Goal 1.1 Academic Outreach Support in all core subject areas

Need: Due to the COVID-19 pandemic, students are participating in distance learning, and many are having difficulty learning independently in this type of educational environment. Maintaining their grades at this time is also challenging for students to pass their classes. Students are also facing a tremendous amount of social and emotional struggles brought on by being at home. By bringing small cohorts of students back on campus, we will be able to aid these students as they continue with digital learning. In order to successfully run these small cohorts, we will need assistance from substitutes to help keep numbers down due to the regulations put forth by the LA County Department of Public Health. Also, by having classified staff assist with supervising these small cohorts, we be able to support these students more.
