RE: **PROPOSAL FOR TESTING AND INSPECTION**
PPlacerita Jr High School Modular Addition DSA# 117330

MTGL has been providing professional services for inspection on this site. MTGL had requested a general purchase order for the site prior to the DSA Form 103 and the construction schedule.

The proposal was created based on the setting of the pre-fabricated portables. The requirements for a fire lane and fire water line have been defined by DSA since our proposal was created.

According to the on-site DSA Project Inspector the construction requiring inspection would be 60 days beyond our requested purchase order. Although we have funds left in our contract for as needed services, the hours needed are insufficient for the remainder of the project. MTGL is requesting a budget increase for **$ 78,219.50** for as needed professional services.

In estimating an adequate budget for services that cannot be controlled by inspectors, MTGL has included an extra week to finish the project in our request. Invoicing will be time and materials as need to comply with DSA and full back up will be provided for submitted hours.

Sincerely,
MTGL, Inc.

Steven Koch
Senior Vice President
