Cost Recovery Overview

- Pairing utilization data with financial expense and square footage data provides the District with an accurate cost per hour to operate various buildings and grounds
- Cost or expense data includes operational expenses, program and capital costs
- Cost analyses provide a real-data baseline from which to base operational decisions and policies for recovering costs from outside groups

Cost Analysis

- Operational Costs—Utilities, maintenance & operations salaries and benefits, campus security costs, supplies and equipment, property insurance and specialized facility management costs
- Program Costs—Administrative and secretarial salaries and benefits, facility use management system costs
- Capital Costs—Amortized replacement & construction cost for a facility, building construction costs, depreciation schedule for a facility

Impact of Revised Board Policy, Administrative Regulations, and Exhibit

- Adjustment of Rates
 - Adjust current Fair Rental Value rates to 100% of Direct Cost
 - Higher in most cases, lower in others
 - This category is for commercial users who are making a profit from their activities
 - Adjust current Direct Cost rates upward by 30%
- Adjustment of Rate Groups
 - Adjust our Board policy to be more in line with other California school districts
 - State guidelines allow the distinction between youth sports teams charging more than \$60 per month and up to \$60 per month
 - Move youth sports teams charging more than \$60 per month from the Minimum Cost Rate Group to the Direct Cost Rate Group

Adjusting the Rates

- We are currently charging:
 - Direct Cost users approximately 37% of what the State calculator allows
 - 45 users in this category in 2018-19
 - 6,331 hours in this category in 2018-19
 - Average per hour cost change based on 1% increase: \$0.52/hour
 - Average per hour cost change based on 10% increase: \$5.20/hour
 - Fair Rental Value users approximately 59% of what the State calculator allows
 - 27 users in this category in 2018-19
 - 1,044 hours in this category in 2018-19
 - Average per hour cost change based on 1% increase: \$1.01/hour
 - Average per hour cost change based on 10% increase: \$10.10/hour

Adjusting the Rate Groups

- Number of participants in different rate groups in 2018-19:
 - Minimum Cost → 67 users for 13,239 hours of use
 - Direct Cost → 45 users for 6,331 hours of use
 - Fair Rental Value → 27 users for 1,044 hours of use
