# Networked Thermostats

The screenshot shows the Venstar Skyport cloud dashboard. The browser address bar displays the URL: <https://venstar.skyportcloud.com/dashboard#/5a205164a065ae5209c7266b/eq>. The dashboard header includes the Skyport logo and navigation links for Home, My Locations, Global Changes, and a user profile for William Hart. On the left, a 'My Locations' sidebar lists several schools, with Bowman HS selected. The main content area displays the 'Bowman HS' thermostat interface for 'BHS CLR E'. It shows the current room temperature as 75°F, with a setpoint of 74°F for cooling and 67°F for heating. The interface includes buttons for 'WARMER' and 'COOLER', as well as a 'Schedule' section with 'ON' and 'OFF' options. The status 'Security Active' is displayed at the top of the thermostat control panel.
