Comprehensive Needs Assessment Components

Data Analysis

Please refer to the School and Student Performance Data section where an analysis is provided.

Surveys

This section provides a description of surveys (i.e., Student, Parent, Teacher) used during the school-year, and a summary of results from the survey(s).

Parent Survey-Our EL parents completed a Google survey to describe how Rio Norte can best meet the needs of their students. We also asked parents to describe how supported they feel at school. On a 1 to 5 scale, 90% of parents reported either a 4 or 5 for: feeling welcomed at school, hearing back from teachers or counselors, receiving information of child's progress, and that the school values diversity. Forty percent of parents feel they do not have enough information on how to volunteer or be involved, and 8% stated their child's teacher does not respond in a timely manner.

Teacher Survey-Our teachers expressed a desire for professional development in the following areas: Language Objectives, on line based formative assessments

Student Survey (EL students)-Students completed a Google survey and stated that they would like additional support on study skills

Student survey-(General) Students report an overall positive school climate, but state that at times, students are not kind to each other. The average score was 3 out of 5 for student kindness.

Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.

Our Rio Norte administrator Google classroom observation Survey tracks classroom observations. The spreadsheet is analyzed to see the kinds of instructional strategies teachers use and student engagement. As of November 20, we have data on 115 observations.

Here is a summary of observation data:

Teachers were observed sitting at their desk 37% of time and 10% of the time teachers were observed providing direct instruction.

Teachers were observed moving around the classroom supporting independent work 17% of the time.

When checking for an objective, administrators observed a written objective on the board during 50% of the visits.

Students were observed working independently 29.6% of time.

Students were observed working in groups on projects, assignments, and discussions 28.7% of time.

Students were observed being on task 56.5% of the time.

No evidence of formative assessments has been noted 51% of time.

Teachers were observed circulating the classroom to check for understanding 32% of time.

Teachers were observed random questioning of students 27% of time.

Unstructured student collaboration was observed 36% of time.

Structured student collaboration was observed 29% of time.

Analysis of Current Instructional Program

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

Standards, Assessment, and Accountability

Use of state and local assessments to modify instruction and improve student achievement (ESEA)

State assessments-All teachers receive copies of our school's CAASPP data each year. All teachers have been given specific instructions on how to locate CAASPP scores for each individual student in Infinite Campus.
Local-district assessments-English teachers have three district Writing benchmarks. The results are graded by grade level teachers using the same rubric. Math 7, Math 8 and Algebra also administer district assessments.
Local-school assessments-Each core department has created common pacing calendars, essential standards and one common formative assessment for each quarter. The results are examined by grade level department to determine next steps for student instruction.

Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

The results of district assessments and school common assessments are examined and evaluated by grade level teachers. A response based on the data is created by the grade level teams. Some teams respond with re-teaching in their classes or in small groups, others will re-teach the concepts as they occur naturally in the curriculum. For school common assessments, teachers complete a Team Learning Log to respond to results in a systematic and cohesive way.

Staffing and Professional Development

Status of meeting requirements for highly qualified staff (ESEA)

Currently 100% of teachers at Rio Norte meet the state credential requirements and are teaching within their certified subject area.

Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)

All schools hire future teachers from those who apply through EdJoin. All schools have access to interviewing the same credentialed teachers within the district. School site administrators conduct their own interviews and make their own selections. All teachers have ample opportunity for continued professional development annually as provided by the District and the school site professional development team on a regular monthly basis. Teachers can select and personalize their professional development goals through a variety of workshops, collaborative meetings, conferences, and department and/or grade level collaboration time.

Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)

The Rio Norte Professional development plan for the year includes using the template for creating a common lesson by Mike Schmoker in "Focus." Teachers align pacing calendars, select essential learning targets and create at least one Common Formative Assessment each quarter. Teachers also use common grading rubrics for assessments. Teachers have 9 days for PD a year. Most of these days fall on minimum days or early release days.

Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)

Science, history, math and English teachers work with district instructional coaches. Each department is in a different place, based on the level of implementation of the Common Core State Standards.

Teacher collaboration by grade level (kindergarten through grade eight [K–8]) and department (grades nine through twelve) (EPC)

There is collaboration every Wednesday with our early release schedule. Two days a month are focused on department collaboration, one day is focused on interdisciplinary team collaboration and the other is focused on our school wide mission and vision.

Teaching and Learning

Alignment of curriculum, instruction, and materials to content and performance standards (ESEA)

Lessons are designed using the district-adopted curriculum. Instructional design is based on Common Core standards and Math Practice Standards. The use of common curriculum guides helps to ensure that all students are receiving grade level standards-based instruction. The English department administers a district-wide Performance Task twice a year to calibrate assessments and develop future lessons and instructional needs based on assessment data for student mastery of concepts in literacy.

Adherence to recommended instructional minutes for reading/language arts and mathematics (K–8) (EPC)

All students are enrolled in the required number of minutes for ELA and math every day as reported through the monitoring of daily instructional minutes.

Lesson pacing schedule (K–8) and master schedule flexibility for sufficient numbers of intervention courses (EPC)

Additional support for English Learners is provided within the school day in designated language support classes called Achieve. Study Skills classes are also provided for students with disabilities. Students are given additional time for support during advisory classes, held every day except Wednesdays.

Availability of standards-based instructional materials appropriate to all student groups (ESEA)

All content areas have standards-based instructional materials provided by the district for all student groups.

Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)

All students have SBE adopted materials for their courses, intervention materials, and access to standard-aligned core courses.

Opportunity and Equal Educational Access

Services provided by the regular program that enable underperforming students to meet standards (ESEA)

We offer a variety of intervention options for students during the regular school day through parallel classes, and after school through intervention sessions. We also ensure that teachers are available for supporting students on a daily basis before school, during advisory and after school.

Evidence-based educational practices to raise student achievement

There are multiple days where teachers collaborate throughout the year in designated collaboration time as well as in faculty meetings and professional development meetings.

Parental Engagement

Resources available from family, school, district, and community to assist under-achieving students (ESEA)

Regular communication is sent out to our families and surrounding community through monthly or quarterly meetings with our various parent groups. Parents of our English Learners meet quarterly to inform our EL student population and their families of important events and ways to support their students in their education.

Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)

Parents, teachers, staff members, and students are actively involved in the development, implementation, revision, and annual evaluation of our School Plan for effectively using Title 1 funds in our schoolwide program through quarterly PAC and School Site Council meetings. Parents, teachers, staff, and students are additionally involved each year in the development, implementation, and evaluation of the district's Title 3 plan to ensure academic achievement and language proficiency for English Language Learners through quarterly DELAC meetings.

Funding

Services provided by categorical funds that enable underperforming students to meet standards (ESEA)

The district provides categorical funding that allows each site to create an annual Intervention Plan for providing before and after school tutoring, and/or add extra 1/6th teaching assignments (where possible) into the school day for parallel support classes in Math and/or English. The district also provides professional development for teachers in best practices for supporting underperforming students through literacy across all disciplines, differentiated instruction, language support, equal access to rigorous academic content standards, support from Bilingual Instructional Assistants, the effective use of technology for increased student learning, and strategies for engaging all students in learning.

Fiscal support (EPC)

The district funds quarterly Parent and Student Engagement evening workshops, the LINK mentoring program, Counseling services, crisis intervention, student wellness support, donated computers for student use at home, translation services to increase parent engagement, college and career fairs, community resource events, and School Formula Accounts (SFA) for discretionary site needs.

Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

Involvement Process for the SPSA and Annual Review and Update

Rio Norte reconvened our School Site Council to review, provide input for, and update the SPSA. The members were given the goals and data prior to our first meeting. The goals and action steps were reviewed and approved.

Grade 7	618	647	634
Grade 8	686	662	644
Total Enrollment	1,304	1,309	1,278

Conclusions based on this data:

1. Our overall enrollment is on a slight decline.
2. There is a slight increase in our number of Hispanic students.
3. There is a slight decline in our number of White students.

Reclassified Fluent English Proficient (RFEP)		5	0	0.0%	13.9%	0.0%

Conclusions based on this data:

1. Our percentage of EL students schoolwide is very small.
2. The percentage of students who have developed Fluent English proficiency has declined slightly.
3. We had no students re-classified in the 18-19 school year.

Conclusions based on this data:

1. There was a slight decrease in overall scores for the ELPAC from 17-18 to 18-19.
2. There are several categories on the ELPAC with no data because our student numbers are too low to report.
3. Overall, close to 30% of our EL students are at Level 4, 3 or 1 on the ELPAC. About 10% of students tested at level 2.

This section provides information about the school's student population.

2018-19 Student Population			
Total Enrollment	Socioeconomically Disadvantaged	English Learners	Foster Youth
1278	12.7	2.7	0.2

This is the total number of students enrolled.

This is the percent of students who are eligible for free or reduced priced meals; or have parents/guardians who did not receive a high school diploma.

This is the percent of students who are learning to communicate effectively in English, typically requiring instruction in both the English Language and in their academic courses.

This is the percent of students whose well-being is the responsibility of a court.

Filipino	89	7.0
Hispanic	270	21.1
Two or More Races	101	7.9
Pacific Islander	2	0.2
White	586	45.9

Conclusions based on this data:

1. Rio's largest ethnicity after White is Hispanic at 18.9% and Asian at 14.9%.
2. Almost 11% of Rio's population is socioeconomically disadvantaged.
3. Only about 3% of Rio's population are English Learners.

LEA/LCAP Goal

LCAP Goal 2 - Increase and improve student achievement by providing rigorous and standards aligned curriculum and instruction in core subjects with additional support for EL, SPED, and SED students.

Goal 1

Increase student learning in ELA for EL students through CCSS instruction, study skills support and enrichment. (Closing the achievement gap)

Identified Need

There is a gap between ELA CAASPP scores for EL and English only students.

Annual Measurable Outcomes

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome

Strategy/Activity 1

Students to be Served by this Strategy/Activity

(Identify either All Students or one or more specific student groups)

EL Students

Strategy/Activity

1.1 Students will engage in CCSS instruction with a focus on study skills and enrichment opportunities.

Students will go on a field trip to the Ronald Reagan library. EL students will experience more hands-on learning opportunities outside of school and during class instruction. Students will practice listening to different presentations. Students will have opportunities to summarize learning and share learning with peers.

Student will listen actively to docent during group tour.

Students will be given study skills support from EL teacher and counselors as requested in parent and student EL Google Survey results.

Goals include: Collaborate in group discussions during tour, take notes during exhibit presentations, gather evidence to support claims, describe and support the claims in paragraph writing, present knowledge acquired during museum trip in an oral presentation

Based on the research in: A Review of Research on School Field Trips and Their Value in Education By Marc Behrendt, Ohio University and Teresa Franklin, Ohio University 8 January 2014 <https://files.eric.ed.gov/fulltext/EJ1031445.pdf>

Strategy/Activity 2

Students to be Served by this Strategy/Activity

(Identify either All Students or one or more specific student groups)

EL Students

Strategy/Activity

1.2 Supplemental materials and supplies for EL students use in the classroom to assist in the academic experience and enhance the development of English language skills for overall academic improvement (Language Lab, etc.)

We believe the use of supplemental supplies, like noise-canceling headsets to be used with our iLit software, will benefit our EL students in their development of the English language. When supplemental materials and supplies are introduced the subject matter becomes more engaging. Specifically, the use of noise-canceling headsets increases the concentration of students which we believe will allow our EL students to obtain more listening and speaking practice when using the iLit software as students will be able to block out surrounding sounds that would otherwise be distracting. (as seen on <https://www.edweek.org/dd/articles/2010/01/08/02language-labs.h03.html>)

This aligns with the districts 2019-20 Title III plan, Implement Effective Programs and Activities, Activity 9: Provide school site ELD programs supplemental funds for program support, monitoring tools, supplemental classroom materials, student bus passes, mentoring, and/or field trips to support EL students' needs, enhance English proficiency, increase motivation, and provide real-world experiences for EL students.

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 2 Parent or Community Members
- 3 Secondary Students

Name of Members	Role
Audrey Asplund	Principal
Kacey Dawson	Classroom Teacher
Ron Ippolito	Classroom Teacher
Jennifer Pulaski	Classroom Teacher
Heather Ippolito	Parent or Community Member
Christine Davis	Parent or Community Member
Alec LeBaut	Secondary Student
Ava Francis	Secondary Student
Cameron Alexander	Secondary Student
Mona Branch	Other School Staff

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.
