificate, 802.1x Device Authentication.   |                                     |                |
| 30. Company shall provide a downloadable patch to solve any security vulnerability.  |                                     |                |
| 31. MFD devices that use hard disk drives to temporarily store images, have an "image overwrite" feature that destroys the copied image immediately." That function is built in, (or installable via a security kit).  |                                     |                |
| 32. MFD devices that use hard disk have disk encryption feature which encrypts all stored customer image data with the state-of-the art AES  |                                     |                |
| 33. Company has a disk removal program so that prior to a device being returned a technician they will remove the disks and leave them with Owner.   |                                     |                |
| <b>Detail Reporting</b>  | <b>As Specified<br/>(Y/N or QY)</b> | <b>Comment</b> |
| 34. Equitrac Software, or equivalent, with same functioning capabilities that will interface with the RSA software, or equivalent. Able to integrate with all devices no external device needed.   |                                     |                |
| 35. Equitrac Software, or equivalent, with same functioning capabilities licensing for up to 100 devices and up to 2500 users.   |                                     |                |
| 36. Monthly Report shall have a cover page, a letter summarizing the content of the report including, any increases or decreases over the same month in the previous year, table of contents, an Executive Summary listing volume total, allowances, credits and all charges   |                                     |                |

|  |                                 |                |
|--|---------------------------------|----------------|
| for each month of the year to date, as well as any applicable service and waste credits.   |                                 |                |
| 37. All Monthly Reports show each month, YTD school calendar July1-June 30 (except Service Call report) All Reports will have Model#/ Serial number / Name of location including service call report   |                                 |                |
| 38. Reports include volume history, Average volume by unit and total volume on unit. Includes a graph of total volume for High School, total volume for Junior High School and total volume Owner Offices, Month over Month.   |                                 |                |
| 39. Monthly Report indicates first call to on Site Care Personal.  |                                 |                |
| 40. Monthly Report shall indicate every service call with date, contact, fault code-problem/solution, arrive time, depart time, total down time indicated by minutes and percentage by unit.   |                                 |                |
| 41. Monthly Report shall include Service History Summary by unit showing three rolling months: monthly vol., service calls, hours down, percent of uptime and YTD average monthly volume, average service calls, average on site customer care calls, average hours down and average percent of down time by unit.                 |                                 |                |
| 42. Monthly Report shall include Site Charge Back for office unit volume and for what is sent to the print shop, one page summary.   |                                 |                |
| 43. Accounting Software shall associate user code to a 16 digit GL Account number (provided by Owner). Monthly Report to include what the charge back to each site, by GL Account number, of total usage (school site + print shop usage=total usage)  |                                 |                |
| 44. All Reports above (except one page charge back summary report) shall be separated in three categories (1)Owner Offices Devices by device, (2) Middle Schools Devices by device Schools and (3)High Schools Devices by device   |                                 |                |
| <b>On Site Personnel, Tools &amp; Transportation</b>   | <b>As Specified (Y/N or QY)</b> | <b>Comment</b> |
| 45. Company provided Copy Center Lead shall have at least two years experience with production equipment and RSA Q-Direct Output Manager, or equivalent, in a K-12 print shop similar in size as Owner. Lead shall manage all OEM software and hardware as well as all third party software and hardware, return calls and emails, |                                 |                |

|   |  |   |
|---|--|---|
| and resolve any issues in regard to the Copy Center.  |  |   |
| 46. Company provided Copy Center Operator shall have at least two years experience in a K-12 print shop similar in size as Owner and shall serve as a back up to Copy Center lead.  |  |   |
| 47. Company provided Customer Care (break-fix) representative shall have minimum of two years experience in a K-12 environment similar in size as Owner.  |  |   |
| 48. Company provided Customer Care (break-fix) employee shall provide monthly preventive maintenance on all equipment, manage and hand deliver consumables to avoid stock outs to each device.  |  |   |
| 49. During the preventative maintenance inspection, the following work shall be performed: <ul style="list-style-type: none"> <li>• Check fuser</li> <li>• Check quality sensor</li> <li>• Check toner</li> <li>• Check paper path</li> <li>• Check copy count</li> <li>• Check staples</li> <li>• Check error messages</li> </ul>  |  | . |
| 50. Tools and equipment used in the accomplishment of needed service shall be supplied by Company and shall comply with equipment manufacturer's specifications.  |  |   |
| 51. The service technician shall have the training and experience to perform prompt, efficient and accurate service on each type and model of equipment for which the Company is responsible.   |  |   |
| 52. Service calls are unlimited and shall be performed during normal business hours of Owner.   |  |   |
| 53. Service Calls received during the PM shift (defined as after 2PM) service shall be executed the following business morning, with repair completed within four (4) hours.  |  |   |
| 54. Company provided dedicated Customer Care employee shall be the first point of contact by email notification via a Company provided cellular device for all service issues. He shall respond to the call within 1 hour, engage a service technician (if required) and provide user with an ETA of service technician and he shall follow up with customer that issue was resolved in a timely and satisfactory manner. |  |   |

|   |                                 |                |
|---|---------------------------------|----------------|
| 55. Company provided Customer Care employee shall deliver all jobs from the Copy Center by first bell to each user mailbox at each Owner site, and pick up hard copy jobs from each site and deliver to Copy Center for processing.   |                                 |                |
| 56. Company shall provide employees, with a minimum of two years experience in a K-12 environment similar in size to Owner, in case of any absences due illness, vacation, disability or any other reason.  |                                 |                |
| 57. Company provided transportation for Customer Care employee shall be a full size Van and all expenses related to services are included.  |                                 |                |
| 58. No overtime shall be charged to Owner for peak volume sent to and managed by Copy Center. Peak volume does not negate the expected turnaround time expected.  |                                 |                |
| 59. Copy Center shall be managed 100% by Company provided staff.  |                                 |                |
| 60. All jobs scanned or submitted via the Web by 4pm shall be delivered to user mailbox by first bell the next day based on individual school start times.  |                                 |                |
| 61. Proposal price includes On-site Analysis support as needed. Analysis shall have direct access to Third party analysis and be able to resolve any issue preventing office & production work within four hours.   |                                 |                |
| 62. Copy Center personnel shall check each job for copy quality assurance.  |                                 |                |
| <b>Service Technician</b>   | <b>As Specified (Y/N or QY)</b> | <b>Comment</b> |
| 1. Any PC's required with Equitrac Accounting, RSA Q-Direct.Scan or WebCRD, or equivalent, are provided and maintain by Company and shall provide the necessary or required software and OS. All PC's provided by Company will be kept up to date with security and productivity updates and in compliance with Owner policies. |                                 |                |
| 2. List all finishing equipment provided as part of Company's proposal.   |                                 |                |
| 3. Total response time from first call to Customer Care employee to a satisfactory diagnosis, a commitment to return functionalities or repaired device is no more than 4 hours.  |                                 |                |
| 4. Company Account Manager shall escalate repair issues within service organization and shall communicate with Owner representative for serious break-down matters and resolutions.   |                                 |                |

|   |                                     |                |
|---|-------------------------------------|----------------|
| 5. All replacement parts shall meet the original equipment manufacturer's specifications. No used parts shall be installed. Only OEM parts will be allowed.   |                                     |                |
| 6. Company may provide loaner equipment, of equivalent or better specification, for un-repairable equipment within 24 hours to avoid penalties. Loaner equipment will be provided at no charge to Owner.  |                                     |                |
| <b>Financing and Invoicing</b>  | <b>As Specified<br/>(Y/N or QY)</b> | <b>Comment</b> |
| 7. Company shall issue one monthly invoice for any equipment leased by Owner ('Lease Payment") and for any services performed by Company ('Services Payment") under the purchase order. The Financing Company shall be affiliated with the equipment manufacturer and Company shall be a party to the proposed Lease Agreement. |                                     |                |
| 8. Company shall provide one consolidated monthly invoice for MFD and MPS services and provide a detailed analysis of each service type.  |                                     |                |
| 9. Although not a requirement to submit a Proposal, the Owner would like to know if the devices and services contained in Company's proposal are eligible via a Piggy back Agreement? Name the Agreement in the comment field.  |                                     |                |
| 10. All pricing is fixed for the term of the Agreement, unless Owner makes additions or deletions to support program needs.   |                                     |                |
| 11. Company shall pick up Multi-Function Device equipment at end of lease with no charge or lease return fees.  |                                     |                |
| 12. No late fees will apply.  |                                     |                |
| 13. No supply shipping or delivery fees apply.  |                                     |                |

CONTINUED ON THE NEXT PAGE

It is the Owner's intent to use the existing MPS asset base until the asset base reaches the end of its useful life. Company shall service the existing asset base and replace printers when required from Company branded units or Hewlett Packard units. Company will communicate printer replacements with Owner's Director of Technology. Printers will not be replaced prior to Owner's consent. Owner will allow Company to replace whatever printers they cannot support, or replace printers to attain new technology with lower costs. The proposed printers shall provide requirements that are equal to or better than the specifications outlined in this document. Company shall drive uniform device behavior across the MPS environment and provide firmware updates to comply with the Owner's security standards. Owner desires print-governance software to manage employee printing and control the device output between all devices. The diversion shall be offered as a suggestion for each user to accept or deny. System shall be able to report each user's acceptance tolerance. Automatic diversion may be implemented during the term of the Agreement. Inventory information on the current equipment is located in the Attachments section.

| WSH Managed Print Systems   | As Specified<br>(Y/N or QY) | Explain |
|---|-----------------------------|---------|
| 1. Company is the same Original Equipment Manufacturer (OEM) for all managed print systems being Proposed, unless proposing Hewlett Packard.  |                             |         |
| 2. Equipment is sold and serviced by the OEM or authorized factory trained agent.   |                             |         |
| 3. Company Proposal includes a dedicated on-site service technician (resource to Owner). Technician shall respond to service requests in within two (2) hours of receiving request.   |                             |         |
| 4. Company Proposal includes customer training and network support for printers for the term of the Agreement.  |                             |         |
| 5. Company provides Total Satisfaction Guarantee, per Section 13, on all new and existing devices for 5 years (to include all copiers, printers and fax machines serviced under this Agreement including retained HP and Xerox devices) |                             |         |
| 6. Company provides warehousing and distribution of supplies required at no additional costs to Owner.  |                             |         |
| 7. Ability to obtain on-demand automatic meter reads for all networked printing devices, including printers.  |                             |         |
| 8. Company shall provide Local storage for all printing devices removed from Owner during initial installation, for a minimum duration of six months at no additional costs to the Owner.   |                             |         |

|  |  |  |
|--|--|--|
| 9. Company shall properly dispose of all printers removed from Owner's premises and shall endeavor to recycle the units, as appropriate.   |  |  |
| 10. Company is an Authorized HP dealer, (minimum 3 year experience) with HP certified technicians to provide all routine maintenance and repair on current/maintained HP products  |  |  |
| 11. Monday thru Friday (7-5), Help Desk for printer support accessible via toll free number and E-mail/web address.  |  |  |
| 12. Replace up to 5% of printer fleet, per year, at Company's expense, with printers of equivalent specifications with either Company branded or HP branded units. (replacement units will be owned by the Owner upon installation). |  |  |
| 13. All new printers shall be delivered and installed by the Company.  |  |  |
| 14. Delivery includes loading of print drivers on all PC's, as needed.   |  |  |
| 15. All consumable printer supplies, as prompted by software notification reports or as requested by Owner, shall be shipped directly to the end user- not the Owner warehouse- and labeled as such, at no additional charge.        |  |  |
| 16. Company shall provide Consulting services to enable value added resources at no additional fee.  |  |  |
| 17. Company shall provide network software that enables automated technical notification for Company to provide service of all break/fix and supply delivery occurrence with supply fulfillment to the device level.                 |  |  |
| 18. Company shall not assess any minimum print volumes to Owner.   |  |  |
| 19. All printer equipment shall be owned by Owner at the end of the lease period, at no additional charge.   |  |  |
| 20. Late fees will not be assessed to Owner  |  |  |
| 21. Company shall provide Print-governance software that prompts users to redirect their job to a MFD.   |  |  |
| 22. No supply shipping fees  |  |  |

**Exhibit C**  
**Statement of Qualifications**

This Statement of Qualifications will be used to describe the scope of work required to complete the specific project as defined in this solicitation. In order to be effective, Company should provide an appropriate level of detail so Owner clearly understands what work you have performed for clients similar in size and scope in the K-12 environment to the project defined herein and how you would approach/complete the work for Owner as a result of this Agreement.

Every effort should be made to include as much detail as possible and should aim to communicate qualifications pertaining to each of the following thirteen (13) questions clearly. Your response should include headings that match each of the thirteen (13) questions below with the related experience under each appropriate heading. Keep each answer brief and aim to complete the full statement in a maximum of 200 words. Use short sentences and bullet points to make the document easy to read.

Currently, the Owner utilizes a Nuevera 200, a Nuevera 120, a Nuevera 120 and a 4112. Production is fluid, but is heaviest after summer break and winter break. The largest volume produced in any one day is 391,000 impressions. Based on historic 30 million yearly impressions in the DCC, the average output was 165,000 impressions per day. Owner anticipates an additional 10 million copies per year in support of Common Core. Approximately 80% of jobs printed were duplex. The Owner does not own the JMEX and Equitrac equipment currently used; Company shall supply all hardware and software for their solution. All of the current personnel at the DCC are Xerox personnel. Currently there is a staggered shift with one operator coming in at 7AM and one operator coming in at 10AM. A Delivery person comes in at 5AM and after the deliveries are complete (usually by 8AM) attends to copier break-fix. The last person on the team works an 8hr shift attending to MPS break-fix.

Owner requires four (4) production level units for the Copy Center and requires four (4) people to operate the Copy Center daily operation. This is a Facilities Managed Agreement and as such Company shall provide all personnel to perform the service. Company shall determine the hours of such personnel to manage the daily delivery to the teacher mailboxes prior to school first bell, to manage the yearly production of 40 million impressions and to manage the break-fix of all copiers and printers. The Owner also requires a shrink-wrap system with tunnel or paper banding machine. Owner requires Company to provide all Software, no more than one version behind, and all hardware to operate the software. Company shall provide maintenance and service to the existing 1093 printer asset base. Owner desires to keep the asset base until the end of useful life expectancy upon which time Company will replace the expired unit with either Company-branded or Hewlett Packard units. Owner requires Company to possess experience in Facilities Managed Copy Centers and MPS solutions in the K-12 environment.

Keeping the information included above and throughout this RFP, address the following:

- 1). Describe the credentials, certifications, training of all personnel managing the project. Include, at a minimum, the Project Manager, the Operations Manager and the facilities managed personnel.
  
- 2). (a)Describe your process for hiring recruiting, training and motivating Facilities Managed Personnel.  
(b)Describe how you manage personnel at the Copy Center when they need to call in sick or take vacation.  
(c)Include whether personnel is temporary, permanent or contracted employees.

- 3). Describe a Company Facilities Managed Copy Center experience that might not have gone as planned. (a) Describe the task, (b) the deficiency that existed and (c) what Company did or is doing to correct the issue.
- 4). Describe Company experience implementing technology for flawless implementation without any service interruption or equipment down-time.
- 5). Describe the implementation of job submission related servers.
- 6). How does the software you propose manage scanned job submission to the Copy Center? How does the software you propose manage the web-interface job submission to the Copy Center?
- 7). If your company is proposing RSA software, how is a user profile kept/maintained? If your company is proposing a platform other than RSA, how is a user profile created, kept/maintained?
- 8). Describe how your company will meet the production throughput of the Copy Center, including but not limited to, (a) redundancy features, (b) hours of operation, (c) over-time, (d) peak demand (start of new school year, return from winter break) and (e) staffing levels.
- 9). Describe your process for bringing a device back on-line if it goes down during the middle of a shift. Include (a) the protocol for calling a technician, (b) The acceptable period of time before the technician will arrive on site, (c) employing redundancy features to keep the work flowing and (d) any processes to meet the guaranteed delivery schedules.
- 10). Describe your company methodology of differentiating the educational material volume of 30 million impressions versus the Common Core volume of 10 million impressions to optimize throughput results.
- 11). Describe the software you use for accountability of cost control and job submission to the Copy Center. (a) Include how the User will access the software and submit work to the Copy Center. (b) Include process for tracking and possibly modifying a submitted job at User request and (c) processes for communicating with staff if there is a problem with their submission.
- 12). (a) Describe Company experience providing Managed Print Services to other K-12 clients of similar size and scope to Owner. (b) Be sure to name the Client, (c) the type of printer devices provided to the client and (d) the number of printers maintained and (e) any print governance software implemented with the associated savings generated. (f) Describe your experience serving those printers, delivering supplies for the printers and your strategy for replacing printers.
- 13). (a) Describe Company offering for Alternate #1 (Color Solution), including the requirements for a facilities managed person with Graphic Artist/Marketing experience to provide professional Graphic Design and layout for electronic and printed materials, (b) building a center that supports public access and (c) the ability to create marketing strategies for full color offering. (d) Describe your approach for providing a dedicated person to this function by the time the offering has been fully developed (Owner intent is to have a fully developed offering at the end of the first year).

## **ALTERNATE #1**

The purpose of this Alternate is to solicit Proposals from qualified companies with expertise in Digital Color Press and large format print, "Company managed", imaging devices and expertise in providing managed document services to realize cost control and volume management across ALL image production devices, including the BW devices already described in this solicitation. Owner is exploring the ability to add digital color capabilities to the Copy Center in an effort to provide Owner and non-profit partners in the community with high quality reprographic services. Owner is requesting a proposal for these services as an Alternate to this solicitation. Use estimates provided by Owner staff indicate the average spend with third-party vendors for full-color printing is \$12,000 per year. The monthly anticipated volume is between 10,000 – 50,000 prints per month. Owner does not currently have Digital Color Press equipment.

A primary objective to Owner is the overall reduction of reprographic expenses by off-setting current costs through the generation of revenue obtained by the non-profit community partners. The goal will be to develop a program that has the ability to sustain itself within the first twelve (12) months after the initial implementation. Thereafter, the emphasis will be to grow the program to increase revenues. In order to achieve this objective, Company shall provide exceptional reprographic customer service, quality products and short turn-around times. Company shall partner with Owner to ensure a quick implementation and subsequent marketing plan. Company and Owner will work together to develop an employment strategy during the program development. Company shall provide a dedicated employee to this offering upon its full development and ability to be self-sustaining.

Company shall provide personnel with a minimum of 2 years Graphic Artist/Marketing experience. Personnel shall use Desktop publishing software to provide professional Graphic Design and layout for electronic and printed materials including brochures, logos, letterheads, envelopes, certificates, attendance cards, posters, flyers, business cards, stickers, signs, notepads, labels, marketing materials and book design. Duties include scanning and scaling of images, creating clipping paths and masks, image airbrushing and touch-ups, cropping, creating illustrations, font selection, locating and selecting photographs, images and clipart from stock photography organizations. Additional duties related to graphic design include listening to the customer needs and determining the correct printing method to conform to customer budgetary requirements. Identify correct paper type, press and bindery functions.

Personnel shall also prepare price quotes for customers based on printing methods, paper choice, bindery, mailing and labor. Communicate pricing to customer. Coordinate and monitor production for concept to delivery. Duties may include ordering paper, coordinate staff and printing schedules, communicate with customers on timelines and progress, provide mock-up to press and bindery, and approve make-ready and bindery.

Personnel shall also perform and provide technical support to Office Managers, Administrative, and support staff regarding higher level activities within software applications such as creating templates, using data linking commands, form-fill and mail-merge.

Owner is looking to implement a Digital Color Press. Proposed Digital Color Press shall be a modular/upgradeable offering and able to feed special stocks, auto register, color match and have air/paper flow technologies. Proposed Digital Color Press shall have the ability to view all jobs, current and pending, and a walk-up job queue. Company shall offer software to manage each step of the

document cycle from the desktop by viewing jobs in the queue and hold, promote and delete them. Solution shall easily print PDFs, TIFFs and JPEGs through the user-friendly interface, and shall have the ability to do batch printing

Owner is looking to implement large-format printing solutions designed with exceptional speed, flexibility and quality. Proposed large format printer shall be a minimum 8 color printer and must produce images at least forty-four (44) inches wide. Proposed large format printer must provide scratch resistance and smooth gradations and a system for replacing ink on-the-fly without stopping the printer. Printer must be capable of printing banners that will hang out-doors for a period of 4 months, or greater. Some examples of products Owner would like to produce include, but may not be limited to, flyers, brochures, table tents, folders, tickets, postcards, posters, and banners. Owner shall own the large-format printer at the end of the Agreement.

Company must be able to offer software that allows for all printers to be monitored from one central location and has an accounting function for tracking job costs, budgetary information, controls and reporting. Software must allow Owner staff and potential community non-profit partners to send jobs electronically. Company solution must include Microsoft Office and Adobe Photoshop and has a media configuration tool which allows customers to not only utilize existing Company-branded media, but also with non-Company branded media. Owner is open to software applications as a cloud portal solution that helps users to expand their printing workflow.

Company shall successfully identify and address workflow problems, and provide adequate back-up or work-around solutions in the event that Digital Color Press or Wide-format printer are temporarily disabled due to maintenance issues. No Overtime charges will be allowed unless authorized by Owner prior to the service being rendered. Wireless connectivity is not required, but your company may propose it.

The Owner is looking to execute a lease Agreement for the digital color capability that is coterminous with the B/W equipment already specified in this solicitation, including the determination, installation configuration, maintenance, repairs, reporting, accountability support and proactive replenishment of consumables. Company will provide training to Owner including service and support issues, design and file setup, production procedures, supply ordering and billing of accounts. Owner may continue using the Digital Color Press equipment, at the end of the Agreement term, on a month-to-month rental basis at the Agreement rates until the devices are picked up by Company. Company shall pick-up these devices at no additional charge to Owner. Owner is looking to implement this equipment with the B/W equipment outlined in the main RFP Document [no later than October 31, 2016](#).

This solicitation requires that the units offered or shipped, as a result of this solicitation, shall be new in the box, OEM parts, ISO-14001 certified without defect and shall comply with all current safety orders of OSHA, CAL-OSHA and/or NIOSH and OSHA-POD. No re-manufactured equipment will be allowed.

## **TECHNICAL REQUIREMENTS**

The following table is designed to assess compliance with a set of technical specifications for all equipment in Alternate#1. Companies who misrepresent the technical capabilities of their products in the table below may be disqualified from a potential award. Company must complete the appropriate columns and include the table with their submission of their Proposal.

Use of brand name, trade name, make, model, manufacturer, or Company catalog number in specification, as set forth in this document, is for the purpose of establishing a grade or quality of material only. It is not the Owner's intent to limit the proposal, directly or indirectly, to any one specific concern, to rule out other competition, therefore, the phrase **OR OPERATIONALLY EQUIVALENT** is added.

Company shall propose client software that allows Owner's users to send jobs/tickets electronically to the Copy Center. The solution shall have a minimum of the following requirements.

### **PRODUCTION COLOR COPIER/PRINTER**

| FEATURE REQUIREMENT                      | DESIRED SPECIFICATION  | COMPLY (Y/N) | COMMENTS |
|--|--|--------------|----------|
| Output Resolution                        | 1200 x 1200 dpi, multibit. Scan 200 x 200, 300 x 300, 400 x 400, 600 x 600   |              |          |
| Technology                               | Automatic color quality management capability  |              |          |
|  | Load while running   |              |          |
|  | Low melt dry ink   |              |          |
| Minimum Print Description Language (PDL) | Adobe PostScript Level 1,2,3; Adobe Acrobat 9.0, PDF 1.8, PDF/X; PCL5c, PCL5e, PCL6XL, TIFF, ASCII; JPEG, PDJL9.0, PDF X1A, PDF/X-3; PDF/X-4; PPML; PDF/VT, Adobe PDF Print Engine 2.0 |              |          |
|  | Energy Star compliant  |              |          |

|  | 500GB Hard Drive   |              |          |
| Integrated Scanner                       | Color Scanner  |              |          |
|  | Single pass duplex scan  |              |          |
|  | Scan to a variety of output options  |              |          |
|  | 200 sheet minimum capacity   |              |          |
|  | Minimum 200ipm (color and black and white)   |              |          |
|  | Originals up to 11" x 17" (A3) in weights from 38 gsm (16lb bond) to 200 gsm (53lb bond)   |              |          |
|  | Duplex automatic document feeder   |              |          |
| Printer Server Requirements              | Fiery FS150 Pro/ Fiery PRO 80 Platform   |              |          |
|  | Intel Core i5-4570S Processor  |              |          |
|  | 6M Cache, up to 3.60 GHz   |              |          |
|  | 4GB RAM (2x2GB)/1TB SATA   |              |          |
|  | DVD-RW/CD-RW   |              |          |

|                           |  |  |  |
|---------------------------|--|--|--|
|                           | Fiery Impose/Compose   |  |  |
|                           | Spectrophotometer  |  |  |
| Productivity Print Speeds | Minimum 200,000 duty cycle with maximum 500K+  |  |  |
|                           | Minimum 70PPM – 8.5” x 11”   |  |  |
| Paper Format Size         | Minimum sheet size 3 of 4 trays:11 x 17  |  |  |
|                           | Minimum print & copy image area: 11 x 17   |  |  |
|                           | Minimum paper size of 3 of 4 trays: letter to 13 x 19  |  |  |
|                           | Minimum paper size bypass: Statement to 13 x 19  |  |  |
|                           | Minimum sheet size is 5.5 x 7.2  |  |  |
|                           | Minimum 5 trays with 7000 sheet input capacity, expandable to 15,000 sheets  |  |  |
|                           | Bypass tray: Min. 250 sheets, 18lb bond – 110lb cover  |  |  |
|                           | Ability to run heavy textured stock, labels, tabs, solid color media and coated stock up to 350gsm. Owner does not currently offer color copying capability at the Copy Center |  |  |
|                           | Minimum of 3 trays with 13 x 19 capabilities using standard internal trays and bypass tray   |  |  |
|                           | Minimum paper capacity: 4000 sheets 13 x 19.2  |  |  |
| Other Requirements        | Run at rated speed up to 256gsm  |  |  |
|                           | Oversized vacuum feed High Capacity Feeder – Minimum two-tray module – 4000 sheets   |  |  |
|                           | High Capacity Stacker with minimum 4000 sheets   |  |  |
|                           | Booklet finisher, multi-position hole punching and stapling, minimum 100 sheet stapling, coated and uncoated   |  |  |
|                           | Replaceable Units  |  |  |
|                           | Training   |  |  |
|                           | Remote Monitoring, Managing and Servicing or production device   |  |  |

**CONTINUED ON NEXT PAGE**

Company shall answer each question or statement in Alternate #1 and attached the completed questionnaire as part of their Proposal. If the Solution offered by your Company does not exactly meet the criteria or specification provided, please indicate your Company work-around in the comment box.

Company shall provide for redundancy in the event equipment operation is not available or provide a remedy for Owner to recover funds for loss of equipment usage due to the lack of necessary equipment operation.

| Production COLOR Equipment   | Yes | No | Comments |
|--|-----|----|----------|
| 1. Company is the same Original Equipment Manufacturer (OEM) for all production printing systems being proposed and has attached the required Manufacturer or Authorized Dealer Certification to this Proposal.  |     |    |          |
| 2. Equipment is sold and serviced by the OEM or authorized factory trained agent.  |     |    |          |
| 3. All printing systems proposed have a minimum simplex speed of 70 ppm.   |     |    |          |
| 4. High Quality integrated Scanner with scan speed of at least 120 ppm simplex and 120 ppm duplex is proposed.   |     |    |          |
| 5. Integrated Scanner holds a minimum of 250 sheets  |     |    |          |
| 6. Systems have the ability to continuously print while loading and unloading paper without the printer cycling down.  |     |    |          |
| 7. Dual core processor on printer controllers for all Copy Center copiers.   |     |    |          |
| 8. Print resolution is a minimum of 4800 x 600 dpi or 3600 x 1200 for ease of reading on student facing documents, black toner   |     |    |          |
| 9. Sheet enhancement module - provides optimal sheet flatness for post process handling.   |     |    |          |
| 10. <ul style="list-style-type: none"> <li>a. Integrated 200 sheet document feeder</li> <li>b. 5800 sheet paper feeder with size range from 5.5" x 8.5" to 12.6" x 18.5"</li> <li>c. Stacking output of up to 2,250 sheets</li> <li>d. Stapling with one or two staples in sets of up to 100 sheets</li> <li>e. An offline folder offering C-, Z-, and bi-folds</li> <li>f. A inline or offline booklet maker</li> <li>g. Internal Cleaning Technology automatically removes stray toner and particles for cleaner prints</li> </ul> |     |    |          |

|   |  |  |  |
|---|--|--|--|
| 11. provides, at no metered charge, automatic insertion of up to 5800 post fused sheets (offset shells, color laser pages) into a specific print job.                               |  |  |  |
| 12. must have image permanency and will not be subject to image flaking or maring on paper weight up to 220 gsm   |  |  |  |
| 13. Shall have a sheet enhancement module providing optimal sheet flatness for post process handling such as folding, stacking, booklet making and shrink wrapping.                 |  |  |  |
| 14. has Internal Cleaning Technology that automatically removes stray toner and particles for cleaner prints.   |  |  |  |
| 15. Has page System must have parallel RIP for faster document processing.  |  |  |  |
| 16. Printer has pass through programming to maximize duplex productivity during single engine downtime.   |  |  |  |
| 17. System speed can be permanently upgraded to next model in field   |  |  |  |
| 18. System hardware and software is modular and field upgradable.   |  |  |  |
| 19. System controller supports remote Graphic User Interface (GUI).   |  |  |  |
| 20. System controller GUI is the same on all production printers  |  |  |  |
| 21. System controller supports Job Forwarding to any controller in the production solution  |  |  |  |
| 22. System controller supports multiple queues up to 250 for perfecting and production class printers.  |  |  |  |
| 23. System controller supports Reprint Management – rasterized jobs and job tickets are saved for reprint requests.   |  |  |  |
| 24. Sun Solaris, or equivalent, OS for security   |  |  |  |
| 25. Company maintains responsibility for all third party manufactures software and hardware if there are problems or questions.   |  |  |  |
| 26. System provides late stage editing for web, scan, and hardcopy submitted documents.   |  |  |  |
| 27. Customer is not billed for system prints required for service related repairs or diagnostics, credits captured by technician at time of activity and credited to Owner monthly. |  |  |  |

|  |  |  |  |
|--|--|--|--|
| 28. Company provides a total satisfaction guarantee for all production systems with replacement deemed necessary by the Owner.   |  |  |  |
| Production Equip. Options at Negotiated Prices   |  |  |  |
| 29. If proposing a machine that meets the minimum specification of 70PPM but is less than 80PPM, system speed can be temporarily increased during peak production periods when needed for 30, 60, or 90 day periods. |  |  |  |
| 30. System paper supply is expandable to a maximum of 16,000-17, 400 sheets in 4,000-5800 sheet modules.   |  |  |  |
| 31. System speed can be permanently upgraded on existing device to next model while device is still on Owner premises.   |  |  |  |

## ADDENDUM # 1

TO: All Prospective Proposers  
FROM: Leigh Hansen  
DATE: July 11, 2016  
SUBJECT: Addendum No. 1 to Proposal Documents for WSH16-06B  
RFP for Multi-Function Device/Digital Copier (MFD) and  
Managed Print Services (MPS) Lease and Maintenance  
Services

You are instructed to read and to note the following described changes, corrections, clarifications, omissions, deletions, additions, approvals and statements pertinent to the Request for Proposals.

The Addendum #1 is a part of the Request for Proposals and shall govern in the performance of the work.

The following chart addresses the described changes, corrections, clarifications, omissions, deletions, additions, approvals and statements pertinent to the Request for Proposals.

| Question   | Please note the following edit, clarification, or response to potential bidders question.   |
|--|---|
| I wanted to submit a formal request to have the due date for the RFP extended out 2 weeks from July 25 <sup>th</sup> to August 8th. The timeframe to respond with questions is difficult also. | The District can accommodate a one week extension. Please refer to the revised Calendar of Events below. The RFI period will close July 25, 2016. Proposals will be due August 1, 2016 by 10AM. |

| CALENDAR OF EVENT DATES |                                   |
|-------------------------|-----------------------------------|
| July 1, 2016            | RFP released                      |
| July 25, 2016           | Last day for Proposer's questions |
| July 26, 2016           | Last Addendum issued              |
| August 1, 2016          | Submittals due by 10AM            |

The above Calendar of Event Dates may be revised at Owner's sole discretion. Any changes to the Calendar of Event Dates prior to the Submittals Due Date shall be issued by Addendum to this RFP.

| OTHER DATES        |   |
|--------------------|---|
| August 18, 2016    | Notice of Intent to Award                                   |
| August 25, 2016    | End of Protest period (pursuant to Section 30, RFP Protest) |
| September 21, 2016 | Recommendation of Award to Governing Board                  |

The above Other Dates happen after the submittals are due. These Other Dates are tentative and may be revised at Owner's sole discretion. Changes to the Other Dates will not be communicated in an Addendum to this RFP.

Receipt of this Addendum #1 for RFP WSH16-06B is to be acknowledged by signing below and submitting this form with the Company's Proposal.

## ADDENDUM # 2

TO: All Prospective Proposers  
FROM: Leigh Hansen  
DATE: July 20, 2016  
SUBJECT: Addendum No. 2 to Proposal Documents for WSH16-06B  
RFP for Multi-Function Device/Digital Copier (MFD) and  
Managed Print Services (MPS) Lease and Maintenance  
Services

You are instructed to read and to note the following described changes, corrections, clarifications, omissions, deletions, additions, approvals and statements pertinent to the Request for Proposals.

The Addendum #2 is a part of the Request for Proposals and shall govern in the performance of the work.

The following chart addresses the described changes, corrections, clarifications, omissions, deletions, additions, approvals and statements pertinent to the Request for Proposals.

| Question   | Please note the following edit, clarification, or response to potential bidders question.   |
|--|---|
| <b>There are two sets of forms for the Bid Bond. In the RFP package on page 40 there two pages regarding Bid Bond and in the RFP Required Forms pdf page 1. Please confirm which form(s) should be completed.</b>        | The documents in the RFP package on Page 40 are a Bid Bond. These documents need to be completed and turned in with your Proposal. The documents in Required Forms pdf page 1 are a Faithful Performance Bond. Company will be required to complete these documents as part of the contract.                                      |
| <b>Site Visit Certification - Form was not included in either the RFP or the Required Forms section. Please provide the form.</b>  | Site Visit Certification Form is attached to this Addendum #2   |
| <b>Certification of Employee Background - New Form that was not previously included in prior RFP's. Form was included in the Required Forms.pdf page 4. Is this form required for proposal submission or post award?</b> | The Certification of Employee Background form is to be completed and turned in prior to the final award.  |
| <b>Do we have to submit fingerprints from DOJ or do we the option to do a waiver justification?</b>  | Since Company personnel will be accessing our campuses during the work day and have access to students, Company shall certify that it has complied with the requirements of California Education Code Section 45125.1 and all California Department of Justice guidelines with respect to the fingerprinting of its employees who |

|  |   |
|--|---|
|  | will be working under this contract, accessing our campuses during the workday, and having regular access to students.  |
| <b>Preparation and Submission of Proposals / 12</b><br>- The RFP states - " shall submit one (1) original and three (4) copies of the required submittal responses." Please confirm if you want 3 or 4 copies.   | Company shall submit four (4) copies.   |
| <b>Production Job Submission - Currently, your teachers can walk up to their MFD and with one step can scan and send their job fully ticketed to the Print Shop. Any solution other than the one in place will force the teachers to scan in their job at the MFD, the job will have to be sent to their PC or a network folder, they'll then have to go to their PC to find the file and submit it to the print shop via a separate job submission tool along with having to add all instructions. With that said, please explain how district will handle user dissatisfaction with extra steps they will be required to follow with any scan to print shop solution other than the currently implemented RSA QDirect.scan workflow? Additionally, how will the District make sure the scan to print shop jobs currently being submitted via QDirect.scan will continue to be sent to the Print Shop considering that the teachers will more than likely simply scan and copy their work at the local MFD — tying up the device using a far less productive workflow and use of their time? How will the district address the decreased volumes in the Copy Center due to those one-click submit jobs going away? How will district handle user dissatisfaction and failure to adapt as it's certain teachers and staff will chose to not want the extra steps in the process?</b> | <p>How the district handles user dissatisfaction is not pertinent to Company's ability to submit a response to the RFP.</p> <p>The district understands that some processes will change with the implementation of a new system and does not expect that all current processes with remain the same. Each system and related specifications will be evaluated according to the criteria outlined in the District's RFP and a final selection will be made based on what is in the District's best interest.</p> <p>The district is not able to provide answers to questions that are based on assumptions. The District will address specific questions, such as fluctuating volumes, if and when they occur with the Company.</p> <p>Again, how the district handles user dissatisfaction is not pertinent to Company's ability to submit a response to the RFP.</p> |
| <b>Production Equipment - What percent of duplex is required for units 1, 2,3 and 4?</b> <ul style="list-style-type: none"> <li>For production devices 2 &amp; 3 do you require duplex images per minute, simplex images per minute or both?</li> <li>Would you prefer to have the roll system as an optional requirement vs. part of unit #1?</li> </ul>  | <ul style="list-style-type: none"> <li>1, 2, 3, and 4 shall be required to print simplex and duplex. Approximately 80% of the work is produced duplex.</li> <li>Units 2 and 3 are required to print both simplex and duplex images per minute.</li> <li>No. The district does not want the roll system as optional equipment.</li> </ul>  |
| <b>Are Alternate Proposals Allowed?</b>  | The District is seeking Proposals that meet or exceed the specifications of the RFP.  |
| <b>In Section 5.15 Subcontracting: It is stated,</b>   | The District requires that all devices and services   |

|  |   |
|--|---|
| <p><b>“There shall be no subcontracting or joint venture of any services, marketing, or other activities by Consultant unless specifically approved in advance in writing by District’s authorized designee. Consultant shall act as the single principle for all products and Services in this Agreement.” Can the District please clarify?</b></p> | <p>are supplied and maintained by the Company submitting a proposal to this RFP. Company is not allowed to sub-contract out any portion of the work, unless pre-approved by the District.</p>   |
| <p><b>Besides the first bell deliveries of 6:55am and 7:55am to the High School and Jr High, is there delivery scheduled throughout the rest of the day? How many other deliveries are made and/or required?</b></p>   | <p>Page 7 states: Company’s delivery of jobs will not be limited to the times set forth above. From time to time, Company may be required to deliver lost, re-run, or emergency jobs at any point of the day during Owner’s normal business hours. Company may also be required, from time to time, to deliver supplies for equipment to properly function. Such deliveries shall be made at any point of the day during Owner’s normal business hours.</p> |
| <p><b>Are any jobs picked up? If so, what is the volume?</b></p>   | <p>Page 7 states: Users shall submit their copy jobs for next day delivery via scanning directly to the Copy Center, via hardcopy pick-up by Company associate and via electronic submission via web interface from user’s PC.</p> <p>The hardcopy pickup volume is so low that it is not tracked.</p>  |
| <p><b>How many Vehicles are currently used by the vendor? Which type (van or truck)? Do they require a lift gate?</b></p>  | <p>Currently, the contract allows the vendor to utilize subcontractors. The current vendor subcontracted the printers. Company uses a van to maintain the MFDs and deliver the copy jobs and the subcontractor uses an automobile to maintain the printers. The district does not require the vehicle to have a lift gate.</p>  |
| <p><b>What Graphic Arts programs are available on owner’s computer for use by the contractor? For example Microsoft office, Publisher, and/or Adobe Suite(Illustrator, InDesign, Photoshop).</b></p>   | <p>Company will have access to Adobe Creative Cloud All Apps Suite and Microsoft Office Professional 2016 Suite.</p>  |
| <p><b>Are the hours listed on page 8 of the RFP overtime hours, additional hours(other vendor staff working in the center), or both? Approximately what percentage of these hours were billed to the District?</b></p>   | <p>1040 overtime hours were listed on Page 8; 16 of those hours were charged back to the District (or 1.5%).</p>  |
| <p><b>Please confirm who owns the following equipment:</b></p> <ul style="list-style-type: none"> <li>• Shrink Wrapper</li> <li>• Cutter</li> <li>• Padding Press</li> <li>• Will the vendor need to provide these items?</li> </ul>   | <p>Company owns this equipment. Company needs to provide all equipment that supports Company’s proposed solution, as part of the lease agreement.</p>   |
| <p><b>Can we get a breakout of the volume of</b></p>   | <p>All jobs are shrink-wrapped. Other finishing</p>   |

|   |   |
|---|---|
| <p><b>different finishing types? How many items stapled, how many booklet finished products, how many shrink wrapped, plus any other finishing requirements?</b></p>  | <p>options were not previously tracked.</p>   |
| <p><b>Please describe the skill set required of the on-site analyst identified in exhibit B, page 113. Is the an operational support person or technical support person?</b></p>  | <p>This person shall be first level support and respond to maintenance calls, as requested by district staff members. They will respond within two hours of the request and be able to clear jams or replace routine components in order to make the machine operational. If this person is unable to make the machine operational he/she must have a direct line to more advanced technical support personnel who can make the machine operational within four hours. Page 113 states: Analysis shall have direct access to Third party analysis and be able to resolve any issue preventing office &amp; production work within four hours.</p> |
| <p><b>On Page 6/paragraph 3 of issued RFP the District states, “Proposed multi-function machines must have the ability to view all jobs, current and pending, and a walk-up job queue. Proposed Multi-function machines must have the ability to integrate with Proximity Cards and require a central queue where any job submitted can be retrieved from any device anywhere within Owner’s facilities (Owner does not currently use Proximity Cards). End users must be able to select finishing options for the follow-you device (this feature is not intended to be used by students. It is intended for Owner staff only). Company shall offer software to manage each step of the document cycle from the desktop by viewing jobs in the queue and hold, promote and delete them(Owner currently has 100 licenses).</b></p> <ul style="list-style-type: none"> <li><b>Can the District tell us what software is currently in use to meet this need/requirement?</b></li> <li><b>Are the 100 ‘licenses’ per device, or per user?</b></li> <li><b>If per user, are the licenses assigned or concurrent?</b></li> <li><b>Is the current ‘software’ being used to view/manage jobs, a standalone software or a web based solution?</b></li> <li><b>Does the current solution restrict the view/manage function to jobs based on the user’s credentials?</b></li> </ul> | <p>Proximity Cards and Follow-me Printing is a new requirement. Thus, there is not any software in place that meets this need.</p> <p>There are 100 licenses districtwide. The license enables the MFD device to scan a copy job to the district copy center.</p> <p>The licenses are not per user.</p> <p>The current software used to view/manage jobs is a standalone package.</p> <p>The software that allows web submission does restrict the user to their own jobs based on their credentials.</p>   |

|   |   |
|---|---|
| <ul style="list-style-type: none"> <li>• <b>Is the current software used to manage jobs sent to the general MFD pool, or print jobs going to the print shop?</b></li> <li>• <b>With regards to the potential solution of card readers and accompanying software solution; does the solution need to track students, or is the print/copy/follow me/scanning solution strictly for faculty &amp; staff?</b></li> </ul> | <p>The current software is used to manage jobs going to the Copy Center.</p> <p>Page 6 states: this feature is not intended to be used by students. It is intended for Owner staff only</p>   |
| <p><b>To ensure all vendors responding with the required 4 full time people – how will you validate and evaluate in the scoring since this requirement is not called for in the exhibits.</b></p>   | <p>Page 7 States: Owner expects Company to hire, recruit, manage, train and motivate personnel and set the hours of operation to manage the volume and expectations as outlined in this solicitation.</p> <p>The RFP does not mandate the number of personnel Company is to hire.</p> |

Receipt of this Addendum #2 for RFP WSH16-06B is to be acknowledged by signing below and submitting this form with the Company's Proposal.

## SITE VISIT CERTIFICATION

**PROJECT:** Multi-Function Device/Digital Copier (MFD) and Managed Print Services (MPS) Lease and Maintenance Services

**BID PACKAGE** WSH16-06B

I certify that an authorized representative of our company has visited the site of the proposed work and has been fully acquainted with the conditions relating to construction and labor. The facilities, difficulties, and restrictions attending the execution of the work under contract are fully understood.

I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

I agree to fully indemnify, defend, and hold harmless the William S. Hart Union High School District, the architect, the Construction Manager (where applicable), and all of their respective officers, agents, employees, and consultants from any and all damages and costs or omissions related to conditions that could have been identified during the visit to the site.
