IV. Recognitions by Board

V. Communications

V.A. Board Member Reports

V.A.1. What's Good in Education

The following Board members relayed the events they recently attended and/or are interested in: Mr. Sturgeon (said it is exciting to see Hart District graduates competing at the Olympics) and Mr. Hall (commended District and Golden Valley High School staff on moving summer school during the recent fire in order to allow the school to be used as a fire command center).

V.B. Employee Association Leadership

V.B.1. Hart District Teachers Association (HDTA) President Jayme Allsman

Ms. Allsman said there are nearly 80 new teachers in the District this year, approximately 70 of them District graduates, and she thanked Bob Jensen for attending the new teacher luncheon. Ms. Allsman said she has been advocating for a re-establishment of full time library techs on each campus in order to provide the best service for students, along with an additional computer tech at each high school. She said administration has been slow in processing an employee complaint and the union has asked for a delay of Peer Assistance and Review (PAR) placement until resolution of the complaint. She asked that the teacher be returned to work immediately.

V.B.2. California School Employees Association (CSEA) Chapter 349 President Mia Reed

Ms. Reed thanked HDTA for their support. She said she is striving to motivate classified employees to unify. She reported that she attended the yearly CSEA conference earlier this month and is feeling reinvigorated.

V.C. School Site Report - West Ranch High School

West Ranch High School Principal Mark Crawford reviewed the school goal to close the achievement gap between the Hispanic and white population by three percent in English Language Arts and five percent in math. He explained the Five to Watch program where each teacher chooses five students to focus on. He said the school's intervention program focuses on the needs of struggling students and includes targeted strategies in math, meeting at alternative times, and increasing access to Advanced Placement and honors classes. Mr. Crawford believes the Career Technical Education/Career and College Readiness programs are a key to West Ranch's success. In these programs students find their passion, connect passion to learning, and connect learning with success in real life. He showed a video with students discussing their experiences in career paths. The school has seven career paths, the newest being aerospace engineering, in addition to multiple areas of concentration. Last year more than 300 seniors were recognized for their participation in the career path program.

Mr. Crawford shared the school's 2016 California Assessment of Student Performance and Progress (CAASPP) results which showed improvement beyond the stated goal. The achievement gap in English Language Arts was closed by 10 percent and the gap in math was closed by 11 percent. A copy of the PowerPoint presentation is attached to the agenda of this meeting.

VI. Special Items

VII. Public Comments

Valencia resident Michele Lecrivain said she thinks the prequalification list should not be in the Consent Calendar. She said two companies on the list have never built a school and do not have licenses to build schools.

Saugus resident Bill Dinsenhacher said it would be beneficial to the District to encourage teachers to get national certification. He said he would like to see the schedule at Castaic High School include a blend of traditional and block scheduling.

VIII. Discussion Items

VIII.A. California Healthy Kids Update

Dave LeBarron, Director of Curriculum and Assessment, explained that AB 329, signed into law last fall, requires both HIV/AIDS prevention education and comprehensive sex education to be taught once in junior high and once in high school. The bill lists specific topics to be addressed, states that information must be medically accurate and age appropriate, and allows for parents to opt out. District administrators have attended an information meeting at the Los Angeles County Office of Education, met with the Parent Communications Council to share information and solicit input, and met with a planning committee consisting of junior high and high school teachers.

High school instruction will take place in health classes and will begin this semester. Health teachers met to create the curriculum, focused on healthy lifestyles and choices. A binder has been created for each teacher and the curriculum will be consistent across the District. The binders will also be available for review in each school office. An information letter has gone out to parents and includes the option to opt out. The committee will reconvene each spring to review the curriculum.

Junior high instruction will take place in seventh grade science and physical education classes beginning in the spring semester. Teachers have created a first draft of the instructional materials and a parent committee, consisting of two representatives from each junior high, will review for age appropriateness. Teachers will receive training at an upcoming District-wide minimum day. Informational meetings will be held at each junior high in November and an informational letter will go home over winter break. Binders will also be available for review at each junior high. Curriculum will be reviewed again over the summer.

VIII.B. Career Technical and Adult Education Update

Dr. Mariane Doyle, Director of Career Technical Education (CTE), discussed career pathways, 23 District-wide, and said new pathways are in development thanks to the support of students,

teachers, and the business community. She said many pathways include A-G curriculum, honors and Advanced Placement courses, and state licensures and certifications. She mentioned one of the newer career paths, Advanced Technologies, and discussed the Makerspaces at Arroyo Seco Junior High and Saugus High Schools and the Makerspace and welding lab planned for Canyon High School. She reviewed different grants that help fund CTE programs and distributed a list of 2015/16 CTE highlights.

Dr. Doyle discussed the Gateway Santa Clarita Valley Consortium, consisting of the Hart District and College of the Canyons, which provides adult education programs to the Santa Clarita Valley. She introduced the new website at gatewayscv.org. Through Golden Oak Adult School, basic, high school diploma, and English as a Second Language courses are offered and funded through the AB104 apportionment. Fee-based courses are also offered including medical assisting and pharmacy tech programs. Copies of the PowerPoint and support material are attached to the agenda of this meeting.

IX. Action Items

IX.A. Public Hearing and Consideration of Resolution No. 16/17-8 - Approving the Submittal of an Application Requesting the State Board of Education to Authorize a Waiver Renewal Regarding Certain Education Code Sections Related to the Sale of the District's Former District Office
