#### **Suicide Prevention**

BP 5141.52 (a)

The Governing Board recognizes that suicide is a leading cause of death among youth and that school personnel who regularly interact with students are often in a position to recognize the warning signs of suicide and to offer appropriate referral and/or assistance. In an effort to reduce suicidal behavior and its impact on students and families, the Superintendent or designee shall develop measures and strategies for suicide prevention, intervention, and postvention.

The policy shall be written to ensure that a school employee acts only within the authorization and scope of the employee's credential or license. Nothing in this section shall be construed as authorizing or encouraging a school employee to diagnose or treat mental illness unless the employee is specifically licensed and employed to do so. 6. Crisis intervention procedures for addressing suicide threats or attempts

7. Counseling and other postvention strategies for helping students, staff, and others cope in the aftermath of a student's suicide

As appropriate, these measures and strategies shall specifically address the needs of students who are at high risk of suicide, including, but not limited to, students who are bereaved by suicide, students with disabilities, mental illness, or substance use disorders, students who are experiencing homelessness or who are in out-of-home settings such as foster care, and students who are lesbian, gay, bisexual, transgender or questioning youth.
